Small Interview Room:	16' x 11' space can accommodate 25

BACKSTAGE & LOCKER ROOMS

BUILDING EQUIPMENT

LOADING DOCKS

Dickies Arena has 6 loading docks at the main entrance with four available for event use all day. Two are reserved for building use, but can work with the show schedule as needed, just coordinate with your Event Manager. There is also a ramp that can handle a full semi-truck. The size of the loading dock bays are 8' wide by 10' high. It is an approximately, 175 foot push to the start of the arena floor.

There are also two open air docks and a ramp on the NE corner of the building. The roll up door from the docks into the building is 15' wide by 12' high.

ELEVATORS

Dickies Arena does NOT have freight elevators in the building. There are two service elevators with a 5,000 pound capacity. The doors on the service elevators are 8' high and 4.5' wide. One is located right off the marshaling area near the security offices in the SW corner (elevator 4) of the event level and the other is located in the NW corner (elevator 5).

SOUTH END/STAGE END BACK WALL

Dickies Arena has a hard wall at the south end or stage end of the building. The wall does have a large opening in the center that is 18'6" wide x 36' tall. Also on the sides, the wall stops 9'5" off the ground on either side of the main opening.

STAGING EQUIPMENT

Dickies Arena has a Stage Right staging system. The stage is variable in height from 48" to 72" in 2" increments. All decks are 4' x 8' with a weight capacity of 125 lbs per square foot. The stage has the capacity of being as large as 80' x 40' with some ability for small wings/thrust. Skirting, railings, steps, and ADA ramps are available upon request.

There is a limited supply of 4' x 8' decking with 12", 24", or 36" legs.

IT SERVICES

Event telephones and hard wire ethernet connections must be ordered at least two weeks prior to the event date. There will be a technician on site to handle all telephone and ethernet connections at load-in.

Phone Connection per line	\$100
Ethernet Connection per drop	\$250
Public Wireless Internet	free of charge / no password

FORKLIFTS

Dickies Arena has the following forklifts available for shows:

- (1) Toyota brand forklift with a load capacity of 10,000 pounds, 11' mast, and 5' blades
- (2) Toyota brand forklift with a load capacity of 5,000 pounds, 15.75' mast, and 4' blades

BUILDING EQUIPMENT

SPORTS EQUIPMENT

Dickies Arena has a 120' x 60' Connor, NCAA marked basketball floor. There are five Complete Legacy 10 portable goals with kinematic integrated stabilizing system, dunk-proof backboard, pro action 180 Rim, and padding. There will also be a 40' ANC LED scorer's table.

For hockey, there is an Athletica Crystal Plex .590 Dasher and Shielding system with Marsh Pegs at 11', 13' and 15'. There are two Zamboni ice resurfacing machines onsite.

LAUNDRY / TOWELS

Dickies Arena does have onsite laundry for events to use. Please work with your Event Manager to gain access to the laundry facility. Soap is NOT provided by Dickies Arena.

Dickies Arena does have white bath towels available for use at \$10 per dozen as well as black hand towels available for use at \$8 per dozen.

