# Introduction

## Purpose of the Report

This report was commissioned by the Oregon Tourism Commission, also known as Travel Oregon, to assess the economic impact of travel to the state of Oregon. The travel industry represents an important component of Oregon's state economy. Spending associated with travel in Oregon generates earnings, employment and taxes throughout the state. Many counties in Oregon contain attractive travel destinations and count the travel industry as a primary economic industry in their area. This report describes the economic activity associated with travel throughout the state, detailing important trends within the industry.

## How to Use the Report

This report brings together data collected from many sources, both public and private, that are relevant to the measurement of travel throughout Oregon. Our analysis synthesizes the data and generates estimates for the impact of travel to counties in the state. We encourage the reader of this report to use the table of contents to navigate to the section of the report that is relevant to their concerns and to reach out to Dean Runyan Associates with any questions on further detail or clarification.

## 2023 Considerations

While inflation has been a significant factor in increased travel spending across the state since 2020, the year 2023 marked a significant drop in inflation rates. Notably, the transportation sector even experienced deflation during this period, which is largely attributed to lower gasoline prices rather than a reduction in miles journeyed by travelers.

## Revisions

Preliminary 2022 reported in April 2023 was revised with the release of this report. The current year in each report is based on incomplete information and subject to revision in the following year. Historical revisions were made to Columbia, Coos, Polk, and Yamhill counties' local taxes informed by our additional local studies undertaken by communities in those areas and our annual lodging-tax survey. Short-term vacation rental and hotel revenue allocations were updated for 2021 and 2022 statewide based on updated information.

**Spending, Employment, Earnings and Taxes** are the key metrics to measure the economic impacts of travel.

## What are travel impacts?

**Travel impacts** measure the economic activity associated with the activity of travel within a region. As travel is a broad activity that encompasses many other activities (transportation, lodging, eating and drinking, recreational activities, etc.), it is necessary to make estimates for each of the composite elements of travel in order to arrive at a total number. Reporting on travel impacts allows decision-makers to benchmark the travel industry against other local industries, gain insight on the makeup of traveler activity in their region, and communicate clearly to partners the relevance of the traveler economy to their region.

# Introduction

This section provides detailed state estimates, as well as a number of summary tables. In interpreting these estimates, readers are advised that:

- Unless otherwise noted monetary values are expressed in nominal dollars (no inflation adjustment).
- Estimates measure direct impacts only. Exception is made for pages 28-30 which detail the secondary impacts for both earnings and employment.
- Employment measures in this report reflect the number of jobs, not the number of residents that work.

Travel impact estimates utilize the best information available at the time of the report and are subject to revision. All job estimates presented reflect total count of jobs and are not modified to be full time equivalent. It is important to note that job growth could reflect a decrease in full time positions and an increase in part time. Spending and job growth are not in a 1:1 relationship.

Starting with 2021, spending estimates for short term vacation rentals are broken out from our summary figure. These breakouts are subject to revision as more information becomes available regarding this type of lodging.

Visitor volume figures are presented in four measures: person-trips, person-nights, party-trips, and party-nights. These measures can move in different directions based on changes to estimated party size and length of stay. It should be stressed that direct travel spending and employment are more reliable metrics to gauge the health of the travel industry than visitor volume. For these and other reasons, the measures provided in this section are general indicators that should be used in conjunction with other measures of economic activity.

# National Impacts

2023p

# National / Summary

## U.S. Travel Impacts, 2023p

The COVID-19 pandemic brought economic disruption to almost all sectors of the U.S. economy in 2020, but few industries were as hard-hit as travel. The combination of economic instability and health and safety measures in the U.S. led to a large reduction in the demand for such services, with total travel spending declining by 47% (-\$632B) in 2020. In 2023 travel activity continued the recovery expansion that began in the latter half of 2020, increasing 4% over 2022 and exceeding 2019's pre-pandemic spending by 7%. When adjusted for inflation, travel spending in 2023 is 0.5% higher than 2019.

National spending on travel and tourism was \$1.3 trillion in 2023, with Leisure & Hospitality categories accounting for 45% of that total

The U.S. travel industry **expanded \$48 billion or 4% in 2023** compared to the previous year, exceeding pre-pandemic output by 7%.

**Note:** 2022 and 2023 national data are Dean Runyan Associates estimates based on Bureau of Economic Analysis (BEA) Travel and Tourism Satellite Account data from 2021 and available annual industry trends for 2022 and 2023.

### Direct Travel Spending

### Spending by Summary Commodity

# National / Summary

## International Spending, 2023p

Despite international spending showing a significant increase of 28% compared to 2022, **spending still lags 2019 levels by 12%**. In 2023 the Asia & Pacific region, which was the largest contributor to international travel spending in 2019, only spent 53% of its 2019 levels.

**Sources:** Dean Runyan Associates, Bureau of Economic Analysis

**Note:** Our estimates of international travel spending do not include expenditures for health-related, education-related or border-worker travel activity.

# National / Summary

## U.S. Travel Industry Direct Employment

Travel industry employment continues to recover nationally. Approximately **250,000 jobs were gained in 2023**, a year-over-year **increase of 5%**.

Sources: Bureau of Economic Analysis, Dean Runyan Associates

## U.S. Travel Industry Employment by Sector

Employment in the **Leisure & Hospitality sector increased in 5% 2023** but remains 11% below 2019 levels.

Sources: Bureau of Economic Analysis, Dean Runyan Associates

State Impacts

2023p

# Oregon / Summary

## Travel Impacts, 2023p

### 0.6% Increase in Travel Spending

Travel spending in Oregon increased 0.6% from \$13.9 billion in 2022 to \$14.0 billion in 2023.

### 2,180 Jobs Gained

Direct travel-generated employment gained approximately 2,180 jobs, a 1.9% increase in travel-generated employment compared to 2022.

### 6.9% Growth in Travel Earnings

Direct travel-generated earnings added \$289 million in 2023, a 6.9% increase compared to 2022.

### 1.5% Increase in State & Local Tax Revenue

State and local tax receipts generated by travel spending were up 1.5% compared to 2022.

**Note:** These estimates for Oregon are subject to revision when more complete or additional data becomes available.

# Oregon / Spending

## Direct Travel Spending

Direct travel spending increased by \$85 million in 2023.

## Oregon Travel Spending

In 2023 travel spending grew to \$14.0 billion, a 0.6% increase from 2022.

From 2003-2023, travel spending grew at an annual rate of 3.9%.

Spending across the regions was relatively unchanged in 2023.

