UTILITIES OFFICE

Starting with the September billing cycle, the Greensburg Water Office will be sending all users who currently receive or pay a Greensburg Utility bill a newly formatted bill in an envelope. This is a change from our previous bill, which was a blue and white card with no envelope.

Pictured below, your Utility bill will come in a plain white mailing envelope with "Utility Bill Enclosed" printed on the front, along with the Water Office's mailing information. The updated format of your Utility bill is a white paper with the City of Greensburg logo, your account information, usage, billing, due date, disconnect date (if applicable), and announcements from the City of Greensburg.

Bills can be paid in person at the Water Office, over the phone, or through the online portal, automatic draft, or the Water Office drive-thru. The overnight deposit box is also available to securely submit your payment after business hours.

Questions and concerns about this update can be directed to the Water Office at 812-663-5621.
