

PRESS RELEASE

FOR IMMEDIATE RELEASE – May 26, 2023

GUAM INT’L AIRPORT AND STAKEHOLDERS WORK TO RESUME SERVICES

Recovery on the impact of Typhoon Mawar is well underway at the Guam International Airport. If all systems are operational, services are anticipated to resume, at the earliest, on Tuesday, May 30, 2023.

“Our airfield fared well and is able to receive limited aircraft humanitarian and essential cargo operations. However, our terminal and passenger processing technical systems have been greatly affected by flooding on all floors of the terminal. We anticipate to be able to resume operations and to be able to safely process outbound and inbound passengers in conformance to security requirements with our regulatory partners as soon as Tuesday, May 30, 2023,” stated John M. Quinata.

Passengers are advised to contact their airlines directly for flight status and rescheduling their flights. Below are contact numbers for our airline partners:
