UNFORGETTABLE SPRING WEDDINGS

by Stacian Virtue, JTB Staff Writer

So she said "yes"! Now is the time to have that destination wedding with a view of the Caribbean Sea!

Wedding season is almost here and we have just the locations for you. Tucked away on Jamaica's South Coast, far from the hustle and bustle of Montego Bay, is the perfect locale for an intimate moment for two.

The South Coast is home to unique boutique hotels that easily accommodate property buy-outs due to their small size. So the couple and family can have the entire resort to themselves! With personalised service in safe and self-contained villas and guesthouses, the South Coast is the best option for wedding parties and multi-generational guests.

MAKING MEMORIES MAGICAL

by Stacian Virtue, JTB Staff Writer

"Here comes the bride,
all dressed in white"

Jamaican weddings are what nuptial dreams are made of! The South Coast is dotted with a myriad of locations that will satisfy even the most discerning of Bridezillas among us.

Of special mention is the historic Lover's Leap. Your clients will be able to repeat their vows at the same clandestine spot where lovers met centuries ago. The romance and sense of forever is etched in the stone of the highest lighthouse in the Western hemisphere. What great pictures!

Along the South Coast, wedding venues are either cradled amidst gardens of tropical flowers or gently washed by the Caribbean Sea. However you like it, a wedding in paradise is effortlessly arranged by experienced wedding planners. The variety of suppliers create unique, one of a kind packages to surprise your friends and to make your enemies jealous.

Reach out to the suppliers we have featured on page 03 to customise your bride's dream experience.

Infuse magic into your client's big day with a South Coast wedding.

**"I WANT YOU
TO KNOW
THAT YOUR
EXPERIENCE
BEGINS AT THE
AIRPORT"**

- JASON HENZELL

THERE IS ONLY ONE SUPERSTAR IN THE SHOW!

It was hard to justify our collective conscience with large celebrations at a time of global stress. However, here we are a few years later and we have persevered.

Many nuptials were postponed, delayed or modified to meet ever changing protocols. Today, the future seems just a little bit more sure and it is time to have the celebrations we always wanted.

Between 2019 and 2020, there was a 15% decrease in marriage applications but that does not have to continue. Let us stop putting love on hold, and let romance shine.

Will you make the South Coast wedding dreams come true?
