WHERE THE ROAD ENDS AND PARADISE BEGINS

## THE CAJUN EXPERIENCE

Learn to be a Cajun during this interactive, hands-on course geared towards educating guests on what it's like to be a Cajun in the **Louisiana Bayous**.

## THE ADVENTURE

Learn to harvest blue crabs, bait and set trot lines, throw a cast net and use jug line.

You will participate in multiple area tours consisting of off the grid camps, area fishing grounds and live oilfield campsites that show a glimpse of how the people of Lafitte lived and survive then and now.

While touring, enjoy the beautiful Louisiana backdrop and learn how the oil industry impacts our coastlines and marine industry. Discover the land reclamation project showcasing the impacts of coastal erosion and what efforts are being taken to preserve our rapidly declining coastline.

## THE AFTER PARTY

Upon completion of the tours, you will be brought back to our harbor to experience the true art of a Cajun meal.

One of our in-house chefs will present and prepare, for your satisfaction, the various seafoods that you were shown on your tour and caught in the bayous surrounding the beautiful town of Jean Lafitte.

It's just a short drive from  
New Orleans to Lafitte, La.
