

# Game-Changing Rapid COVID-19 Testing

**Rapid, Accurate & Affordable**

20-min saliva-based PCR, on-site

15-min high-accuracy antigen, on-site

**AllClear**  
HEALTHCARE

## We Help Hotel Meetings, Offsites and Events Get Back to Business

Introducing AllClear Healthcare. Our mission is to revolutionize the speed, accuracy and affordability of group COVID testing, to help get business back-to-business.

We do this by providing organizers of hotel meetings, offsites and events with access to our digitally equipped fleet of mobile testing vans and medical technicians. You get game-changing on-site group PCR testing, with test run times of less than 20 minutes.

This enables events to test everyone on-site and receive results before the event is scheduled to begin. Your corporate clients are now able to get back-to-business and rejuvenate their corporate culture within a COVID-secure environment.

## Our Service Offering

We've designed our customer experience around the needs of event organizers, who demand lab-equivalent accuracy and optimal process efficiencies.

Our testing options include, but are not limited to:

- **Saliva-based PCR tests, with a test run time of less than 20 minutes.** The CDC's gold standard testing, with results in minutes!
- **Point-of-care antigen tests, with a test run time of 15 minutes.** Game-changing microfluidics technology that differentiates this test from other rapid antigen tests.

All of our testing is supported by our digital platform and testing technicians to facilitate seamless customer registration, testing processes, online result notification and summarized reporting for event managers. We believe accuracy and speed shouldn't need to be a tradeoff.

## Our Event Expertise

Corporate Meetings

Conferences

Private Events

Sporting Events

Concerts & Festivals

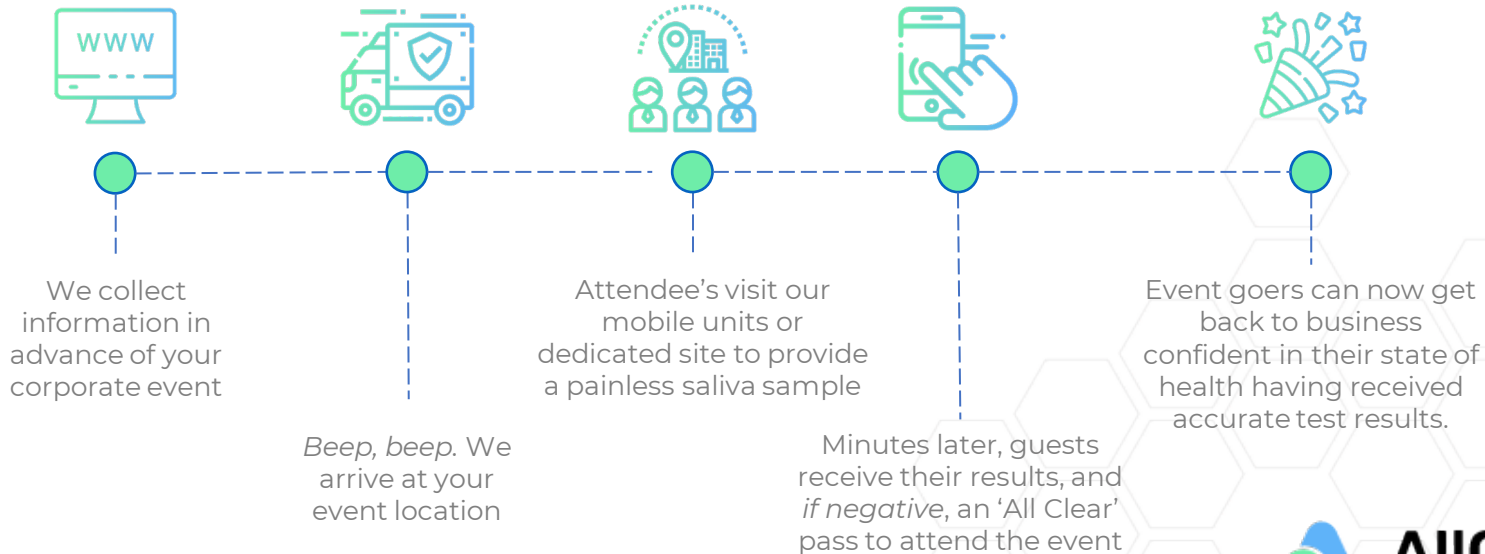

Weddings

## Our Event Testing Process Flow

Schedule a call with a dedicated account manager to share your testing needs. We will work with you to customize the right solution for your event and manage the rest!
