A detailed historical reconstruction of a brewery interior. The scene is dominated by red brick walls and wooden beams. In the center, a large brick furnace with an arched opening contains a bright fire. A man in a white shirt and dark trousers stands with his back to the camera, tending to the furnace. To the left, several wooden barrels are stacked on a wooden frame. In the foreground, more barrels are scattered on the floor, some with labels. A wooden table holds various tools and a white pitcher. In the background, another man is visible on a raised wooden platform, working with a large basket. The overall atmosphere is one of a busy, traditional industrial setting.
