

SHORES&ISLANDS_{OHIO}

Day Trip Itinerary

For customized itineraries, contact **Joe Sugalski, Partner Accounts Manager** • joe@shoresandislands.com • 419-625-2984

Enjoy a day immersing yourself in nature! Take in the beauty and bounty of Shores & Islands Ohio and appreciate the people working hard to share their knowledge.

Morning

Start your morning at the beautiful Schedel Arboretum and Gardens. The group can enjoy the morning sunlight and cooler temperatures while exploring the grounds of the 17-acre estate. In addition to a variety of flora and fauna, step inside the Blair Museum of Lithophanes to see the collection on display and rotating artwork in Brown Welcome Center by local artists. Guided tours and golf cart assistance can be provided with advance notice.

Lunch

Take a short drive from the gardens to Chateau Winery & Vineyard in Helena to enjoy lunch and taste their local wines. Enjoy views of the vineyards and koi pond or cozy up by the fireplace.

Afternoon

Continue exploring where food comes from with a pair of agritourism stops. First venture to Cherry City Honey to learn about bees! Special for 2026, the Land of Milk & Honey presentation showcases how bees, cows, and farming through the years influenced culture and tradition. With multiple packages to choose from, your attendees can taste local honey samples, shop in the farm store, and participate in a make and take activity in addition to the presentation.

To learn about regenerative farming and how that impacts what we eat, hop over to the final stop at The Chef's Garden Farm Market. Enjoy a tour of the fields, research and development space, packing room, and more. Purchase some in-season produce or participate in engaging culinary demos at the stand.

*Group availability may vary by location and/or require reservations made in advance.
