Get Off the Beaten Path

Like apple pie and baseball, there's something very American about hitting the road and taking in the scenery. It's a genuine sense of freedom as you meander through the beautiful landscapes, the historic settings and the man-made panoramas.

Kansas is home to eleven scenic byways, two of which are officially designated National Scenic Byways. In addition to the breathtaking surroundings, you'll enjoy an abundance of activities and a variety of incredible terrain, wildlife, living styles and cuisine. Each scenic byway unfolds a different story.
