Marriage Licenses & Requirements

License Cost: \$60

Tests: No blood test or physical exam is required.

Residency: Residents and nonresidents are eligible to apply for a marriage license.

Age: Both parties must be 18 years of age or older to marry without parental consent. A birth certificate may be required to show proof of age. See Vital Statistic website (vitalrecords.alaska.gov) for exceptions.

Location: An Alaskan marriage license is valid only for marriages performed in Alaska or in Alaska State waters. Contact the Forest Service (907.789.0097) for services performed at Mendenhall Glacier or on Forest Service property. A permit may be required.

Waiting Period: There is a three (3) business day waiting period that begins once a mailed or faxed application is received by the issuing office. You must wait at least three full business days after the application is submitted before you can pick up the license and the marriage ceremony can be performed.

License Expiration: The license is valid for three (3) months from the date of issuance. The marriage must be performed before the three-month expiration of the license or the license will no longer be valid.

Marriage by Proxy: Proxy marriages (where someone stands in for the other party) are not permitted in Alaska. The two parties must be present before the two witnesses and the officiant in order for the ceremony to be performed.

Divorced Applicants: All divorces must be final and filed with the courts in the state granted. See Vital Statistic website for more information.
