General Information/Overview

What is the TravelKS.com Extranet?

The Extranet for Kansas Tourism is the portal for the industry to access their part of the Tourism database. The extranet account contains the information you will need to represent your accounts on the TravelKS.com site, in the Kansas Travel Guide and other marketing opportunities. You will also find communications, clippings, materials orders and more.

Who needs access?

- Do you add listings and/or events to TravelKS.com?
- Would you like to start adding listings and/or events to TravelKS.com?
- Do you or would you like to order BULK amounts of Travel Guides, Outdoor Guides, state maps and other materials from Kansas Tourism?
- Would you like to receive important updates and communications from us on a regular basis?

If you answered “yes” to any of these questions, you need access.

PARENT/CHILD ACCOUNTS

- To simplify the login process for DMOs (Destination Marketing Organizations) with access to multiple accounts, the Parent/Child account relationship was created. This allows a DMO to log in as a contact on the Parent account with full access to all child accounts via an accounts tab.
- NOTE: The Parent/Child account relationship is intended to be used for accounts where there is a DMO maintaining multiple accounts.
- Once a member with parent/child account access logs into the Extranet, they will see a "Profile" tab on the left navigation column. When clicked this tab will show an option for "Accounts." These accounts are the child accounts maintained by each DMO/Parent.
- These accounts can be edited here.

HOME PAGE/PARTNER BULLETINS/TOP SLIDES/AT A GLANCE