FURNITURE / PIPE & DRAPE

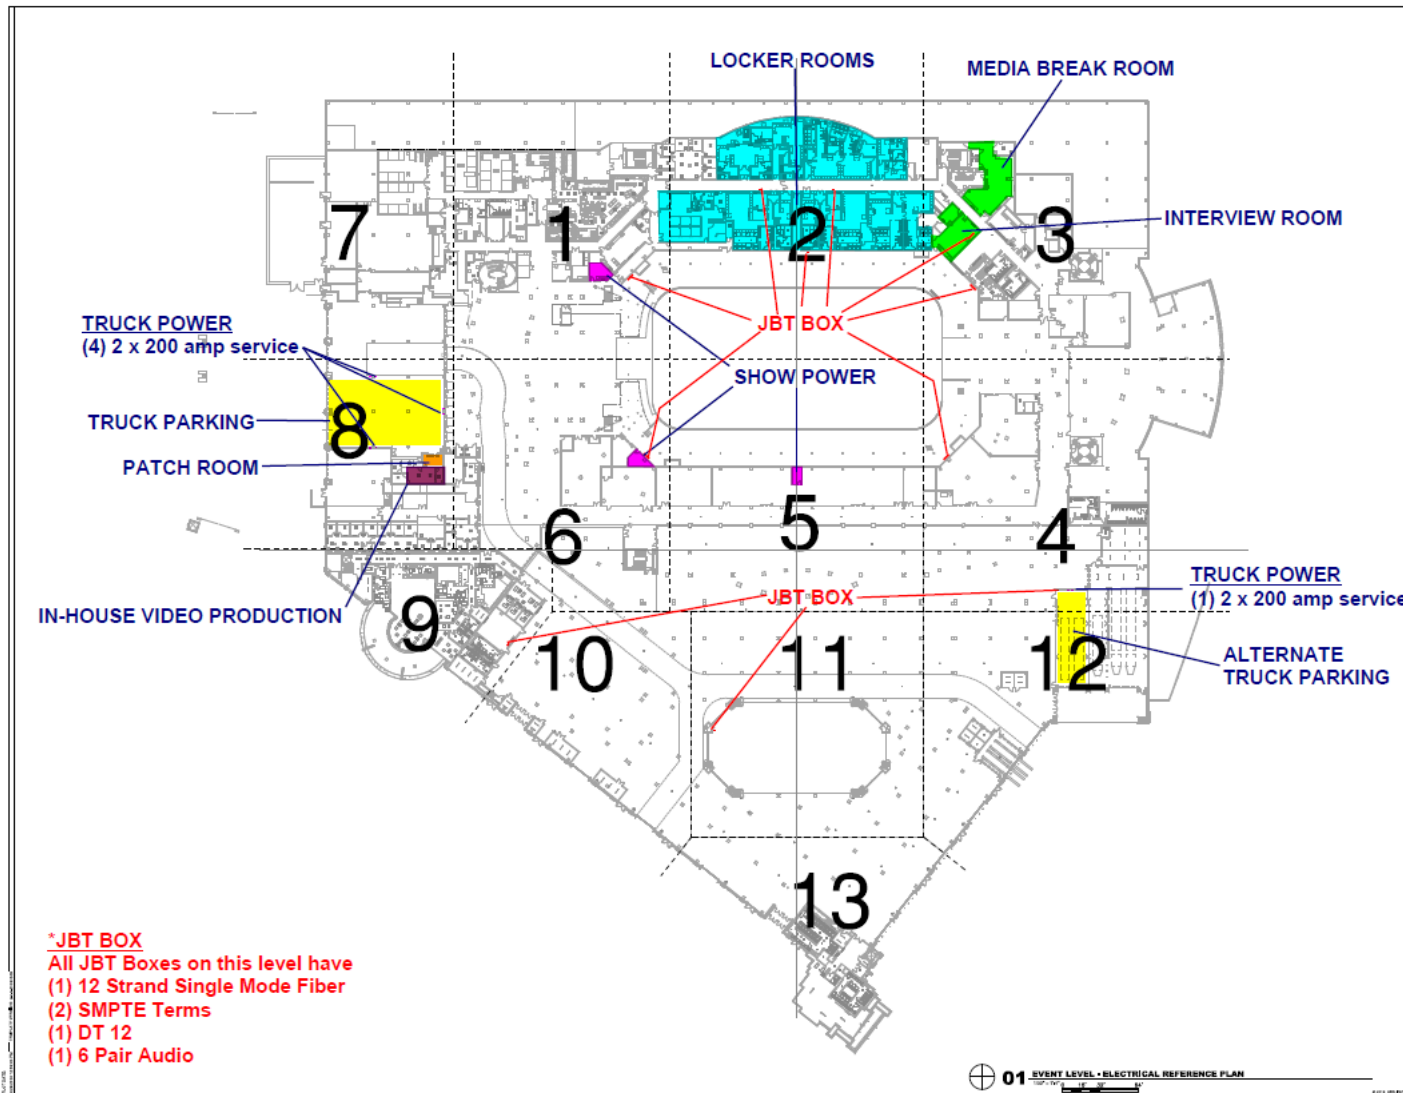

Dickies Arena does have four sets of furniture in house that can be used at a cost of \$200 per set, and has limited pipe and drape available in house. Your Event Manager can assist you in making rental arrangements for those items if you need more than what is in house.

WEIGHT ROOM

Dickies Arena has a weight room available for event staff use. Please request use of the room through your Event Manager. There is a mix of equipment that includes: 2 treadmills, 2 ellipticals, 1 recumbent bike, 1 Airdyne bike, water rower, weights, exercise balls, and more.

HOUSE CURTAIN SYSTEM

Dickies Arena has an end stage drape that is 112' wide x 73' tall. There is also a house reduction curtain that can cover the entire Gallery Level/200-level seating section. The Gallery Level system can be used in segments as needed based on ticket sales.