## Oregon Tourism Regions

The largest region in terms of travel impacts is the Portland Region. In 2023 travel spending was \$5.4 billion, contributing 38% of the state total. Prior to 2020, the Portland Region accounted for 44% of travel spending in the state.

\*Mt. Hood & Columbia River Gorge

Destination + Other Travel =  
Direct Travel Spending

## What is direct travel spending?

**Direct travel spending** includes both destination spending and other spending. **Destination spending** refers to all spending on goods and services by visitors at the destination. **Other travel spending** refers to expenditures at travel-arrangement companies located in Oregon, on convention and trade show operations, and on air by residents leaving the state for travel elsewhere. These expenditures directly support the travel industry in Oregon but are not considered visitor spending in our methodology.

# Oregon / Spending

## Direct Travel Spending / Current and Inflation-Adjusted Dollars

Inflation-adjusted direct travel spending was 1.7% less in 2023 compared to the previous year and 8.4% less than direct spending in 2019. In nominal dollars travel spending was 9.6% higher than in 2019.

**Sources:** Bureau of Labor Statistics CPI, Dean Runyan Associates

## How does inflation affect the travel industry?

Inflation is the rate of increase in prices of goods and services. An increase in the rate of inflation translates into reduced purchasing power for consumers. To track the quantity of goods and services that consumers purchase when they travel, we report the “Inflation Adjusted” travel spending in the chart to the left. This is also known as “real” spending, as it shows the quantity of goods and services that were purchased while keeping the purchasing power constant across time.

### U.S. CPI (annual % chg.)

2022: 8.0%

2023: 4.1%

Target: 2% Annually

### Oregon 2023 Selected Prices (% Chg.)

**Hotel & STVR Room Rates: 2%**

**Gasoline Prices: -7.5%**

**Airfares: -5%**

# Oregon / Spending

## Visitor Spending by Commodity Purchased

The largest increase in spending came from Food Service (\$197 million), while the largest reduction in spending came from Local Tran. & Gas (-\$118 million).

**Sources:** Oregon Department of Revenue, Dean Runyan Associates, Omnitrak Group, KeyData Dashboard, STR LLC., AirDNA

## Visitor Spending by Accommodation Type

Visitors who stayed in a hotel, motel or short-term vacation rental (STVR) spent a combined \$6.5 billion in 2023, an **increase of 0.7%** compared to 2022.

*Visitor Spending by Accommodation Type* includes spending on all commodities by where the visitors spend the night or for day-trips.

**Sources:** Oregon Department of Revenue, Dean Runyan Associates, STR LLC., KeyData Dashboard, U.S. Census Bureau, Omnitrak Group

# Oregon / Traveler Origin

## Visitor Spending by Origin, 2023p

Residents of Oregon accounted for about 36% of visitor spending in Oregon in 2023. U.S. residents of states other than Oregon accounted for approximately 59% while international visitors accounted for approximately 4% of travel spending in the state.

Out-of-state visitors were approximately 64% of visitor spending prior to the COVID-19 pandemic. In 2020 this share dropped to 42%.

International spending historically has been around 10% of visitor spending in Oregon. The COVID-19 pandemic continues to depress international travel nationally and in the state of Oregon.

Travel is considered an export industry because it brings an inflow of dollars from outside the state, region or individual community. The greater the amount of out-of-state and international visitation, the larger the net economic benefit is to the state as a whole.

**Visitor Spending by Residence, 2023p**

**Sources:** BEA, NTTO, VisaVue, Dean Runyan Associates, Tourism Economics.  
Percentages may not sum to 100% due to rounding.

**Visitor Spending by Residence, 2023p**

Origin	Spending (Billions)	Share
Oregon	\$5.1	36%
International	\$0.6	4%
Other U.S.	\$8.3	59%
<b>Visitor Spending</b>		<b>\$14.0</b>

**Visitor Spending by Top U.S. Origins, 2023p**

Origin	Spending (Billions)
Washington	\$3.2
California	\$1.5
Idaho	\$1.2
Arizona	\$0.3
Texas	\$0.2
Remaining*	\$1.9
<b>Visitor Spending</b>	<b>\$8.3</b>

**Note:** Excludes Oregon as an origin market.

\*"Remaining" includes the other 44 U.S. states, District of Columbia, U.S. Virgin Islands, American Samoa, Guam, Puerto Rico and the Northern Mariana Islands.

# Oregon / Earnings

## Direct Travel Earnings

**Direct travel earnings increased by \$289 million in 2023.**

### Oregon Travel Earnings

In 2023 regional travel earnings grew to \$4.5 billion, a 6.9% increase from the prior year.

From 2003-2023, Oregon travel industry earnings grew at an annual rate of 5.0%.

**All sectors grew over the prior year.**

### Travel Industry Breakout

Accommodation & Food Services account for more than half (64%) of travel industry earnings. Arts, Entertainment & Recreation accounts for 10%.

*Accommodation & Food Services (ACM & FS)*  
*Arts, Entertainment & Recreation (AER)*

$$\begin{aligned} &(\text{Revenue} - \text{Cost of Goods Sold} - \\ &\text{Expenses} - \text{Point of Sale Taxes}) \\ &= \\ &\text{Earnings} \end{aligned}$$

### What are direct travel-related earnings?

**Direct travel-related earnings** represent the total after-point of sales-tax income from travel activity. It includes wage and salary disbursements, proprietor income, and other earned income or benefits.

Earnings are an important measure of the benefit of the travel industry that flow to proprietors and employees. Because the travel industry is highly labor intensive, much of travel-related earnings flow to workers in the form of wages as opposed to owners of capital and intellectual property assets.

# Oregon / Employment

## Direct Travel Employment

**Direct employment increased by 2,180 jobs in 2023.**

### Direct Travel Employment

In 2023 direct travel employment was approximately 118,500 jobs, a 1.9% increase from the prior year.

From 2003-2023, travel employment grew at an annual rate of 1.6%.

**The Portland Region added the most jobs (1,340) in 2023.**

### Oregon Tourism Regions

The Portland Region makes up 29% of all travel jobs in the state. Except for the Portland Region, all regions have gained back all the travel jobs lost in 2020.

\*Mt. Hood & Columbia River Gorge

## What is direct travel employment?

**Direct travel-related employment** refers to the total number of full- and part-time jobs directly attributable to travel spending. A significant share of many industries' earnings comes from travel-related spending. Part of these earnings are used to pay employees in the form of income and benefits. Based on average salaries for employees in the various travel-related industries in Oregon, a total employment number attributable to travel can be reached.

In 2023 every \$1 million in direct travel spending resulted in 8.5 jobs for the industry.

