EMPLOYEE SPOTLIGHT

Tim Schroeder

**WATER METER TECHNICIAN
WATER TREATMENT PLANT**

Tim Shroeder has been an integral part of the City of Greensburg since 2004, officially celebrating his 22nd anniversary with the city last month. A lifelong Greensburg native and 1988 graduate of Greensburg Community High School, Tim's roots in the community run deep.

Before transitioning to his role as our Water Meter Technician, he gained local experience working at KB Foods and Pizza King. If you have ever crossed paths with Tim, you know he is a true people person; his favorite part of the job is interacting with customers and helping them navigate the city's water infrastructure. For Tim, the best part of living in Greensburg is the unique balance of its size. He appreciates that the city maintains a close-knit, small-town feel while offering the amenities and events typically found in much larger communities. He especially enjoys the simple pleasure of running into familiar faces around town and catching up.

Outside of his work for the city, Tim is a proud father to his two sons, Blaine and Kaden. Blaine is currently a union worker for Force Construction, while Kaden is finishing his service with the United States Navy and preparing for his wedding in 2027. In his free time, Tim is an avid sports fan who enjoys golfing with friends and cheering on IU, the Reds, and the Indiana Fever! When asked for career advice, Tim emphasizes the value of finding your own path. "Don't feel pressured to go to college if you know you are skilled in a specific craft," he says. "Explore a career in the trades and focus on doing what you are genuinely good at."

"Tim is a dependable and highly knowledgeable team member who consistently goes above and beyond. His quick wit brings a positive energy to the workplace. With an impressive understanding of every address and meter location throughout the city, he's a go-to resource for our office as well as other city offices. His reliability and expertise make a lasting impact on the team and the community we serve."

– Dori Baker, Utilities Manager
