To Whom It May Concern,

Bicycle Colorado strongly endorses the effort to bring the 2030 Gay Games to Denver and Colorado. We offer an exceptional setting for the Games: a beautiful, inclusive and dynamic city that is built at the base of the spectacular Rocky Mountains.

Bicycle Colorado is a 32 year old non-profit organization that works to make all forms of bike riding safer in Colorado. Our multi-faceted approach includes legislative work, advocating for bicycle-safe infrastructure, bike and driver education, and supporting the hundreds of bicycle events that happen annually across the state.

In the past two months, we have been working with Denver's Local Organizing Committee to support the bid for the 2030 Games. We strongly believe in this effort and believe that this committee is prepared to create an exceptional sporting experience for the athletes.

We have leveraged our relationships with bicycle event directors who provide safe, challenging and beautiful races, and who are excited about the opportunity to incorporate the Games into their events and bring an international sporting event to our area. All of us at Bicycle Colorado are very excited and proud to be part of this effort to bring the Games to Denver in 2030.

Most sincerely,

Chris McGee
Event Support Manager