# Oregon / Employment

## Direct Travel Employment

\*"Other" Travel includes resident air travel, travel arrangement, and convention/trade shows.

\*\*"Retail" includes gasoline.

Total direct job gain is estimated at 2,180 jobs. Leisure & Hospitality grew by approximately 2,320 jobs in 2023; most other categories of employment showed minimal losses.

**Sources:** Bureau of Labor Statistics, Bureau of Economic Analysis, Dean Runyan Associates

# Oregon / Tax Receipts

## Direct Travel-Generated Tax Revenue

Direct tax revenue increased by \$50 million in 2023.

### Oregon Tax Receipts

In 2023 tax revenue increased to \$50 million, a 3.2% increase from the prior year.

From 2003-2023, tax revenue grew at an annual rate of 4.7%.

State and local tax revenue grew 1.5% in 2023.

### State and Local Taxes

State and local taxes combined generated approximately \$650 million in Oregon. Of this total, \$385 million (59%) were state taxes and \$265 million (41%) were local taxes.

## What are direct travel-generated tax receipts?

**Direct travel-generated tax receipts** include state and local taxes related to travel. **State taxes** include lodging taxes, motor fuel taxes, and business and personal taxes paid by employees and proprietors of travel-related businesses. **Local taxes** primarily take the form of lodging taxes imposed by cities, counties, and other tax jurisdictions in Oregon. They also include any applicable local taxes on rental cars or food and beverage. **Federal taxes** include income taxes, motor fuel taxes, and airline ticket taxes.

# Oregon / Impacts, Summary

## Direct Travel Impacts, 2003-2023p

	2003	2016	2017	2018	2019	2020	2021	2022	2023	Annual % Chg.*		CAGR**

# Oregon / Visitor Volume

## Air Passenger Visitor Arrivals / U.S. Air Carriers

In 2023, Oregon welcomed 3.8 million U.S. visitors who traveled to the state by plane, a 3% increase compared to the previous year. This is still 450,000 less than the visitors who traveled to Oregon by plane in 2019.

**Sources:** Bureau of Transportation Statistics, Dean Runyan Associates

## Overnight Volume

Overall, overnight-visitor volume grew by 1.4% in 2023 compared to the previous year. The number of visitors who stayed in a hotel, motel, or STVR decreased by 2% and the number of visitors who camped, stayed with friends and family, or stayed in a second home grew by 4.7%

# Oregon / Visitor Volume

## Visitor Details, 2023p

Overnight-visitor volume for Oregon is based on cross-referencing visitor surveys, visitor air travel and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

Additional years available at [www.travelstats.com/impacts/oregon](http://www.travelstats.com/impacts/oregon).

# Oregon / GDP

## Travel Industry GDP, 2023p

Gross Domestic Product (GDP, also referred to as value added) is a measure of economic activity that reflects the market value of the labor and capital used to produce goods and services. The GDP for a particular industry within a state includes payments to individuals in the form of earnings, indirect business taxes to government, and other payments to individuals and corporations. It excludes the intermediate inputs purchased by businesses from other firms for use in the production process. This would include items like raw ingredients used for crafting dishes that are served to customers in a restaurant. The relationship between travel spending and the GDP of the Oregon travel industry is shown to the right. Oregon travel industry GDP of \$6.9 billion represents approximately 2% of the total Oregon GDP.

The estimates represent only the direct impacts of travel spending. A portion of the inputs purchased by travel businesses in Oregon will be delivered by other Oregon firms that are not strictly part of the travel industry. Restaurants, for example, will purchase agricultural products from other Oregon businesses. These inputs are sometimes referred to as "indirect" effects.

# Oregon / GDP

## Oregon Export-Oriented Industries, 2023p

Export-oriented industries are those industries that primarily market their products and services to other regions, states or nations. Agriculture, extractive industries such as logging, and manufacturing are the best examples of goods-producing export industries. The travel industry is also an export-oriented industry because goods and services are sold to visitors, injecting money into the local economy, as do the exports of other industries.

### Oregon Gross Domestic Product

Share of GDP for Selected Industries, 2023

A comparison of the GDPs of the leading export-oriented industries in Oregon is shown for 2023. It should be noted that the largest industry, microelectronics, is concentrated in the urbanized areas of Oregon, primarily Washington County. The primary export-oriented industries in most rural counties are agriculture and food processing, forestry and wood products, and the travel industry. The travel industry is the fourth-largest export-oriented industry in Oregon, making up 2% of

**Sources:** Dean Runyan Associates, Bureau of Economic Analysis.

**Note:** "Other Manufacturing" is not a distinct industry, accounting for the remaining manufacturing categories not covered by, "Agriculture & Food", "Forestry & Wood", or "Microelectronics", shown for comparative purposes only. Most current data available is for 2023. GDP estimates by Dean Runyan Associates.

Selected Industries, 2003-2023

# Oregon / Secondary Effects

Travel spending brings money into many Oregon communities in the form of business receipts. Portions of these receipts are spent within the state for labor and supplies. Employees, in turn, spend a portion of their earnings on goods and services in the state. This respending of travel-related revenues creates indirect and induced impacts.

**Direct** impacts represent effects attributable to traveler expenditures.

**Indirect** impacts represent effects associated with industries that supply goods and services to the direct businesses.

**Induced** impacts represent effects of purchases made by employees in both the direct and indirect businesses.

The impacts in this section are presented in 11 major industry groups. These industry groups are similar but not identical to the business categories presented elsewhere in this report.

It should be emphasized that the estimates of indirect and induced impacts reported here apply to the entire state of Oregon and do not necessarily reflect economic patterns for individual counties, regions or sub-regions within the state. In general, geographic areas with lower levels of economic activity will have smaller secondary impacts within those same geographic boundaries.

## Largest Secondary Industries, 2023p

**Professional Services** (12,110 jobs and \$866 million in earnings) A variety of administrative services (e.g., accounting and advertising) are utilized by travel businesses. Employees of these businesses also purchase professional services.

**Education & Health Services** (9,110 jobs and \$655 million in earnings) The secondary effects are primarily induced, such as travel industry employees, personal use of medical services.

**Financial Activities** (7,310 jobs and \$397 million in earnings) Both businesses and individuals make use of banking and insurance institutions.

**Other Services** (3,650 jobs and \$224 million in earnings) Employees and travel businesses utilize a number of service providers such as repair shops, laundry, maintenance and business services.

