

LOVE THE WITTERINGS

## To the crabbing pool at West Wittering from the main beach car park

The pool is only a few minutes' walk away from the centre of West Wittering and the main beach car park.

There are several ways to get to the pool. From the village centre, please see alternative walk note.

Don't forget the bacon rind!

Make your way all the way to the end of the West Wittering Beach Car Park (the opposite end to the entrance)

Ahead of you will be East Head, but you'll be taking the turning on the path to the right just behind these railings.

This is the start of the path.

Follow this path all the way along, enjoying scenes of the creek and the harbour to your left

You will reach a small concrete bridge.

To your left you will see the boats of West Wittering Sailing Club.

If you're passing at low tide, you'll see that the channel is very small, so members watch for high tide very closely!

From the bridge you may be able to see the crabbing pool down to your right, but please don't try to go straight down from here!

Take the small path just after the bridge, (after the bench in this picture) and you'll come to the pool.

Have fun!
