Assessment Methodology

LAND SIDE CBD PROPERTY ASSESSMENTS

For the land side, there are four property variables that are used in determining individual assessments. The factors are:

1. Linear frontage (sidewalk frontage)
2. Land area
3. Entire usable building square footage
4. Building use

There is a total of 2,151,139 square feet in gross lot size, 28,276 feet in linear frontage and 4,486,146 in building square footage. Three benefit zones have been created in the District for calculating assessments.

Benefit Zone 1 includes roughly all parcels north of Bay/North Point, between Polk and Powell to Jefferson.

The formula for calculating the assessment is:

\$0.091612 per square foot of lot size
 + \$ 5.4296 per linear foot of lot frontage
 + \$ 0.072168 per square foot (Building Use "A or B") or
 \$ 0.033368 per square foot (Building Use "C-E") or
 \$0.05 per square foot for residential "F")

Note: See chart below for building categories.

Example: A 5,000 square foot lot, with 50 feet of frontage and 4,000 square feet of usable retail or commercial building use:

5,000 x .091612 = \$ 458.06 in lot size
 50 x \$ 5.4296 = \$ 271.48 in linear frontage, and
 4,000 x \$.072168 = \$ 288.67 in bldg sq footage (A or B)
 Total assessment: = \$1,018.21 per year

Benefit Zone 2 includes parcels west of Polk and east of Powell. Benefit Zone 2 parcels are assessed at the same rate as above but without a building factor assessment.

The formula for calculating the assessment is:

\$0.091612 per square foot of lot size
 + \$ 5.4296 per linear foot of lot frontage
 = Total Assessment

Benefit Zone 3 includes the ILWU* block bordered by Beach, Mason, Taylor and North Point. Parcels are assessed on the basis of linear frontage only. All residential parcels are assessed \$0.05 per square foot per year. The formula for calculating the assessment is:

\$ 5.4296 per linear foot of lot frontage (ILWU Block)
 = Total Assessment

* The ILWU is designated as Benefit Zone 3, because of its unique position in the district and was assessed upon its four sides of linear frontage only.

Building Uses In Land Side CBD For Zone 1

BUILDING CODE	CATEGORY
A	Retail space, hotels, motels, visitor related
B	Office and Commercial uses, free standing parking structures
C	Industrial/Manufacturing/Distribution
D	Institutional (City, County, public utility, parks, etc.)
E	Church, non-profit, tax-exempt, affordable housing, rent-controlled housing
F	Multi-unit housing, condos, apartments
G	Non-functional building structures

PORT SIDE CBD PROPERTY ASSESSMENTS

The port side is comprised of retail/walk-in, hotel, food and beverage businesses, general motorized land-based tour operators and for-profit parking lots. These businesses are assessed on their annual gross sales as reported to the Port of San Francisco from the previous calendar year. This data is provided to the Port of San Francisco on a monthly basis and is public information. The assessment factor applied to that gross sales figure is .0014%.

Example: Gross Sales \$1,000,000 x .0014
 = \$1,400 Assessment

Tour operators/tour boat vessels and related businesses (including large and small tour boats and sport fishing boats), are assessed based on the number of passengers per vessel operator or per horse drawn carriage company or per pedi cab company.

The assessments range from \$250 to \$2,000.