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$140,556

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$30

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$5

Local & State Tax Revenues Generated per County Household \$217

### Visitor Shares

Travel Share of Total Employment (2023) 3%

Overnight-Visitor Day Share of Resident Population\* 5%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*"Overnight-Visitor Day Share of Resident Population" is equal to the annual overnight-visitor days divided by 365 divided by the resident population. On an average day, approximately 5% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

### Notes:

House Bill 2267 established Travel Oregon in 2003; we include this year to track the long-term growth of the industry.

Calendar year 2021 and 2022 have been revised with the release of this report.

The category "Other" represents a portion of resident spending on air travel to leave Oregon and travel-arrangement activity.

Local taxes include lodging tax (TLT), food and beverage tax (where applicable), auto-rental tax (where applicable), and airport facility charges (where applicable).

State taxes include lodging tax (TLT), personal and business income tax, and motor fuel excise taxes.

\*Compound Annual Growth Rate (Ending Value / Starting Value)^(1/(Number of Periods))-1.

# Willamette Valley / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Willamette Valley region is based on cross-referencing visitor surveys, visitor air travel and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

Additional years available at [www.travelstats.com/impacts/oregon](http://www.travelstats.com/impacts/oregon)

### Average Expenditure for Overnight Visitors, 2023

	Person		Party		Party Size	Length of Stay

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$146,722

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$37

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$5

Local & State Tax Revenues Generated per County Household \$1,187

### Visitor Shares

Travel Share of Total Employment (2023) 19%

Overnight-Visitor Day Share of Resident Population\* 21%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*"Overnight-Visitor Day Share of Resident Population" is equal to the annual overnight-visitor days divided by 365 divided by the resident population. On an average day, approximately 21% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

### 2023 Share of Overnight-Visitor Spending

#### Oregon Coast Region

#### Oregon

Hotel, Motel, STVR Private Home (VFR) Other Overnight

Percentages may not sum to 100% due to rounding.

### Notes:

House Bill 2267 established Travel Oregon in 2003; we include this year to track the long-term growth of the industry.

Calendar year 2021 and 2022 have been revised with the release of this report.

The category "Other" represents a portion of resident spending on air travel to leave Oregon and travel-arrangement activity.

Local taxes include lodging tax (TLT), food and beverage tax (where applicable), auto-rental tax (where applicable), and airport facility charges (where applicable).

State taxes include lodging tax (TLT), personal and business income tax, and motor fuel excise taxes.

\*Compound Annual Growth Rate (Ending Value / Starting Value)^(1/(Number of Periods))-1.

\*\*"Other Travel" includes resident air travel, travel-arrangement and convention/trade shows.

# Oregon Coast / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Oregon Coast region is based on cross-referencing visitor surveys, visitor air travel and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

Additional years available at [www.travelstats.com/impacts/oregon](http://www.travelstats.com/impacts/oregon)

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$142,366

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$42

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$5

Local & State Tax Revenues Generated per County Household \$1,572

### Visitor Shares

Travel Share of Total Employment (2023) 22%

Overnight-Visitor Day Share of Resident Population\* 24%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*"Overnight-Visitor Day Share of Resident Population" is equal to the annual overnight-visitor days divided by 365 divided by the resident population. On an average day, approximately 24% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

## 2023 Share of Overnight-Visitor Spending

### North Coast Region

### Oregon

Hotel, Motel, STVR Private Home (VFR) Other Overnight

Percentages may not sum to 100% due to rounding.

### Notes:

House Bill 2267 established Travel Oregon in 2003; we include this year to track the long-term growth of the industry.

Calendar year 2021 and 2022 have been revised with the release of this report.

The category "Other" represents a portion of resident spending on air travel to leave Oregon and travel-arrangement activity.

Local taxes include lodging tax (TLT), food and beverage tax (where applicable), auto-rental tax (where applicable), and airport facility charges (where applicable).

State taxes include lodging tax (TLT), personal and business income tax, and motor fuel excise taxes.

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$154,043

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$34

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$5

Local & State Tax Revenues Generated per County Household \$1,563

### Visitor Shares

Travel Share of Total Employment (2023) 24%

Overnight-Visitor Day Share of Resident Population\* 27%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*"Overnight-Visitor Day Share of Resident Population" is equal to the annual overnight-visitor days divided by 365 divided by the resident population. On an average day, approximately 27% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

## 2023 Share of Overnight-Visitor Spending

### Central Coast Region

### Oregon

# Central Coast / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Central Coast region is based on cross-referencing visitor surveys, visitor air travel and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$138,071

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$34

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$4

Local & State Tax Revenues Generated per County Household \$604

### Visitor Shares

Travel Share of Total Employment (2023) 14%

Overnight-Visitor Day Share of Resident Population\* 15%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*"Overnight-Visitor Day Share of Resident Population" is equal to the annual overnight-visitor days divided by 365 divided by the resident population. On an average day, approximately 15% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

## 2023 Share of Overnight-Visitor Spending

### South Coast Region

### Oregon

### Notes:

House Bill 2267 established Travel Oregon in 2003; we include this year to track the long-term growth of the industry.

Calendar year 2021 and 2022 have been revised with the release of this report.

The category "Other" represents a portion of resident spending on air travel to leave Oregon and travel-arrangement activity.

Local taxes include lodging tax (TLT), food and beverage tax (where applicable), auto-rental tax (where applicable), and airport facility charges (where applicable).

State taxes include lodging tax (TLT), personal and business income tax, and motor fuel excise taxes.

\*Compound Annual Growth Rate (Ending Value / Starting Value)^(1/(Number of Periods))-1.

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$203,560

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$34

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$7

Local & State Tax Revenues Generated per County Household \$378

### Visitor Shares

Travel Share of Total Employment (2023) 2%

Overnight-Visitor Day Share of Resident Population\* 4%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*"Overnight-Visitor Day Share of Resident Population" is equal to the annual overnight-visitor days divided by 365 divided by the resident population. On an average day, approximately 4% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

## 2023 Share of Overnight-Visitor Spending

### Notes:

House Bill 2267 established Travel Oregon in 2003; we include this year to track the long-term growth of the industry.

Calendar year 2021 and 2022 have been revised with the release of this report.

The category "Other" represents a portion of resident spending on air travel to leave Oregon and travel-arrangement activity.

Local taxes include lodging tax (TLT), food and beverage tax (where applicable), auto-rental tax (where applicable), and airport facility charges (where applicable).

State taxes include lodging tax (TLT), personal and business income tax, and motor fuel excise taxes.

\*Compound Annual Growth Rate (Ending Value / Starting Value)^(1/(Number of Periods))-1.

