Narrative

Question	Applicant Answers
Please describe the project clearly and concisely. Including pre and post project details relevant to the project. Include how this will attract our-of-state visitors. Supporting documentation can be attached towards the end of this application.	The Kansas Sunflower Heritage Park is a proposed agritourism destination designed to celebrate Kansas's rich agricultural heritage and its identity as the Sunflower State. The park will offer visitors an immersive experience that combines natural beauty, outdoor recreation, education, and local culture. At its heart will be expansive, seasonally blooming sunflower fields planted with multiple varieties to provide vibrant displays throughout the growing season. Visitors will be able to stroll along scenic pathways, take photographs from designated viewing areas, and enjoy panoramic views of the fields and surrounding prairie from a multi-level observation tower. Beyond the sunflower fields, the park will feature restored native prairie gardens showcasing the diverse grasses and wildflowers that define the Kansas landscape. Interpretive exhibits and interactive displays will educate visitors about the state's agricultural history, sunflower cultivation, prairie ecosystems, pollinator conservation, and the essential role that bees, butterflies, and other native species play in supporting Kansas farms and natural habitats. Educational programming will include guided tours, hands-on workshops, and seasonal demonstrations led by local farmers, master gardeners, and conservation organizations. The destination will also incorporate public art installations inspired by Kansas's landscapes and agricultural traditions, creating unique gathering spaces and photo opportunities throughout the park. Accessible walking trails will connect each attraction while providing opportunities for birdwatching, nature appreciation, and quiet

	recreation. Throughout the year, the Kansas Sunflower Heritage Park will host festivals, farmers markets, artisan craft fairs, live music performances, photography events, and educational activities that encourage repeat visitation and foster partnerships with local businesses and community organizations. The Kansas Sunflower Heritage Park aims to become a signature destination that attracts out of state visitors to experience the Sunflower State.

Describe how this project will enhance a visitors experience including any ties to nature, cultural, recreation and history of Kansas.	Visitors will experience expansive sunflower fields, native prairie gardens, scenic walking trails, and an observation tower that highlights the region's iconic landscapes. Educational exhibits and interpretive signage will teach guests about prairie ecosystems, pollinators, conservation, and the importance of agriculture to Kansas's economy and history. The park will celebrate Kansas's designation as the Sunflower State through locally commissioned public art, seasonal festivals, photography workshops, and partnerships with area farmers, artisans, and businesses. These experiences will provide visitors with authentic opportunities to engage with local culture while supporting the regional economy. Outdoor recreation is a central component of the project. ADA-accessible walking trails, wildlife viewing areas, picnic spaces, and guided

	educational programs will encourage visitors of all ages and abilities to explore the outdoors. Seasonal events and hands-on activities will promote family engagement and inspire repeat visits throughout the year. The project also highlights the history of Kansas by interpreting the state's agricultural traditions, prairie heritage, and rural communities through engaging exhibits and educational programming. Visitors will leave with a greater appreciation for the landscapes, people, and industries that have shaped Kansas.
What is the anticipated annual visitation to the attraction when the project is fully complete? Include percentages from out-of-state, 100+ miles distance from project location, and how visitation numbers compare to current customers and/or comparable attraction. You may provide documentation later in the application.	Based on similar attractions in surrounding states, we anticipate to attract 15,000 visitors during the first full year. We estimate 60% of the visitors or 9,000 visitors will come from out of state. We estimate 10% will come from within Kansas but over 100 miles away and the remaining 30% will be local and regional residents.
How will visitation be tracked?	Visitation will be tracked using a combination of electronic ticketing and point-of-sale systems, website reservation data, event registrations, pedestrian counters at key entrances, and visitor surveys. The park will also monitor zip codes and states of residence through ticket purchases and online registrations to measure out-of-state visitation and travel patterns. Attendance at festivals, educational programs, and special events will be recorded separately to evaluate program success and guide future planning.
How will the project be marketed to visitors? Include short and long term marketing plans. You may provide documentation later in the application.	Marketing efforts will target Kansas residents, travelers from neighboring states, group tour operators, outdoor enthusiasts, photographers, and families seeking unique agritourism experiences.

What is the total economic impact of this project? Please include the following metrics: Visitor Spending, Sales Tax Generation, Transient Guest Tax Generation, and Job Creation or Retention. You may provide documentation later in the application.	The projected annual economic impact is approximately \$900,000 in visitor spending. This estimate includes expenditures on lodging, dining, retail shopping, fuel, entertainment, and other local services. Based on this spending, the project is expected to generate approximately \$72,000 in annual state and local sales tax revenue (assuming an effective sales tax rate of approximately 8%). In addition, overnight visitors are projected to generate approximately \$20,000 annually in transient guest tax (lodging tax) revenue for local communities, providing additional funding for tourism promotion and community improvements.
What other effect, will this project have on Community or Region's quality of life.	The project will significantly enhance the quality of life for the surrounding community by creating a new recreational and educational destination that residents can enjoy year-round. It will provide opportunities for outdoor recreation, community gatherings, educational programming, and cultural events while supporting local artists, farmers, and small businesses. Increased tourism will strengthen nearby hotels, restaurants, retailers, and service providers, creating new jobs and expanding economic opportunities. The park will also foster community pride by celebrating Kansas's agricultural heritage and natural beauty, positioning northwest Kansas as a premier agritourism destination and encouraging continued investment throughout the region.