SHOW POWER

RIGGING INFORMATION

RIGGING PLANS

All overhead rigging plans, including desired flying points and associated weights, side, and overhead view drawings must be submitted to Dickies Arena at least 30 days prior to the show. This is of particular importance for all set ups that are anything other than an end stage set up. Any concerns for weight capacity will be approved by Dickies Arena and their engineer of choice at the expense of the show.

RIGGING LOAD

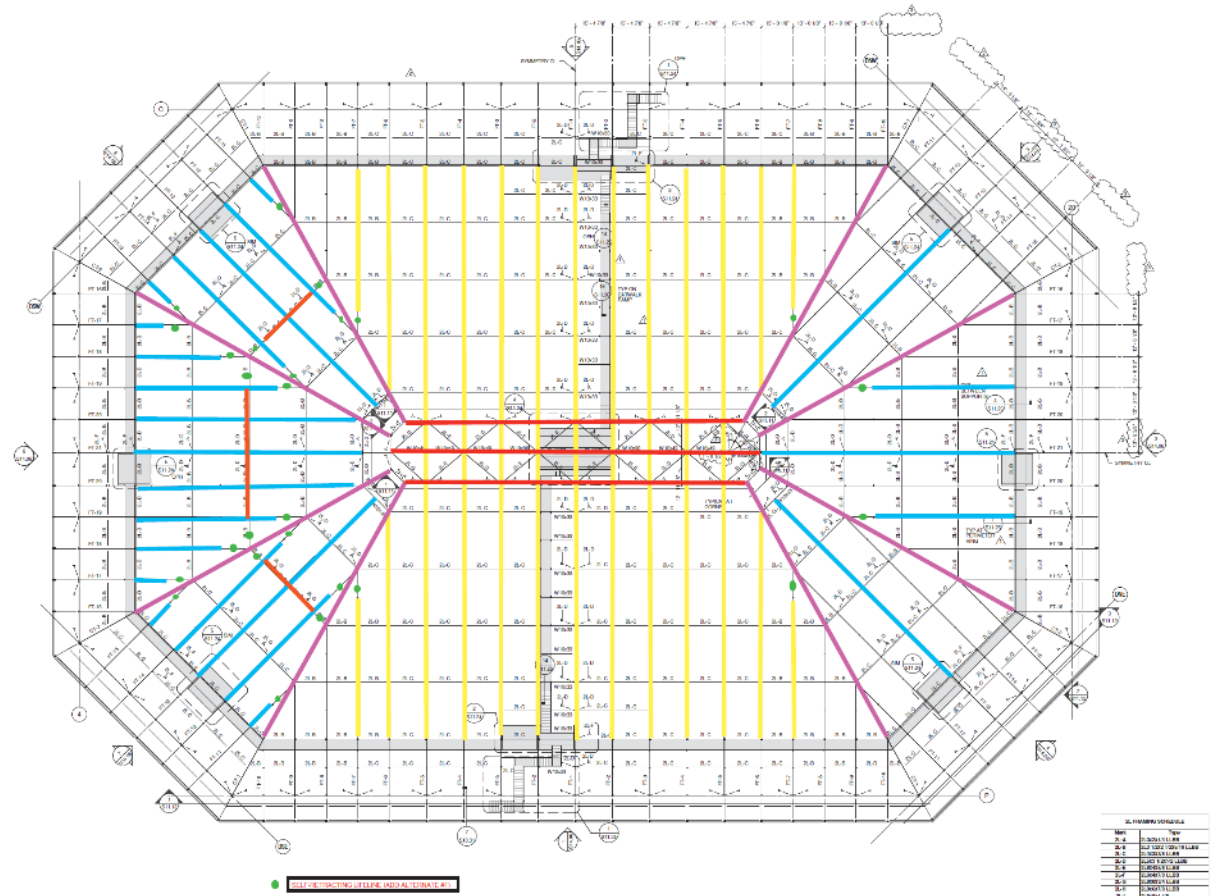

The building total rigging load is 200,000 pounds. Please work with your event manager with any questions.

VIDEO BOARD

The video board can be rigged through and with some weight limitations. When raised all the way the bottom trim height is 100' from the arena floor. If an event will rig through the board, we must be notified ahead of time, due to the process of taking out the scrim under the board.

AUDIO RING

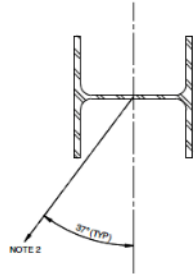

The audio ring truss is at 80' from the arena floor and the bottom trim height of the speaker cabinets is 65' from the arena floor.

