

### **Overview of the Steps Involved for Economic Disaster Declaration**

Completion of an Economic Injury Worksheet and submission to [eoc@tetoncountywy.gov](mailto:eoc@tetoncountywy.gov) (This is not a loan, it is a quick worksheet to prove economic Injury to your business/organization)

Upon submission of at least five Economic Injury Worksheets to Teton County Emergency Management, the forms are then submitted to the Wyoming Office of Homeland Security, who in-turns submits them to the U.S. Small Business Administration

Once received and approved, the Governor of Wyoming will fill out and sign an SBA Disaster Declaration Request Worksheet.

Upon receiving the five forms and the Governor's worksheet, the U.S. SBA will take 24-48 hrs to declare a disaster.

Upon the U.S. SBA's disaster declaration, business, small agricultural operations, and private non-profits will be eligible to apply for up to \$2 million in loans to cover working capital and normal expenses.

Businesses may apply online at Economic Injury Disaster Loans // U.S. Small Business Administration.

Once applied, businesses will be assigned an SBA loan officer.
