

THANK YOU!

Your visit to Cape Cod is helping to keep our waters clean.

Every guest staying overnight in accommodations on Cape Cod now contributes 2.75% into the new Cape Cod Water Protection Trust. This fund helps the Cape's 15 towns protect our local waters and maintain the quality of our beaches, bays, ponds and salt marshes.

As an investment in our future and the health of our waters, we are grateful for your business, and your contribution to the Trust.

For more information on how nitrogen in the Cape waters impacts our way of life, visit CCWPTF.org.
