

# CLINTON

Four miles west of historic Lawrence, Kansas, in the Osage Questas woodlands lays Clinton State Park. The 1,500-acre park is located on the northern shore Clinton Reservoir. Boat ramps and courtesy docks allow easy access to the reservoir, known for clear water and good fishing. Anglers, boaters and campers enjoy the Clinton Lake marina. It offers boat slips, retail sales, and

equipment rentals.

Whitetail deer, turkey, waterfowl, and numerous species of songbirds inhabit the carefully managed areas. During the spring and fall, bald eagles frequent the shoreline and nest at the reservoir.

In spring, native wildflowers are easily seen from a self-guided nature trail. Other trails throughout the park provide mountain biking, hiking, and

even cross-country skiing.

Activities such as picnicking, swimming, archery practice at the range or camping on one of the nearly 500 campsites in the park are available. The park also offers over 200 RV sites with water and electricity. Nearby restrooms and showers add a touch of comfort to the park. Clean facilities and friendly, helpful staff ensure something for everyone.
