

Dear Town Council and Tyler,

- **Please support** Item P20-089, -090, -091, -092: Development Plan, Variances and Administrative Adjustment at 175 N. Jackson for Rusty Parrot for the following reasons:
- Following the tragedy of the fire at the Rusty Parrot we could not be more pleased to see the commitment and quality in the plans of the rebuild. It shows innovation and a true understanding of what our luxury market visitors to Jackson Hole are looking for.
- We strongly support the design offering, 40 rooms, a restaurant, spa with courtyard, underground parking and a beautiful design. Common spaces will be available to guests and non-guests – a touch that the Rusty Parrot has always delivered, making locals and visitors welcome.
- Taking care of employees with a thoughtful inclusion of building housing (on and off site) rather than the fee in lieu, is also a reflection of the owners commitment to our community and their staff.

Thank you for moving this project to a green light on Monday 8/3, so the construction can begin in earnest this fall. It will be something we can watch with excitement in preparation for the opening Spring 2022. Our community has always supported the Rusty Parrot with its family ownership and unparalleled, boutique lodge, guest experience. We look forward to its return, with a fresh twist, to our lodging and local community.

Yours sincerely

Anna Olson
