BRYCE CANYON NATIONAL PARK

Fiery colors and endless vistas give way to a spectacular, breathtaking display of dreamy landscape. Fairy tale castle-like rock formations known as “hoodoos” capture your imagination as standing stones rise from fiery red earth. Infinite variations of color and shape erode into a mysterious amphitheater of what many describe as sacred ground. Discover the chess-like formations in Queen’s Garden as you gaze from

the park’s nucleus, Sunrise or Sunset Point. Views from The Rim Trail, which skirts the canyon edge, are stunning in all seasons. A round trip distance of 11 miles, this trail brings you to Inspiration Point and the mystical army of stone people called The Silent City. From the point, you can view the Wall of Windows and the Majestic Cathedral. Hike among the hidden treasures of Bryce Canyon National Park.

Journey into the depths of the hoodoos on foot. Stroll through a world seldom seen by most tourists. The Rim, Under the Rim, Navajo Loop and the Peek-A-Boo Loop trails are wonderfully amazing!

CAPITOL REEF NATIONAL PARK

This IS the “American West.” Capitol Reef transcends time with its history and scenic beauty. Cruise a gentle, winding road through the heart of this great land called the “Scenic Drive.” Hike to Cassidy Arch, named after an infamous outlaw, Butch Cassidy. See the historic Fruita settlement and

petroglyphs of the ancient Fremont people. Explore the Fremont River Trail and behold panoramic views that make you wish you could fly. The colors of this land stir your senses and create a feeling of calm, content and overwhelming joy.

KODACHROME BASIN STATE PARK

Sandstone chimneys and unique petrified spires called sand pipes rise skyward from the valley floor in a surreal setting at Kodachrome Basin State Park. Named by a 1949 National Geographic Society expedition, the park is a photographer's delight. Excellent hiking trails provide spectacular views. Enjoy a modern campground with hot showers, restrooms, concession service and trail rides.

Escalante Petrified Forest State Park is a showcase of petrified wood and fossilized dinosaur bones. Huge petrified logs, some pieces nearly five feet wide, can be seen along interpretive hiking trails.

Visit Wide Hollow Reservoir, located adjacent to the park. Enjoy water recreation, fishing and bird watching. Wide Hollow Reservoir is one of only a few wetland bird viewing sites in Southern Utah.

ANASAZI STATE PARK MUSEUM

Anasazi State Park Museum takes visitors back in time to A.D. 1050 when the Fremont and Kayenta Anasazi occupied the area. An estimated 200 people once lived at the site, making it one of the largest Anasazi communities west of the Colorado River. A self-guided tour winds through the partially excavated village at the Coombs Site Ruins. The park's museum has interactive exhibits and displays of prehistoric artifacts, as well as an auditorium and gift shop. A picnic area is also available. Anasazi State Park is located along Scenic Byway 12 in Boulder. The museum is open all year for you to visit, learn about ancient culture and explore its preserved treasures.

DIXIE NATIONAL FOREST
