Item 1: Call to order. Angela Knapp Eggers established a quorum and called the meeting to order.

Item 2: Approval of Minutes from October 25, 2023. Motion was made by Phyllis Golden, seconded by Jason Fenton, and unanimously carried to approve the October minutes.

Item 3: Presentation and Consideration: Financial Report. Braley Beck presented the Monthly Board Report for October 2023.

Kashion Smith reminded everyone that in the past our budget was based on projections. We have now reached the point that we can operate from cash on hand. We do not have reports from the City for this month's meeting, since it is being held a week early.

We now have three bank accounts for investments, checking and revenue. She explained that the revenue account is for non-HOT funds, board donations, sponsorships, and merchandise sales.

Braley Beck also presented an update on the new accounting software for paying invoices through Bill.

Item 4: Announcement: Board Appointments for January 2024. Kashion Smith reported that the City Council approved the Ex-Officio positions held by Beth Duke and Bo Fowlkes. Vic Ragha, Jason Fenton, and Phyllis Golden were reappointed for second terms.

Item 5: Discussion: Formation of the ACVB Foundation. It was agreed that Kashion Smith will survey the board members for suggestions and feedback. This item will be discussed at the January meeting.

Item 6: Discussion and Consideration: Travel and Client Policy. Kashion Smith reminded everyone that the Loyalty Points and Credits clause (Section 6 Point E) is the last piece of the policy awaiting approval. After receiving more suggestions and feedback, Braley Beck presented the revised policy.

Motion was made by Jason Fenton, seconded by Tom Scherlen, and unanimously carried to accept the Travel and Client Policy as presented.

Item 7: Discussion and Consideration: Possible Changes to the Arts Marketing Grants Requirements. Kashion Smith went over the Funding Guidelines two-part requirements, and the six statutorily provided categories for the use of local HOT Revenue.

She went over the Marketing Assistance Funding Request Form that acts as a checklist for the required criteria.

She also shared a sample Marketing Assistance Funding Request that illustrates the applicant's advertising avenues and demographic data on their patrons.

There was discussion last month regarding applicants who receive HOT funds from another source. As a result of that discussion, we have created additional guidelines that will be included in next year's round of applications. She explained that a large percentage of that applicant's patrons are visitors which can easily fill a travel itinerary that encourages an additional night stay which qualified them for their grant.

She presented those guidelines for discussion and feedback. Based on that, they will be presented at the January meeting.

Item 8: Public Forum. There were no comments.

Item 9: General Announcements from Board Members.

Beth Duke distributed information on Center City's Deck the Herd Contest and the Electric Light Parade on December 1st. She congratulated Sherman Bass on his work in Amarillo's Music Friendly designation event.

Beth added that she nominated Melissa Dora Oliver-Eakle who will now be the first pioneer woman inducted into the TX Women's Hall of Fame.

Angela Knapp Eggers reminded everyone of Lunch 'n Learn hosted by the Laura Bush Institute for Women's Health today at noon.

Payal Nathu invited everyone to the Chamber of Commerce After Hours tomorrow at Towneplace Suites from 5-7 pm.

On behalf of the CVB, Kashion Smith presented Mary Ramirez with a retirement gift.

Quarter 1 Financial Report

Fiscal Year 2023.24 October 01, 2023 - December 31, 2023

> Prepared by Braley Beck

Prepared on January 19, 2024

Summary

The quarterly financial report provides a comprehensive overview of The Amarillo Convention & Visitors Bureau financial performance for the Q1 of FY 2023.24. Key highlights include:

Revenue and Sales:

- Total Revenues for this quarter amounted to \$893,416.71 with an additional \$27,983.07 in Interest Income
- ACVB HOT disbursements totaled \$401,493.59. These are being dispersed as our portion of the HOT
 collections minus the debt service.
- We received the true up for FY 2021.22 from the City minus our carryforward from FY 2022.23. This placed \$490,097 into our reserves.
- Nearly all Board Donations have been received.
- We began selling our Amarillo Hats online at the beginning of November. The initial sales push on social media was successful, we've sold \$36 hats for a gross profit of ~\$750.

Expenses and Cost Management:

 Operating expenses were closely monitored, resulting in current expenses totaling near 70% of what was budgeted.

HOT Collections:

- The HOT Report looks slightly different from previous years due to the debt service being pulled monthly before CVB disbursements.
- We are currently trending below last year's collections but are over projections by \$15,000.
- Collections are beginning to more closely align with STR data

Outlook and Future Initiatives:

- Our entire office is ramping up planning for this summer's Route 66 Celebrations.
- I am searching for grant and funding opportunities for our Route 66 initiatives that our office will qualify for.
- Our title sponsor, Amarillo National Bank, has been secured. We've had a few organizations reach out to us about sponsorship opportunities, and Kashion is actively working on securing more to reach our goal of \$100,000.
- We've begun to see more grant opportunities for Route 66 businesses and are seeking funding opportunities that our office can utilize.

Sample Size Reference & Diagnostics

The first metric provides a reference for the number of unique cardholders (Zartico Spend Data) used in the insights above. This value is controlled by the combination of filters selected at the top of the module. In statistics, larger sample sizes result in smaller margins of error (%+/-) and a higher confidence interval. This means that it is less likely that the result you are seeing is due to statistical noise and the greater the confidence you can have in the insights being provided. If these diagnostics show yellow or red values, the insights should be treated as directionally, but less precise owing to a smaller sample size. In these cases, eliminating filter criteria at the top of the module or widening the date range will increase the sample size and increase both accuracy and confidence in the data. The second metric shows the date visitor spend data is loaded through.
