

HOUSTON:

a city of *innovation*

Houston is a city of big ideas. From landing on the moon to developing the first artificial heart. Houston is a city that takes humankind's boldest challenges head-on.

NOTABLE EMPLOYERS + INDUSTRY PARTNERS

As the home of NASA's human space program and headquarters to the global energy industry, Houston has long been known for its engineering prowess. In recent years, the region has seen one of the largest overall increases in tech talent in the nation.
