Filters and Grids

Before we explore the extranet in depth, please note that you have the ability to customize some settings in the extranet for your own unique experience.

- **Filters** – On many pages of the extranet, you will see a Filters section. This section allows you to narrow down the results on the page. Below is an example of the RFPs filter page. Once you have entered your filters, click the Apply Filters button to see your results. To customize this page, click the Manage Filters option in the top right corner.

  ![RFPs Filter Example](image)

- **Data Grids** - When viewing pages with filter options, just below the filters section is a data grid. A data grid displays a list of records matching the criteria you specified in the filters. You can update your default column heading in data grids by clicking the Sprocket icon in the top right corner of the data grid.

  ![Data Grid Example](image)

Within each data grid you may see several icons to the left of each record depending upon the page you are viewing. These icons are:

1. **Pencil** – edit the record
2. **Eyeball** – view the record
3. **Clone** – duplicate the record
4. **Add Button** - Depending on the page, you may see an Add button to the top left of the data grid. When this option is available, click the button to add a new record.
You can customize your filters and data grids as you prefer. When clicking on settings options, you will see a menu on the right, where you can personalize your filters, data grid columns, and ordering.

If you are new extranet user, use the username (your email address) and password provided in the email sent to you from kquant@albany.org. You will immediately be prompted to enter a new password. If you ever forgot your password, click on Forgot Password? and a new changeable password will be emailed to you.
At A Glance is a brief view of your listing and special offers tracking. You can also click the See All link to the right to view more information about your interaction with the ACCVB.
