A GREENER WAY TO GATHER

Sustainability is built into every aspect of the Huntington Convention Center of Cleveland. Our LEED Gold-certified facility features a 4-acre green rooftop, natural lighting, and 13 water refill stations that eliminate more than 57,000 plastic bottles annually.

Our on-site farm grows herbs, vegetables, and fruit, while our beehives produce local honey. Grind2Energy transforms food waste into renewable energy and soil nutrients, generating enough energy to power more than 20 homes for one month.
