

## YOUR HYBRID MEETING SOLUTION

### Package Includes:

- NewTek TriCaster control panel
- 3 NewTek PTZUHD robotic cameras
- Mackie 12-channel professional effects mixer
- Ikan Kit with 3 canvas bendable bi-color LED Panel Lights
- 2 Sennheiser wireless mics
- Retractable 8-foot Greenscreen backdrop
- Inputs for presentation slides
- Outputs for live streaming room-to-room or on the internet.

### Virtual Event Support

Our portable A/V equipment allows meeting planners to deliver recorded or streaming event content from a high-quality broadcast studio anywhere on property: a meeting room, ballroom or even on the exhibit floor.

### Quality Visual and Sound

HD cameras provide professional resolution at high network speeds, and 3-point LED lighting evenly covers presenters and green screens for flawless viewing. Two wireless mics and a 12-channel mixer allow multiple speakers, music, video, remote Q&A and other audio volume to be individually controlled.

### Technical Support

Our Stagehand Crew will set up the studio and assist with operation. Or, bring in your own preferred tech crew to operate the rented equipment.