# Portland Region / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Portland Region region is based on cross-referencing visitor surveys, visitor air travel and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

Additional years available at [www.travelstats.com/impacts/oregon](http://www.travelstats.com/impacts/oregon)

# Southern Oregon / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Southern Oregon region is based on cross-referencing visitor surveys, visitor air travel and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

Additional years available at [www.travelstats.com/impacts/oregon](http://www.travelstats.com/impacts/oregon)

### Average Expenditure for Overnight Visitors, 2023

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$177,973

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$33

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$5

Local & State Tax Revenues Generated per County Household \$600

### Visitor Shares

Travel Share of Total Employment (2023) 6%

Overnight-Visitor Day Share of Resident Population\* 11%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*"Overnight-Visitor Day Share of Resident Population" is equal to the annual overnight-visitor days divided by 365 divided by the resident population. On an average day, approximately 11% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

### 2023 Share of Overnight-Visitor Spending

#### Central Oregon Region

#### Oregon

Hotel, Motel, STVR Private Home (VFR) Other Overnight

Percentages may not sum to 100% due to rounding.

### Notes:

House Bill 2267 established Travel Oregon in 2003; we include this year to track the long-term growth of the industry.

Calendar year 2021 and 2022 have been revised with the release of this report.

The category "Other" represents a portion of resident spending on air travel to leave Oregon and travel-arrangement activity.

Local taxes include lodging tax (TLT), food and beverage tax (where applicable), auto-rental tax (where applicable), and airport facility charges (where applicable).

State taxes include lodging tax (TLT), personal and business income tax, and motor fuel excise taxes.

\*Compound Annual Growth Rate (Ending Value / Starting Value)^(1/(Number of Periods))-1.

# Central Oregon / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Central Oregon region is based on cross-referencing visitor surveys, visitor air travel and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$117,309

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$35

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$5

Local & State Tax Revenues Generated per County Household \$323

### Visitor Shares

Travel Share of Total Employment (2023) 6%

Overnight-Visitor Day Share of Resident Population\* 8%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*"Overnight-Visitor Day Share of Resident Population" is equal to the annual overnight-visitor days divided by 365 divided by the resident population. On an average day, approximately 8% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

### 2023 Share of Overnight-Visitor Spending

# Mt. Hood & Columbia River Gorge / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Mt. Hood & Columbia River Gorge region is based on cross-referencing visitor surveys, visitor air travel and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

Additional years available at [www.travelstats.com/impacts/oreg](http://www.travelstats.com/impacts/oreg)

# County Impacts

2023p

This section provides detailed county estimates, as well as a number of summary tables. In interpreting these estimates, readers are advised that:

- Monetary values are expressed in nominal dollars (no inflation adjustment).
- Estimates measure direct impacts only.
- Counties with small populations and economies are less reliable than estimates for more populous and economically diverse areas.
- Total employment provided by the Bureau of Economic Analysis is an estimate in itself and covers the total amount of jobs, not the number of residents that work.
- Clackamas, Douglas, Lane, Multnomah, and Wasco counties are split into multiple travel regions. This breakdown is provided only on the county summary tables.
- Gilliam and Sherman counties are combined into a single region in the detailed reporting due to their relative size and nature of travel activity in that area.

County level travel estimates utilize the best information available at the time of the report and are subject to revision. All job estimates presented reflect total count of jobs and are not modified to be full time equivalent. It is important to note that job growth could reflect a decrease in full time positions and an increase in part time. Spending and job growth are not in a 1:1 relationship.

Starting with 2021, spending estimates for short term vacation rentals are broken out from our summary figure. These breakouts are subject to revision as more information becomes available regarding this type of lodging.

Visitor volume figures are presented in four measures: person-trips, person-nights, party-trips, and party-nights. These measures can move in different directions based on changes to estimated party size and length of stay. It should be stressed that direct travel spending is a more reliable metric on the health of the travel industry than visitor volume. For these and other reasons, the measures provided in this section are general indicators that should be used in conjunction with other measures of local economic activity.

# County / Summary

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$83,467

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$28

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$4

Local & State Tax Revenues Generated per County Household \$392

### Visitor Shares

Travel Share of Total Employment (2023) 9%

Overnight-Visitor Day Share of Resident Population\* 12%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 12% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

### 2023 Share of Overnight Visitor Spending

#### Baker County

#### Oregon

Hotel, Motel, STVR Private Home (VFR) Other Overnight

Percentages may not sum to 100% due to rounding.

# Baker County / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Baker County is based on cross-referencing visitor surveys, visitor air travel, and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$86,402

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$29

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$6

Local & State Tax Revenues Generated per County Household \$234

### Visitor Shares

Travel Share of Total Employment (2023) 4%

Overnight-Visitor Day Share of Resident Population\* 5%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 5% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

# Benton County / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Benton County is based on cross-referencing visitor surveys, visitor air travel, and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$68,397

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$54

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$6

Local & State Tax Revenues Generated per County Household \$186

### Visitor Shares

Travel Share of Total Employment (2023) 3%

Overnight-Visitor Day Share of Resident Population\* 5%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 5% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

### 2023 Share of Overnight Visitor Spending

#### Clackamas County

#### Oregon

Hotel, Motel, STVR Private Home (VFR) Other Overnight

Percentages may not sum to 100% due to rounding.

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job	\$80,211
Employee & Proprietor Earnings Generated by \$100 in Visitor Spending	\$46
Local & State Tax Revenues Generated by \$100 in Visitor Spending	\$6
Local & State Tax Revenues Generated per County Household	\$1,814

### Visitor Shares

Travel Share of Total Employment (2023)	26%
Overnight-Visitor Day Share of Resident Population*	23%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 23% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

## 2023 Share of Overnight Visitor Spending

### Clatsop County

### Oregon

■ Hotel, Motel, STVR
 ■ Private Home (VFR)
 ■ Other Overnight

Percentages may not sum to 100% due to rounding.

# Clatsop County / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Clatsop County is based on cross-referencing visitor surveys, visitor air travel, and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

Additional years available at [www.travelstats.com/impacts/oregon](http://www.travelstats.com/impacts/oregon)

# Columbia County / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Columbia County is based on cross-referencing visitor surveys, visitor air travel, and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$88,737

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$34

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$5

Local & State Tax Revenues Generated per County Household \$563

### Visitor Shares

Travel Share of Total Employment (2023) 11%

Overnight-Visitor Day Share of Resident Population\* 11%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 11% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

### 2023 Share of Overnight Visitor Spending

#### Coos County

#### Oregon

Hotel, Motel, STVR Private Home (VFR) Other Overnight

Percentages may not sum to 100% due to rounding.

