Respond to Reviews

Sometimes that steak just doesn't cut it. Don't let one bad review scare off future guests. You'll want to respond to these when they come in, address the matter, and if necessary, take the conversation offline if it makes sense.

Respond to your reviews on your Google Listing

To respond to reviews on your Google listing: Click on this link:

<https://www.google.com/business> and sign in with the google account you used to set up your listing.

Click on Reviews on the left side menu.

Here you will see all of the reviews that show up on your Google listing. You can click on the “Reply” button to respond.

Clicking on the 3 stacked dots to the right corner of each review allows you to flag as inappropriate and attempt to get it removed if you feel this is necessary.

****Don't be afraid to ask the reviewer to contact you by phone or email and take the conversation offline in case the conversation may turn ugly.**