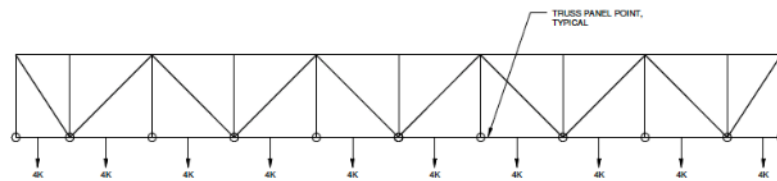

RIGGING FALL ARREST SYSTEM

RIGGING POINTS & LOADS

1 ROOF TRUSS SHOW RIGGING PLAN 1/16" = 1'-0"

SPOTLIGHT POSITIONS

BUILDING POLICIES

DOOR OPENING

Dickies Arena prefers a minimum of one hour prior to the ticketed start time for doors to open. Based on weather, crowd demographics, and other factors, please work with your Event Manager to determine the appropriate door opening time.

DRONES

Dickies Arena does not allow any drones to fly inside or outside of our property.

HAZORS

The Event Manager for your event must be made aware of all fog machine/hazer usage. There can be no usage of these machines unless the Manager is aware and has given permission. A fire marshal may have to be present anytime there is haze inside the arena bowl or meeting spaces. This will be determined on an event by event basis.

PYROTECHNICS

All pyrotechnics must be cleared through the Fort Worth Fire Department. The Fort Worth Fire Department can be reached at 817-392-6840. A Texas licensed shooter is required to file the permit and be onsite for the event.

MOTOR SPORT/VEHICLES INSIDE BUILDING

Dickies Arena does allow cars on display inside the building. All cars/trucks must have a ¼ tank of gas or 5 gallons of gas, whichever is less in the car. The car battery must be disconnected, and the gas cap sealed/taped off.

For motorsports events, all vehicles must be fueled out side the building, including outside the loading dock. Fueling must be done in open air. A fire marshal is required on site during all performances when the vehicles will be operational. Your Event Manager can coordinate having personnel on site.

SHIPPING

Please reference the show name, your Event Manager's name, and your name on the packing labels. We do not accept shipments more than 48 hours in advance of a show without prior arrangements. Your Event Manager can assist with arranging outgoing shipments after your load-out. The shipping address is 1911 Montgomery Street, Fort Worth, TX 76017.

SMOKING

There is a strict no smoking policy, including e-cigarettes at Dickies Arena. Smoking is allowed only in designated areas outside of the arena. No smoking is allowed on the loading dock.

STAGEHANDS

The preferred labor company for all show labor is Rhino Staging. The Event Manager for the event will contact the labor company to make all labor calls. All hands are on a 4 hour minimum, except riggers which are on a 6 hour minimum on the in and 4 on the out. Overtime is charged at time and a half between midnight and 6am on all legal holidays. Meal breaks are required after 5 hours.

SPONSORSHIPS

All sponsorships including giveaways and other promotional items displayed or handed out on Dickies Arena property must be coordinated with your Event Manager. Due to some building exclusivities, certain sponsors may be precluded from displays inside the building and on building property. No vendors will be allowed that involve personal grooming. Please be aware that banners or any hanging materials are not permitted anywhere inside or outside Dickies Arena.

CATERING & MERCHANDISE

BACK-STAGE CATERING

Dickies Arena has the exclusive rights to provide backstage catering if the event is NOT traveling with their own caterer. Please make sure to let your Event Manager know if the event is traveling with their own caterer. There is a \$500 housekeeping fee with an outside caterer.

There is no open flame cooking permitted in the building. Sternos can be used but will require a permit from the Fort Worth Fire Department. Your Event Manager can assist with that if needed.

CREW DINING ROOM & PANTRY

Dickies Arena has a crew feed room that can seat 60 along with a pantry that does have limited cooking capabilities. There is power available in the room and in the pantry.

Please work with your Event Manager if the pantry is available for use during your event and the list of equipment available.

CATERING EQUIPMENT

Dickies Arena at this time, does not have additional refrigerators, ovens, etc. but your Event Manager can assist in arranging for any rentals. There are linens available for a small cost.

ALCOHOL POLICY

In accordance with Texas Alcoholic Beverage Commission, all alcohol (including backstage liquor) must be purchased through Dickies Arena, the official holder of the liquor permit. All liquor orders should be requested at least one week in advance of the event.

