

Dear Federation of Gay Games,

We at Summit Sports League are excited for the incredible opportunity that Denver's bid to host Gay Games XIII represents for both our members and the broader North American sporting community. Denver's central location within the United States, with non-stop flights to all fifty states and eighteen countries, would allow for unparalleled access to the Games for our members.

The many cultural and recreational opportunities in and near Denver, with its easy access to the Rocky Mountains and thriving sports, music, and theater scenes, make the city an appealing destination for members looking for an accessible destination for summer travel. Denver's reliable summer weather – with 300 days of sunshine a year – world-class sporting facilities, and culture centered on active lifestyles and outdoor recreation make it an ideal location for athletic competitions.

Summit Sports League is an inclusive non-profit organization focused on building a welcoming and socially rewarding atmosphere for all, no matter orientation, gender identity, or athleticism. Our mission is to grow and empower each other through recreational sports and social opportunities, bettering the greater Denver community in which we are a part of. We feel this opportunity completely aligns with our goals as an organization.

We fully support Denver's bid to host the 2030 Gay Games and, should Denver be selected as the host city, would promote the Gay Games to our members at our regularly scheduled events, tournaments, and practices. We would partner with the Denver Gay Games Bid committee to secure promotional materials to post when possible, and would make our members aware of opportunities for sponsorships, discounts, and other avenues to ensure the Games are accessible to as many individuals as possible, regardless of their socioeconomic background.

Sincerely,

The Summit Board of Directors