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$79,191

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$38

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$4

Local & State Tax Revenues Generated per County Household \$201

### Visitor Shares

Travel Share of Total Employment (2023) 6%

Overnight-Visitor Day Share of Resident Population\* 7%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 7% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

### 2023 Share of Overnight Visitor Spending

#### Crook County

#### Oregon

# Crook County / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Crook County is based on cross-referencing visitor surveys, visitor air travel, and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

Additional years available at [www.travelstats.com/impacts/oregon](http://www.travelstats.com/impacts/oregon)

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$92,814

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$35

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$3

Local & State Tax Revenues Generated per County Household \$708

### Visitor Shares

Travel Share of Total Employment (2023) 22%

Overnight-Visitor Day Share of Resident Population\* 24%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 24% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

### 2023 Share of Overnight Visitor Spending

#### Curry County

#### Oregon

Hotel, Motel, STVR Private Home (VFR) Other Overnight

Percentages may not sum to 100% due to rounding.

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$117,129

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$33

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$6

Local & State Tax Revenues Generated per County Household \$656

### Visitor Shares

Travel Share of Total Employment (2023) 6%

Overnight-Visitor Day Share of Resident Population\* 11%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 11% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

## 2023 Share of Overnight Visitor Spending

# Deschutes County / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Deschutes County is based on cross-referencing visitor surveys, visitor air travel, and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

Additional years available at [www.travelstats.com/impacts/oregon](http://www.travelstats.com/impacts/oregon)

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$116,683

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$24

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$3

Local & State Tax Revenues Generated per County Household \$165

### Visitor Shares

Travel Share of Total Employment (2023) 3%

Overnight-Visitor Day Share of Resident Population\* 10%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 10% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

## 2023 Share of Overnight Visitor Spending

# Grant County / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Grant County is based on cross-referencing visitor surveys, visitor air travel, and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$57,707

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$39

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$5

Local & State Tax Revenues Generated per County Household \$381

### Visitor Shares

Travel Share of Total Employment (2023) 11%

Overnight-Visitor Day Share of Resident Population\* 12%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 12% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

### 2023 Share of Overnight Visitor Spending

#### Harney County

#### Oregon

Hotel, Motel, STVR Private Home (VFR) Other Overnight

Percentages may not sum to 100% due to rounding.

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$99,208

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$36

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$6

Local & State Tax Revenues Generated per County Household \$654

### Visitor Shares

Travel Share of Total Employment (2023) 5%

Overnight-Visitor Day Share of Resident Population\* 10%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 10% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

## 2023 Share of Overnight Visitor Spending

### Hood River County

# Hood River County / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Hood River County is based on cross-referencing visitor surveys, visitor air travel, and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

Additional years available at [www.travelstats.com/impacts/oregon](http://www.travelstats.com/impacts/oregon)

# Jackson County / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Jackson County is based on cross-referencing visitor surveys, visitor air travel, and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$87,879

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$25

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$5

Local & State Tax Revenues Generated per County Household \$542

### Visitor Shares

Travel Share of Total Employment (2023) 12%

Overnight-Visitor Day Share of Resident Population\* 16%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 16% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

### 2023 Share of Overnight Visitor Spending

#### Jefferson County

#### Oregon

Hotel, Motel, STVR Private Home (VFR) Other Overnight

Percentages may not sum to 100% due to rounding.

# Josephine County / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Josephine County is based on cross-referencing visitor surveys, visitor air travel, and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

Additional years available at [www.travelstats.com/impacts/oregon](http://www.travelstats.com/impacts/oregon)

### Average Expenditure for Overnight Visitors, 2023

	Person		Party		Party Size	Length of Stay

## Direct Travel Impacts, 2023p

Visitor Spending Impacts	
Amount of Visitor Spending That Supports 1 Job	\$106,855
Employee & Proprietor Earnings Generated by \$100 in Visitor Spending	\$32
Local & State Tax Revenues Generated by \$100 in Visitor Spending	\$4
Local & State Tax Revenues Generated per County Household	\$336
Visitor Shares	
Travel Share of Total Employment (2023)	7%
Overnight-Visitor Day Share of Resident Population*	12%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 12% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

### 2023 Share of Overnight Visitor Spending

Klamath County

Oregon

Hotel, Motel, STVR   Private Home (VFR)   Other Overnight

Percentages may not sum to 100% due to rounding.

# Klamath County / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Klamath County is based on cross-referencing visitor surveys, visitor air travel, and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$88,781

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$24

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$4

Local & State Tax Revenues Generated per County Household \$212

### Visitor Shares

Travel Share of Total Employment (2023) 6%

Overnight-Visitor Day Share of Resident Population\* 9%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 9% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

### 2023 Share of Overnight Visitor Spending

#### Lake County

#### Oregon

Hotel, Motel, STVR Private Home (VFR) Other Overnight

# Lane County / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Lane County is based on cross-referencing visitor surveys, visitor air travel, and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$93,582

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$38

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$6

Local & State Tax Revenues Generated per County Household \$1,604

### Visitor Shares

Travel Share of Total Employment (2023) 24%

Overnight-Visitor Day Share of Resident Population\* 25%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 25% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

## 2023 Share of Overnight Visitor Spending

### Lincoln County

### Oregon

Hotel, Motel, STVR Private Home (VFR) Other Overnight

Percentages may not sum to 100% due to rounding.

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$89,751

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$31

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$5

Local & State Tax Revenues Generated per County Household \$191

### Visitor Shares

Travel Share of Total Employment (2023) 3%

Overnight-Visitor Day Share of Resident Population\* 5%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 5% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

### 2023 Share of Overnight Visitor Spending

#### Linn County

#### Oregon

Hotel, Motel, STVR Private Home (VFR) Other Overnight

Percentages may not sum to 100% due to rounding.

# Linn County / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Linn County is based on cross-referencing visitor surveys, visitor air travel, and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

Additional years available at [www.travelstats.com/impacts/oregon](http://www.travelstats.com/impacts/oregon)

\*\*\*"Retail" includes gasoline station employment and earnings.

