

LIVE TO LEARN

Learning is FUNdamental

Students are inspired by the hundreds of hands-on experiences and learning labs throughout Columbus and then get to cut loose with bumper cars, bowling, laser tag and more.

Ideal for groups 25+

DAY ONE

Morning | Groups are inspired by master works during a guided tour of the [Columbus Museum of Art](#). Then, spark deeper thinking in the Center for Creativity.

Lunch | Active learning takes flight in the Butterfly Garden at [Franklin Park Conservatory and Botanical Gardens](#). After a box lunch, an immersion into bio- and environmental science completes the stop.

Afternoon | Hundreds of hands-on experiences and Learning Labs have made [COSI](#) the nation's top science center. And it just got even better with a brand-new, permanent American Museum of Natural History Dinosaur Gallery, including a life-sized Tyrannosaurus rex cast. Just across the street is the [National Veterans Memorial and Museum](#), a new 7-acre historical landmark that pays tribute to veterans of all American conflicts and branches of service.

Evening | [German Village](#) provides a living lesson in U.S. history and immigration before an authentic German-American dinner at [Schmidt's Restaurant und Sausage Haus](#). Then, test the limits of the karts at [Grand Prix Karting](#) – a fun-filled end to an experience-packed day.

DAY TWO

Morning | Groups are swept away as they discover the Kelton family "secret" during the living history experience at the [Kelton House](#), a restored Underground Railroad stop. Afterward, a backstage tour of the [Ohio Theatre](#) entertains with a light show and Mighty Mortin theatre organ performance.

Noon | Lunch at the historic [North Market](#) puts cuisine from around the globe within easy access. Or, eat a family-style lunch at [Buca di Beppo](#), another student group favorite.

Afternoon | Students are "blown away" when they see the whistles their coaches and teachers use being made at [American Whistle Factory](#), the only metal whistle manufacturer in the U.S. Everyone leaves with a shiny new whistle. Then, time travel to grandpa's day at the [Ohio History Center](#) with the "1950s: Building the American Dream" exhibit.

Evening | Cut loose at [Magic Mountain Fun Center](#) with bumper cars, batting cages and video games, bowl at state-of-the-art Star Lanes, or enjoy laser tag at [Lazer Kraze](#).

DAY THREE

Morning | See first-hand how wooden baseball bats are crafted. Groups meet the maker of bats at [Phoenix Bat Company](#) and take home their own engraved bats. Then, delight in hands-on animal presentations and docent led tours at the [Columbus Zoo and Aquarium](#), named "Best Zoo in America."
