

Danny Shervin, Paint with Gunpowder

Danny was born and raised in Jackson, WY. He studied finance and economics in college and worked as a financial advisor for 12 years. Danny “retired” from finance in September of 2018 and is now a full time artist. His medium of choice is gunpowder. He has had many amazing opportunities and worked with some great people over the course of his art career and looks forward to continuing down this path. He and his wife, Jenny, have two kids and they feel extremely lucky to have a pile of family so close to encourage and support them. Danny is honored to be a member of the chamber board of directors and looks forward to continue serving his community.