# Malheur County / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Malheur County is based on cross-referencing visitor surveys, visitor air travel, and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

Additional years available at [www.travelstats.com/impacts/oregon](http://www.travelstats.com/impacts/oregon)

### Average Expenditure for Overnight Visitors, 2023

## Direct Travel Impacts, 2023p

Visitor Spending Impacts	
Amount of Visitor Spending That Supports 1 Job	\$103,443
Employee & Proprietor Earnings Generated by \$100 in Visitor Spending	\$29
Local & State Tax Revenues Generated by \$100 in Visitor Spending	\$5
Local & State Tax Revenues Generated per County Household	\$192
Visitor Shares	
Travel Share of Total Employment (2023)	2%
Overnight-Visitor Day Share of Resident Population*	5%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 5% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

## 2023 Share of Overnight Visitor Spending

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$69,085

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$34

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$4

Local & State Tax Revenues Generated per County Household \$155

### Visitor Shares

Travel Share of Total Employment (2023) 3%

Overnight-Visitor Day Share of Resident Population\* 6%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 6% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

### 2023 Share of Overnight Visitor Spending

#### Morrow County

#### Oregon

Hotel, Motel, STVR Private Home (VFR) Other Overnight

Percentages may not sum to 100% due to rounding.

# Morrow County / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Morrow County is based on cross-referencing visitor surveys, visitor air travel, and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

Additional years available at [www.travelstats.com/impacts/oregon](http://www.travelstats.com/impacts/oregon)

### Average Expenditure for Overnight Visitors, 2023

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$174,070

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$24

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$7

Local & State Tax Revenues Generated per County Household \$597

### Visitor Shares

Travel Share of Total Employment (2023) 3%

Overnight-Visitor Day Share of Resident Population\* 5%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 5% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

### 2023 Share of Overnight Visitor Spending

#### Multnomah County

#### Oregon

Hotel, Motel, STVR Private Home (VFR) Other Overnight

Percentages may not sum to 100% due to rounding.

# Multnomah County / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Multnomah County is based on cross-referencing visitor surveys, visitor air travel, and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

Additional years available at [www.travelstats.com/impacts/oregon](http://www.travelstats.com/impacts/oregon)

### Average Expenditure for Overnight Visitors, 2023

	Person		Party		Party Size	Length of Stay

## Direct Travel Impacts, 2023p

Visitor Spending Impacts	
Amount of Visitor Spending That Supports 1 Job	\$76,771
Employee & Proprietor Earnings Generated by \$100 in Visitor Spending	\$40
Local & State Tax Revenues Generated by \$100 in Visitor Spending	\$3
Local & State Tax Revenues Generated per County Household	\$202
Visitor Shares	
Travel Share of Total Employment (2023)	8%
Overnight-Visitor Day Share of Resident Population*	4%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 4% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

### 2023 Share of Overnight Visitor Spending

Polk County

Oregon

Hotel, Motel, STVR   Private Home (VFR)   Other Overnight

Percentages may not sum to 100% due to rounding.

# Tillamook County / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Tillamook County is based on cross-referencing visitor surveys, visitor air travel, and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$78,110

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$35

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$5

Local & State Tax Revenues Generated per County Household \$355

### Visitor Shares

Travel Share of Total Employment (2023) 7%

Overnight-Visitor Day Share of Resident Population\* 7%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 7% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

### 2023 Share of Overnight Visitor Spending

#### Umatilla County

#### Oregon

Hotel, Motel, STVR Private Home (VFR) Other Overnight

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$70,621

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$42

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$5

Local & State Tax Revenues Generated per County Household \$251

### Visitor Shares

Travel Share of Total Employment (2023) 5%

Overnight-Visitor Day Share of Resident Population\* 7%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 7% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

### 2023 Share of Overnight Visitor Spending

#### Union County

#### Oregon

Hotel, Motel, STVR Private Home (VFR) Other Overnight

Percentages may not sum to 100% due to rounding.

# Union County / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Union County is based on cross-referencing visitor surveys, visitor air travel, and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

Additional years available at [www.travelstats.com/impacts/oregon](http://www.travelstats.com/impacts/oregon)

# Wallowa County / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Wallowa County is based on cross-referencing visitor surveys, visitor air travel, and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$62,051

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$48

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$5

Local & State Tax Revenues Generated per County Household \$521

### Visitor Shares

Travel Share of Total Employment (2023) 11%

Overnight-Visitor Day Share of Resident Population\* 11%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 11% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

## 2023 Share of Overnight Visitor Spending

### Wasco County

### Oregon

■ Hotel, Motel, STVR
 ■ Private Home (VFR)
 ■ Other Overnight

Percentages may not sum to 100% due to rounding.

## Direct Travel Impacts, 2023p

Visitor Spending Impacts	
Amount of Visitor Spending That Supports 1 Job	\$85,741
Employee & Proprietor Earnings Generated by \$100 in Visitor Spending	\$26
Local & State Tax Revenues Generated by \$100 in Visitor Spending	\$3
Local & State Tax Revenues Generated per County Household	\$202
Visitor Shares	
Travel Share of Total Employment (2023)	6%
Overnight-Visitor Day Share of Resident Population*	16%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 16% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

### 2023 Share of Overnight Visitor Spending

Wheeler County

Oregon

Hotel, Motel, STVR   Private Home (VFR)   Other Overnight

Percentages may not sum to 100% due to rounding.

## Direct Travel Impacts, 2023p

### Visitor Spending Impacts

Amount of Visitor Spending That Supports 1 Job \$89,071

Employee & Proprietor Earnings Generated by \$100 in Visitor Spending \$31

Local & State Tax Revenues Generated by \$100 in Visitor Spending \$5

Local & State Tax Revenues Generated per County Household \$222

### Visitor Shares

Travel Share of Total Employment (2023) 3%

Overnight-Visitor Day Share of Resident Population\* 5%

**Source:** Bureau of Economic Analysis and Bureau of Labor Statistics. Estimates by Dean Runyan Associates. Visitor spending that supports one job does not include employment in Other Travel.

\*Overnight Visitor Day Share of Resident Population is equal to the annual overnight visitor days divided by 365 divided by the resident population. On an average day, approximately 5% of the population is added to the amount of people in the area.

Visitors staying in hotel, motel or short-term rentals account for 67% of overnight-visitor spending for the state of Oregon, while private home (staying with friends and family or VFR) and other overnight together account for 33%. Generally, areas that are primarily rural or suburban have higher shares of private-home visitation and other overnight stays, while urban areas have a greater share of stays in hotels, motels and short-term vacation rentals. "Other Overnight" includes camping and second-home spending.

## 2023 Share of Overnight Visitor Spending

### Yamhill County

### Oregon

■ Hotel, Motel, STVR
 ■ Private Home (VFR)

# Yamhill County / Visitor Details

## Visitor Details, 2023p

Overnight-visitor volume for Yamhill County is based on cross-referencing visitor surveys, visitor air travel, and lodging data. Volume estimates, therefore, will differ from methodologies that rely solely on visitor surveys. Visitor spending is a more reliable metric than visitor volume in accounting for changes in the travel industry, as it is more closely tied to economic data and lessens the variability from visitor surveys. Day-travel estimates are not included because of data limitations.

