

# GREATER FORT LAUDERDALE

## Lesson 2: Sea Turtles in South Florida

1. Name the three types of Sea Turtles found in South Florida:
  - a. \_\_\_\_\_
  - b. \_\_\_\_\_
  - c. \_\_\_\_\_
2. Sea Turtles typically lay their eggs between which months?
  - a. \_\_\_\_\_ and \_\_\_\_\_
3. If 20,000 hatchlings make it out to the sea, about how many will survive to become an adult?
  - a. \_\_\_\_\_
4. **TRUE or FALSE:** Male sea turtles also come to the sand on our beaches?
5. When did the Broward County Sea Turtle Conservation Program begin? \_\_\_\_\_
6. Draw a picture of what a nest looks like and the marks left on the sand from the female sea turtle.
7. What colors are the “turtle friendly” lights?
  - a. \_\_\_\_\_
8. If there were 3,500 nests laid in one year, about how many eggs will there be in total?
  - a. \_\_\_\_\_
9. What are ways that you can help save the turtles? Which ones are your favorite and why?
10. Ask your parents to take you on a Sea Turtle Trek! The Anne Kolb Nature Center at West Lake Park has a program and so does the Museum of Discovery & Science!