MERCHANDISE

Dickies Arena manages the right to sell all merchandise for events in the building. Multiple locations are available and must be approved by building management. Prior advancing with the building is required. Please coordinate with your Event Manager.

PARKING INFORMATION

LOADING DOCK

The loading dock is one way in and one way out. The entrance to the loading dock is off of Trail Drive. The exit will flow onto Montgomery Street. There are 6 loading docks available for load-in and out. After load-in we ask that the two docks closest to the security office be kept open for building deliveries during the day. Once the show begins, those two docks can be filled for load-out.

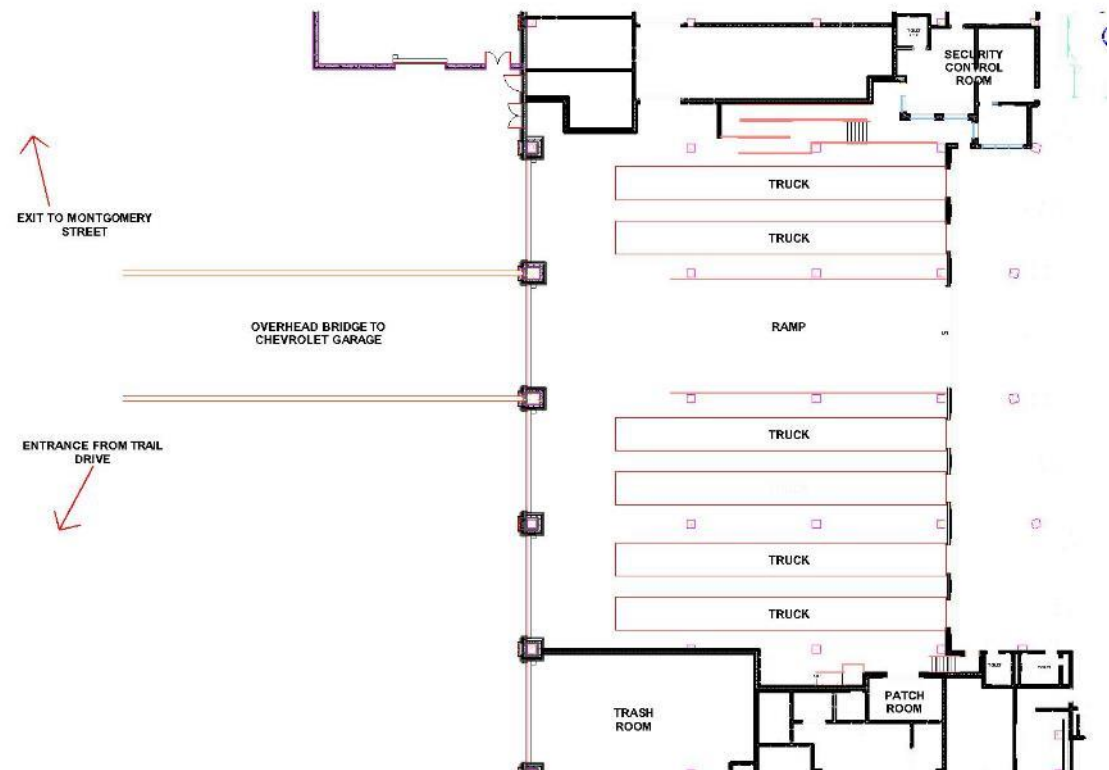

As a reminder our loading dock bays are 8' wide by 10' high in our main loading dock area. There is about a 175' straight push from the loading docks to the arena floor.