Additional years available at [www.travelstats.com/impacts/oregon](http://www.travelstats.com/impacts/oregon)

## Definition

State taxes generated by travel spending.

City and county taxes generated by travel spending.

Accommodation types that house transient lodging activity.

Expenditures made by consumers, combination of Visitor Spending and Other Spending.

North American Industry Classification System.

Combination of other overnight visitors who stay in campgrounds or second homes.

Homes under private ownership for personal use as a seasonal property where a lodging tax is not collected. Only includes spending during trip.

Homes under private ownership for personal use as a seasonal property where a lodging tax is not collected.

A trip that involves non-routine travel of greater than 50 miles to the destination and but no overnight stay in the destination.

Direct spending made by visitors in a destination. Interchangeable with “Visitor Spending.”

Employment generated by direct travel spending. It includes full-time employees, part-time employees, seasonal employees, and proprietors.

Total after-tax net income from travel. It includes wage and salary disbursements, proprietor income, and other earned income or benefits.

Spending by residents on travel arrangement services and/or spending for convention activity.

Spending by visitors in a destination.

Personal residences used to host visiting friends and family overnight.

A trip made by a person to the destination.

Privately owned homes for personal use as a seasonal property.

STVR stands for “short term vacation rental.” The category includes private and semi-private lodging rented by owners or property management companies (e.g., Airbnb & VRBO).

## Specific terms to this report

Overnight Visitor Day Share  
of Resident Population

A measure indicating the percent additional population in an area on an average day. For example a place with 5% visitor day share and a resident population of 10,000 would have 10,500 total people in which 500 are visitors.

Travel Share of Total  
Employment

A measure indicating the percent of travel generated employment in an area.

# Methodology

## Travel Impacts Methodology

Primary travel-impact analysis will make use of the Regional Travel Impact Model (RTIM), prepared and maintained by Dean Runyan Associates and used for most of our travel-impact analysis since 1985. This model was developed to provide robust impact findings at small geography without reliance on annual survey research. This is a “bottom-up” approach whereby analysis is conducted at the county level, then aggregated to regions and the state, allowing us to use the most detailed tax, employment, wages, and other data that are available. Our clients have selected this approach to provide particularly detailed and defensible findings for all parts of their constituency.

Because the model does not rely on annual survey research for its primary inputs, we work in other states with a variety of other visitor-profile providers, including national panel managers or those making use of intercept or regional web methodology. Analysis is conducted separately by type of visitor lodging, making use of data and modeling appropriate to each. Impact analysis associated with visitors staying in commercial lodging makes use of lodging-tax data to calculate lodging sales, then employs expenditure-distribution data for these types of visitors to calculate total sales and the distribution among expenditure categories. We maintain our own expenditure-distribution database for each state we work in, but also make use of historic and current expenditure data, as available. Rental cabins, condos and other property are included in this category if lodging tax has been applied to sales.

Earnings, employment, and tax receipts are calculated using employment and wage data by business category for each county, plus the applicable taxes on each type of expenditure. Tax impacts-such as for restaurant, fuel, and retail purchases-are calculated from spending amounts; totals will be checked against data from state sources.

Sales attributed to campers are calculated from campground inventory (separately for public and commercial campgrounds), camping-occupancy data and average expenditures for camping parties. Expenditure data will be from expenditure databases that we maintain, augmented by visitor survey data available for Oregon, as available.

Other impacts are calculated in a manner like those for commercial-accommodation travelers. Sales attributable to travelers staying in their own second homes-or in rented condo, cabin, and other accommodations-are calculated from inventories of these types of lodging and the associated utilization and expenditure data. Findings are made consistent if some of these sales have been subject to lodging tax. Second-home inventories are from U.S. Census sources and any local/regional data available. Other impacts are calculated in a manner like those for commercial-accommodation travelers.

(Continued on next page)

# Methodology / Continued

## Travel Impacts Methodology

Day-travel spending is calculated as a factor of overnight spending, with the proportions based on visitor data for Oregon travelers. This analysis will rely the most on visitor-profile data provided by the profile contractor. Other impacts are calculated in a similar way as those for commercial-accommodation travelers.

All spending estimates are summed for each county and separately for each business category, with applicable data then used to calculate earnings, employment, and tax receipts. County totals will be mapped to regions using address and other location data for lodging, camping, and other rental accommodations using separate methods for each type of lodging.

In all cases, our data and methodology are transparent, allowing for reliable error trapping and effective review of findings. All findings are also checked against available comparable data, such as county-level employment data by industry from the U.S. Bureau of Labor Statistics and lodging sales data from STR and Key Data.

# Methodology / Continued

## RTIM Industries mapped to NAICS

The following categorization is intended as a high level overview of how our reported industries map to the North American Industry Classification System. It should be noted the NAICS codes are based on responses from individual organizations and are not always a perfect 1:1 alignment with our analysis.

Travel Impact Industry	NAICS Industry Code
Accommodation & Food Service	Accommodation (721) Food services and drinking places (722) Residential property managers (531311) Breweries, wineries, distilleries (312120, 312130, 312140)**Notes on next page
Arts, Entertainment & Recreation	Arts, entertainment, and recreation (71) Scenic and sightseeing transportation (487) Motion picture and video exhibition (51213) Recreational goods rental (532292) Tour operators (56152)
Retail	Food & beverage stores (445) Gasoline stations (447) Clothing and clothing accessories (448) Sporting goods, hobby, book and music stores (451) General merchandise stores (452) Miscellaneous store retailers (453)
Transportation	Rail transportation (482114) Water transportation (4831) Urban transit systems (4851) Interurban and rural bus transportation (4852) Taxi and limousine service (4853) Charter bus industry (4855) Passenger car rental (532111) Truck, trailer, and RV rental and leasing (53212) Parking lots and garages (812930)
Air Transportation	Scheduled passenger air transportation (481111) Support activities for air transportation (4881)
Others	Travel agencies (56151) Convention and trade show organizers (56192)

\*\*Travel spending on breweries (312120), wineries (312130) and distilleries (312140) are included within the food-service, retail, food-stores, and recreation industries. It is likely that the bulk of travel-related spending on these alcohol-related NAICS codes occurs within the food-service category. However, because experiences at breweries, wineries, and distilleries often include a significant experiential component, as well as opportunities for retail purchases, we are unable to allocate exact percentages to the above travel impact categories.
