

#### MEETING ROOMS

Additional meeting rooms with operable partitions allow three to eight meetings to occur simultaneously.

#### EXHIBITION HALL

100,000 sf of a two-story high exhibition hall allow major events and exhibitions in the region to be held at LCC, while providing flexibility to divide into three smaller halls for variety of events.

#### THE GORGE

The Gorge serves as additional exhibition space, activating the outdoor spaces between the bridges.

#### MEETING PAVILION

Meeting rooms with operable partitions provide a maximum of eight meeting spaces in the Pavilion along the Main Street.

#### THE SPINE

Main connection between LCC and Rupp arena provides direct connection from the Rupp Arena to LCC exhibition halls and the Pavilion.

#### PARKING

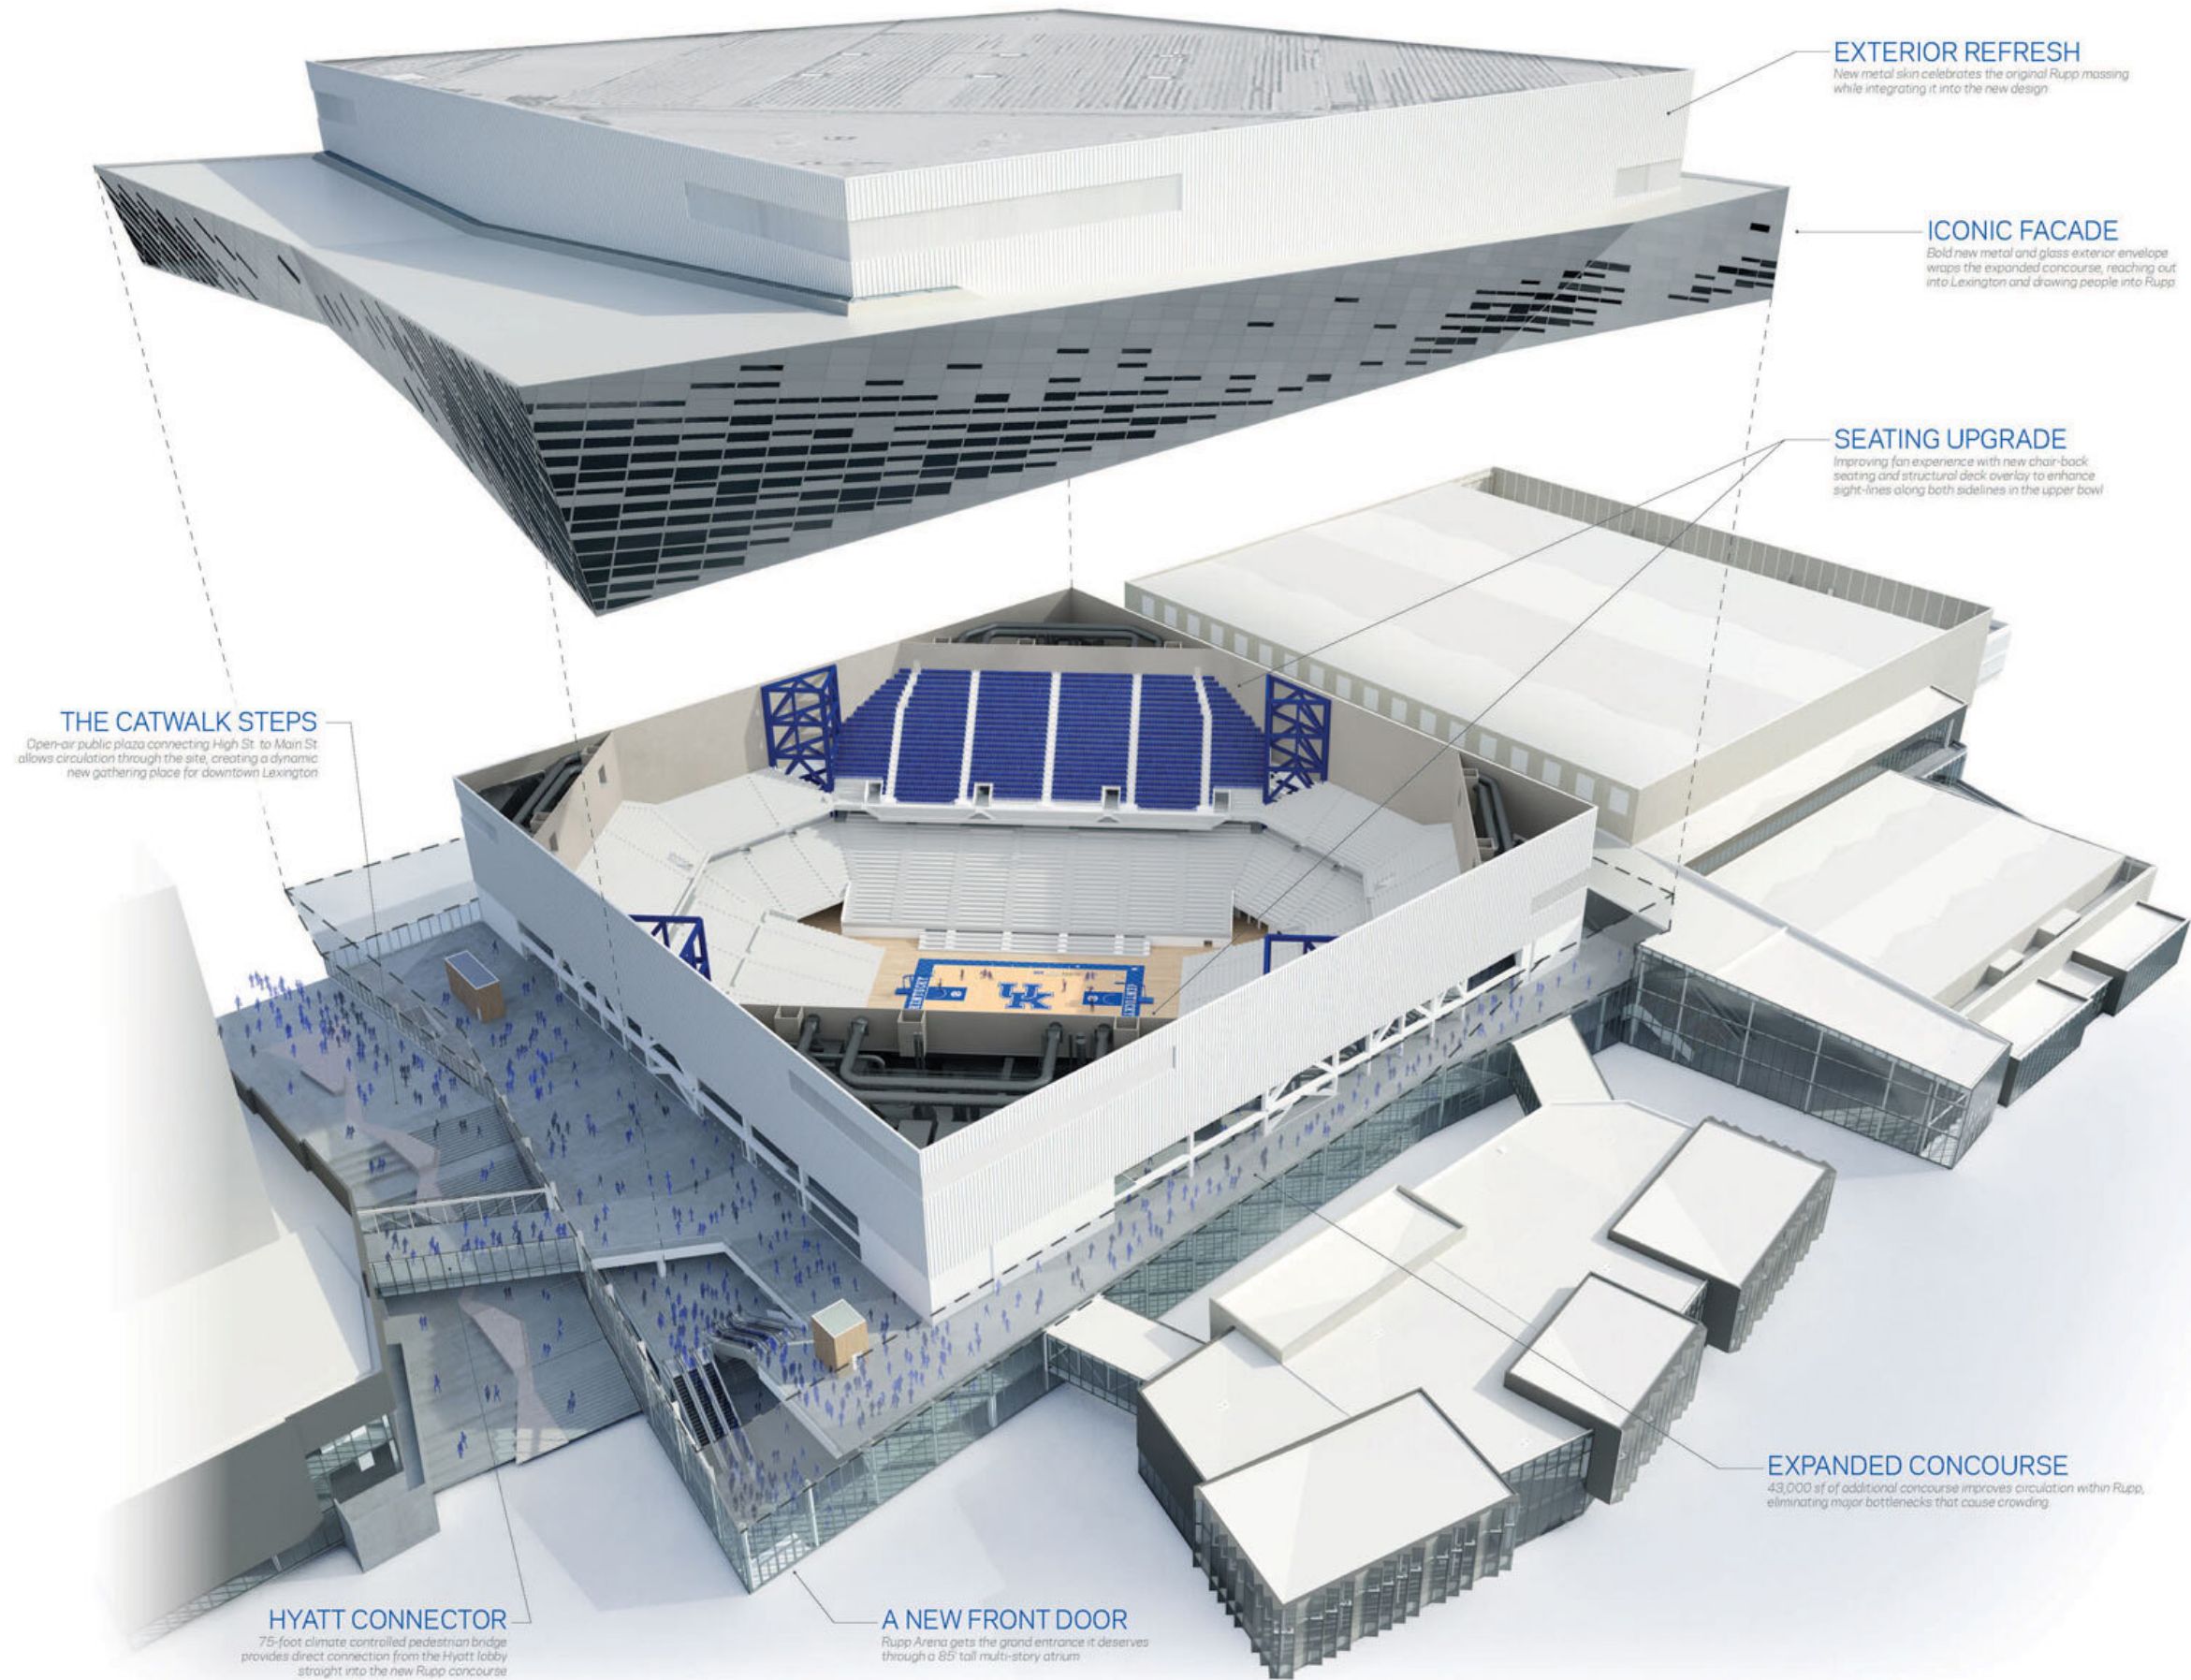

Two levels of parking with 502 parking spaces provide direct access to LCC, accommodating for large event crowds.

#### ROOF TERRACE

Outdoor roof terrace provides a view towards Town Branch Park with access from level two and level three.