BUSES

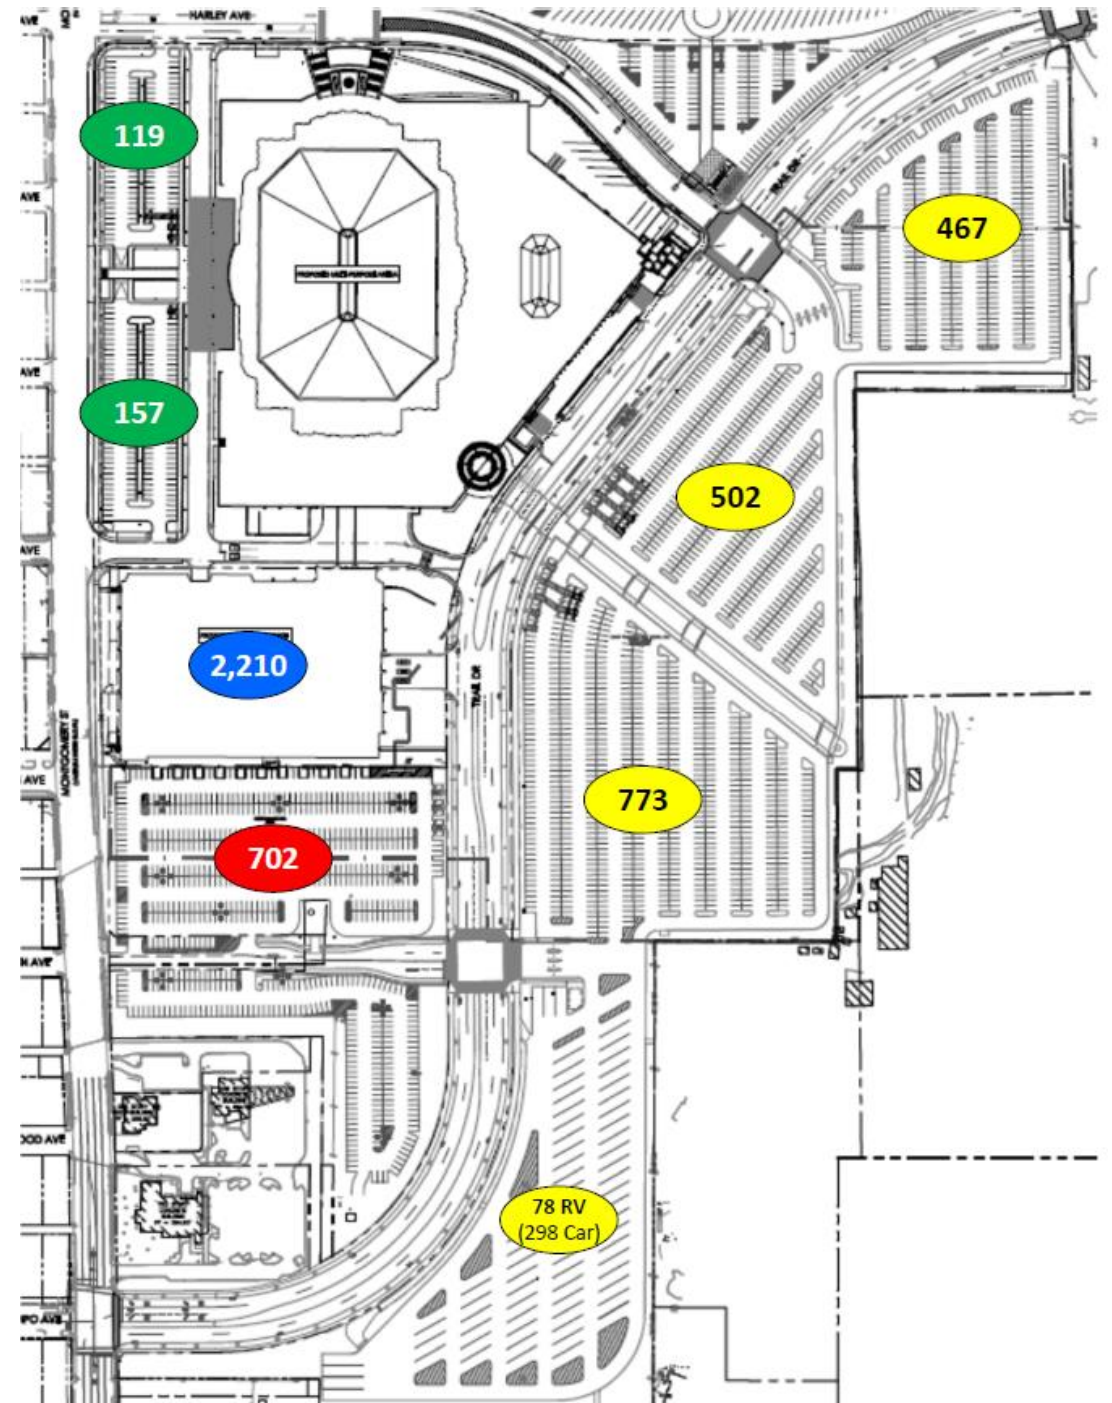

Buses are able to park in the loading dock where there is shore power connections available at 50-amp 3-phase. Buses may also be able to park in the exhibition space inside the building off the north side based on availability of the space. There are shore power connections inside as well.

OVERFLOW PARKING

Overflow bus and truck parking will be determined on an event by event basis. Please work with your Event Manager on needs and location.
