

Service and Maintenance Mechanic

[Holdgate Partners](#), a dynamic and growing civil and concrete company located on beautiful Nantucket, is seeking an experienced Service and Maintenance Mechanic.

The Mechanic is responsible for maintaining trucks and equipment in safe, working order. As part of this role, the Service and Maintenance Mechanic performs routine and preventative maintenance (oil changes, tune ups), performs tests on parts/systems to ensure proper functioning, diagnoses faults or malfunctions, repairs malfunctioning parts/systems (including brake pads, water pumps, transmissions or other mechanical parts), and may assist with repairs on larger projects.

Responsibilities will also include dismantling and reassembling heavy equipment, welding, and rewiring among other duties. The Mechanic is responsible for maintaining accurate maintenance records/repair logs, maintaining an organized workshop and ensuring that all work complies with Company and OSHA standards.

Candidates must have demonstrated experience in all aspects of vehicle repair and excellent repair skills; experience in the construction or heavy equipment industry preferred. High school diploma or equivalent; vocational/technical school program or apprenticeship in auto repair or related field required. Candidates must have the ability to read service/repair manuals and tech manuals/schematics. Strong communication skills and MA driver's license required; CDL preferred. Candidates must be organized and able to prioritize work orders and schedule maintenance repairs as needed. Preference for candidates who bring an understanding of mechanical, hydraulic, pneumatic and electrical systems as well as experience using computer diagnostic equipment.

The position is full time and Holdgate Partners offers a comprehensive benefits program. To apply, please submit your application to mike@holdgatepartners.com.

Shop Assistant

[Holdgate Partners](#), a fast-growing civil and concrete company located on beautiful Nantucket, is seeking a Shop Assistant. This is an ideal opportunity for motivated individuals who are looking to gain experience or looking for extra hours – either full or part-time.

The Shop Assistant supports all aspects of the maintenance shop and is responsible for cleaning and restocking parts, performing safety checks, fueling vehicles and maintaining logs. General shop experience, truck bodywork and detailing preferred, but **we are willing to train**. Candidates must be resourceful, organized and have strong communication skills.

Flexible schedule available. Holdgate Partners offers a comprehensive benefits program to full-time employees. To apply, please submit your application to mike@holdgatepartners.com.

Crane Operator

[Holdgate Partners](#), a dynamic and growing civil and concrete company located on beautiful Nantucket, invites applications for a Crane Operator. The Crane Operator is responsible for operating hydraulic cranes, derricks, hoists, telescope booms, lattice booms, and other lifting equipment to lift/move materials and machines in accordance with load specifications and safety requirements.

- Perform pre-operational checks and routine maintenance.
- Calculate load capacity, position and secure loads using various rigging and slinging techniques. Ensure that rigging is free from defects and ensure that there is no shock load rigging.
- Inspect and monitor clearances, height restrictions ground conditions and complications of both equipment and the job site.
- Read/interpret blueprints and load plans/charts to determine the proper set up and operation for designated jobs.
- Ensure proper trench protection is used.
- Actively participate in safety planning and ensure compliance with all safety requirements.
- Maintain detailed logs/reports on operations, maintenance and safety checks.

The position requires strong communication skills to be able to effectively interact with team members to execute lifts accurately and safely. The position requires demonstrated experience operating cranes or hoisting equipment on construction sites, valid MA Hoisting Engineer License (1A), high school diploma/GED equivalent; Crane Operators certification preferred. Candidates must possess a strong understanding of load dynamics, rigging and related safety procedures and have the ability to read/interpret blueprints, schematics and technical documents. Excellent communication skills required. The position is full-time.

Holdgate Partners offers a comprehensive benefits program. To apply, please submit your application to mike@holdgatepartners.com.
