

Located less than a mile from our main Norcross studio, Eagle Rock Skyland has over 32K square feet of office space as well as over 100K square feet of flex, mill and stage space. Featuring an onsite ADR room and greenhouse, it's the perfect facility to keep all of your crew together under one roof.

Once home to the TV series *Queens* and *Single Drunk Female*, Eagle Rock Skyland features silent HVAC throughout all stage and flex space as well as electric vehicle chargers, ample space for inside catering setup and high-speed internet throughout the entire property.

And the benefit to being so close to our Norcross studio? You're just minutes from our equipment dock with Cinelease, so any last minute gear swaps or pickups can be done with ease. And our dedicated support team of stage technicians is just around the corner, ready to assist with any challenge that arises at a moment's notice. So, you just worry about your production, we'll handle the rest!