#### BALLROOM

25,000 sf of ballroom space provides flexible layouts that can be divided to cater to different sizes and events.

#### EXTERIOR REFRESH

New metal skin celebrates the original Rupp massing while integrating it into the new design.

#### ICONIC FACADE

Bold new metal and glass exterior envelope wraps the expanded concourse, reaching out into Lexington and drawing people into Rupp.

#### SEATING UPGRADE

Improving fan experience with new chair-back seating and structural deck overlay to enhance sight-lines along both sidelines in the upper bowl.

#### THE CATWALK STEPS

Open-air public plaza connecting High St. to Main St. allows circulation through the site, creating a dynamic new gathering place for downtown Lexington.

#### HYATT CONNECTOR

75-foot climate controlled pedestrian bridge provides direct connection from the Hyatt lobby straight into the new Rupp concourse.

#### A NEW FRONT DOOR

Rupp Arena gets the grand entrance it deserves through a 85' tall multi-story atrium.

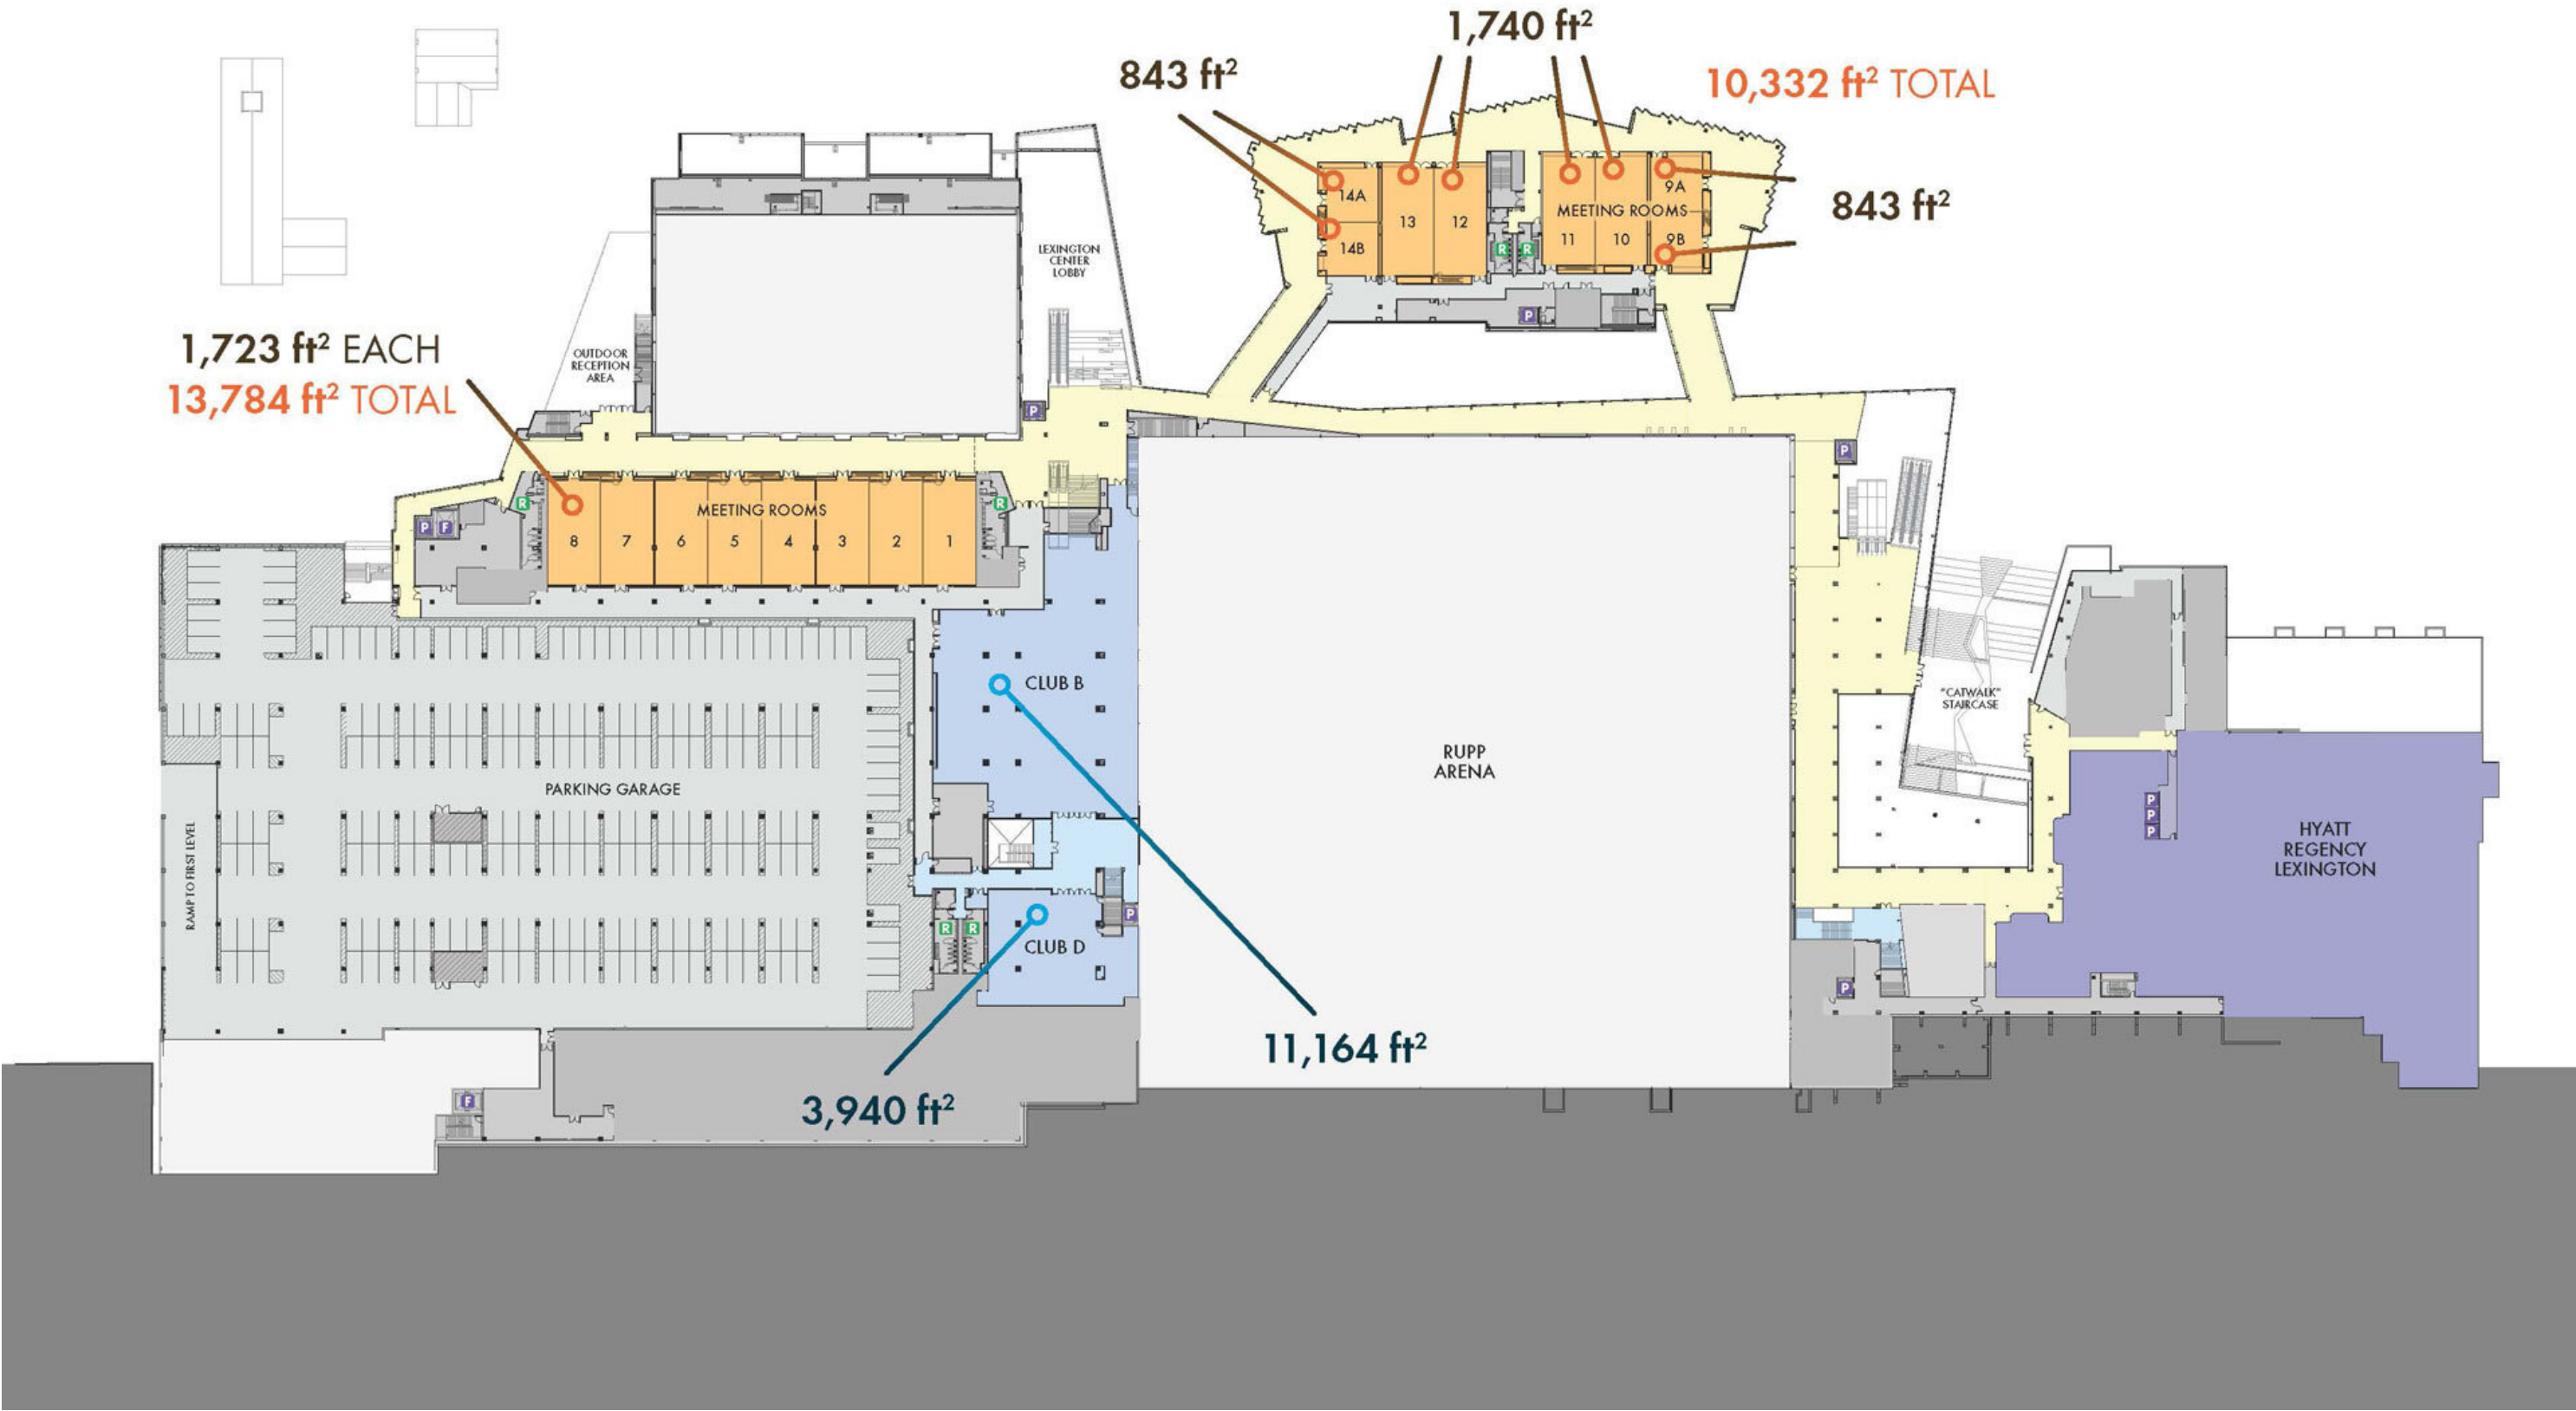

#### EXPANDED CONCOURSE

43,000 sf of additional concourse improves circulation within Rupp, eliminating major bottlenecks that cause crowding.
