TCPF Applications

The Village Green Restroom Rebuild and Expansion

This project involves the demolition and replacement of the existing, deteriorating restroom facility with a new, expanded, year-round structure. The current building is over 20 years old, unheated, and lacks the capacity to serve peak tourism crowds. As the only public restroom facility in the Cashiers Commercial District, this infrastructure is vital for maintaining a positive visitor experience and supporting local shops, hotels, and restaurants. They are requesting \$204,000 out of a total project cost of \$675,000, which will be funded by Jackson County (\$425,000) and private donations (\$46,000). The entire grant application was attached to the agenda for this meeting.

Pinnacle Park Master Plan Implementation (Phase Two)

The requested funds will be utilized to implement Phase Two of a shovel-ready master plan designed to upgrade critical infrastructure and accessibility of paved trailhead infrastructure, enhanced visitor facilities (single-stall vault toilet and high-durability trash receptacle areas), creation of a 303-linear-foot accessible trail section leading to an accessible viewing platform with interpretive signage, providing nature access for seniors and individuals with movement limitations, expanded recreation assets, and construction of an outdoor classroom to support school groups and university researchers. The grant request is for \$341,322 in addition to matching funds from a Parks and Recreation Trust Fund Grant. The entire grant application was attached to the agenda for this meeting.

Mr. Breedlove explained that there is \$250,000 left in the Capital Projects Fund. The above two projects, which are worthy projects and are investments for the future, exceed this amount by \$295,322. This shortfall can be made up from taking the shortfall from the Fund Balance, which has \$3.5 million. The state requires that each TDA keep 8% of the Fund in reserve. JCTDA's internal policy is to keep 30% of the balance in reserve in preparation for a potential disaster, leaving approximately \$2 million in reserve. We can comfortably fund the \$292,322 from Fund Balance and still have more than the required 38% in reserve.

MOTION: Jason Kimenker motioned to forward the two Capital Projects on to the County Commissioners for approval to fund the projects. Trevor Brown seconded. Motion carried.
