

Art like this takes a village.

The Eau Claire Sculpture Tour exists because of the generosity of local businesses and organizations who believe in the transformative power of public art. Year after year, their support brings world-class sculptures to our sidewalks, parks, and river paths — free for everyone to enjoy.

Support the Eau Claire Sculpture Tour!

The #1 largest rotating sculpture tour in the nation. Zero admission. That equation only works with community backing. If you believe art belongs in accessible public spaces, scan the QR code to learn how to help make it happen.

The city *is* the gallery.

Eau Claire's streets, parks, and riverwalks have always had something worth stopping for. The Sculpture Tour just made it official.

Each year, more than 120 original works by local and national artists find temporary homes throughout downtown Eau Claire & a handful of surrounding communities — displayed in the open air, free to anyone who wanders past. No admission. No reservation. Just art, out in the open, waiting to be discovered.

The Eau Claire Sculpture Tour is the **#1 largest rotating sculpture tour in the nation**. But more than a record, it's a reminder: great art doesn't have to live behind glass.
