

## **Marine Painter/Fiberglass Technician**

Parker's Boat Yard Inc. is a small family owned and operated full-service yard for maintenance, repairs, yacht storage, dockage and moorings, located in Red Brook Harbor in Cataumet, MA.

We are currently seeking an experienced Marine Painter/Fiberglass Technician to join our team. Must have experience in preparing, painting and varnishing both the interior and exterior of boats, as well as boat parts. Experience applying Gelcoat and spraying Awlgrip finish coats a plus. The ideal candidate must be team orientated, but also have the ability to work well independently. They must be dependable, tidy, organized, and able to follow directions well. Must be able to meet a schedule and charge out materials, parts and labor accordingly. Other boat related and marine service skills are advantageous.

The successful candidate will be dedicated to continuously improving and learning new skills. Continuing education opportunities and professional development training are available. We value our employees and hope the ideal candidate will join us for a lifelong career.

Hours: M-F 8:00am-4:45pm

Some Saturday mornings throughout the spring.

### **Qualifications:**

- Experienced Fiberglass Technician/Marine Painter with Awlgrip application experience
- Strong understanding of preparing, painting and varnishing
- Full knowledge of the requirements for varnish prepping and sealing and the products utilized
- Ability to keep track and write down work performed, parts used and time spent
- Ability to follow written work orders, take notes while performing work and communicate the work performed effectively to manager
- Follow established procedures
- Follow estimates and complete jobs on time
- Willingness to learn, listen and take direction
- Desire to continuously improve

### **Responsibilities:**

- Prepare wood, metal, fiberglass or other surfaces for painting and varnishing
- Tape or otherwise protect surrounding surfaces such as decks, hardware, and windows
- Clean, sand, and smooth surfaces, using appropriate tools, such as scrapers, sandpaper or chemicals
- Ability to perform small repairs to surfaces prior to paint
- Applies coats of paint, varnish, or stain, as appropriate, to protect interior and exterior surfaces, trimmings and fixtures of boats
- Follow prescribed safety rules and regulations and maintain safe clean work area
- Sets up and dismantles staging following OSHA staging guidelines

### **Benefits:**

Comprehensive benefits package; salary commensurate with experience. Medical, Dental, 401K, short term disability, paid vacation and sick time provided.

Professional development training available.

Job Type: Full-time
