

THE NAPA VALLEY VISITOR PROFILE 2018

FINAL REPORT OF FINDINGS
MAY 2019

RESEARCH PREPARED FOR VISIT NAPA VALLEY BY

Destination  Analysts

Research Overview

This report presents the findings of a comprehensive visitor profile development study conducted by Destination Analysts, Inc. on behalf of Visit Napa Valley. The data presented here comes from three sources:

- The Napa Valley Lodging Guest Survey.
- The Napa Valley Visitor Intercept Survey of day-trip visitors and visiting friends or relatives staying overnight in private homes (VFRs).
- Online Panel Survey & Telephone Survey of Napa County Homes conducted at the end of 2018 to quantify the number of VFRs who stayed overnight in a private home in the area.

This survey was administered to 300 randomly selected homes in the Napa County

Destination Analysts' research staff member interviewing visitors at Robert Mondavi

The data collected in these surveys was used to estimate the actual volume of lodging guests and visiting friends and relatives (VFRs) who come to the Napa Valley during the year. The third segment of visitors, day-trip visitors, was estimated using the relative incidence of lodging guests to day-trip visitors seen in the data collected in the Visitor Intercept Survey. Using the visitor volume estimates that emerged from this process, the survey data was weighted to develop the overall visitor profile.

Research Objectives

The overarching goal of this survey-based research is to create an in-depth profile of the Napa Valley visitor, including developing the following marketing intelligence:

- Detailed trip characteristics (i.e. tripographic information like the reason for visiting the Napa Valley, length of stay, place of stay, etc.)
- Activities & attractions visited in the Napa Valley
- Evaluation of the Napa Valley brand attributes
- The detailed Napa Valley visitor spending estimates
- Travel planning resources used by the Napa Valley visitors
- Visitor expectations and satisfaction
- Visitor psychographic and demographic profiling

In addition to developing a comprehensive, multi-segment Napa Valley visitor profile, data from this research will also be used as inputs to estimate the economic impact of tourism to the Napa Valley.

Methodology

The research includes two separate yet carefully integrated survey collection techniques. Destination Analysts, working closely with Visit Napa Valley, prepared a base survey questionnaire that was fielded in two ways: (1) an intercept survey of visitors to the Napa Valley collected at locations around the area each quarter (the intercept survey was in the field for a total of 30 days), and (2) a self-administered survey of the Napa Valley hotel guests distributed at their hotel.

This report presents data collected through December 2018 of this year-long study, from both the Visitor Intercept Survey as well as the Hotel Guest Survey. In total, **1,868** completed surveys were collected from four different key groups of visitors:

1. Visitors staying in a hotel/lodging property in the Napa Valley area (“Lodging Guest” – 536 surveys collected)
2. Visitors staying in a vacation home/room rental, i.e. rented through Airbnb (“Home Share” – 42 surveys collected)
3. Visitors staying in the private home of a friend or relative in the Napa Valley (“VFR” – 83 surveys collected)
4. Day-trippers to the Napa Valley, including regional residents coming to the area for the day as well as those on trips staying overnight elsewhere in the surrounding areas (“Day Trip” – 1204 surveys collected)

Visitor Intercept Survey Overview

Destination Analysts' survey collection team worked at locations around the Napa Valley area to randomly select and interview visitors. During the 2018 calendar year the questionnaire was administered to persons residing outside the Napa Valley at the following locations:

- Beringer Vineyards
- Castello di Amorosa
- Clif Family Winery
- Chateau Montelena Winery
- The Culinary Institute of America
- Embassy Suites
- The Meritage Resort & Spa
- Napa Premium Outlets
- The Napa Valley Wine Train
- Robert Mondavi Winery
- Sterling Vineyards
- The Napa Valley Welcome Center
- V Marketplace
- V. Sattui Winery

DETAILED FINDINGS

ABOUT THIS REPORT

In the remainder of this report, data from the survey findings is presented as follows:

Each slide in this report presents a chart illustrating the results for all visitors. The report additionally presents results for each of the four visitor segments:

- Lodging guests
- Home share rental visitors
- Visiting friends and relatives (VFRs)
- Day trip visitors

These results are presented in tabular format next to charts representing the data for all visitors.

Key Definitions:

- 1. Travel Group** - Includes the number of people traveling together in the same group
- 2. Travel Party** – Number of people covered by reported in-market spending

Primary Reason for Napa Valley Trip

Visitors to the Napa Valley in 2018 came primarily for leisure. In fact, 40.7 percent characterized their trip as a vacation while an additional 31.1 percent were in the Napa Valley for a weekend getaway. Meanwhile, 11.3 percent were in the area for a wedding or special event and 5.7 percent of visitors surveyed were in the Napa Valley for business or a conference/group meeting.

Daily In-Market Spending

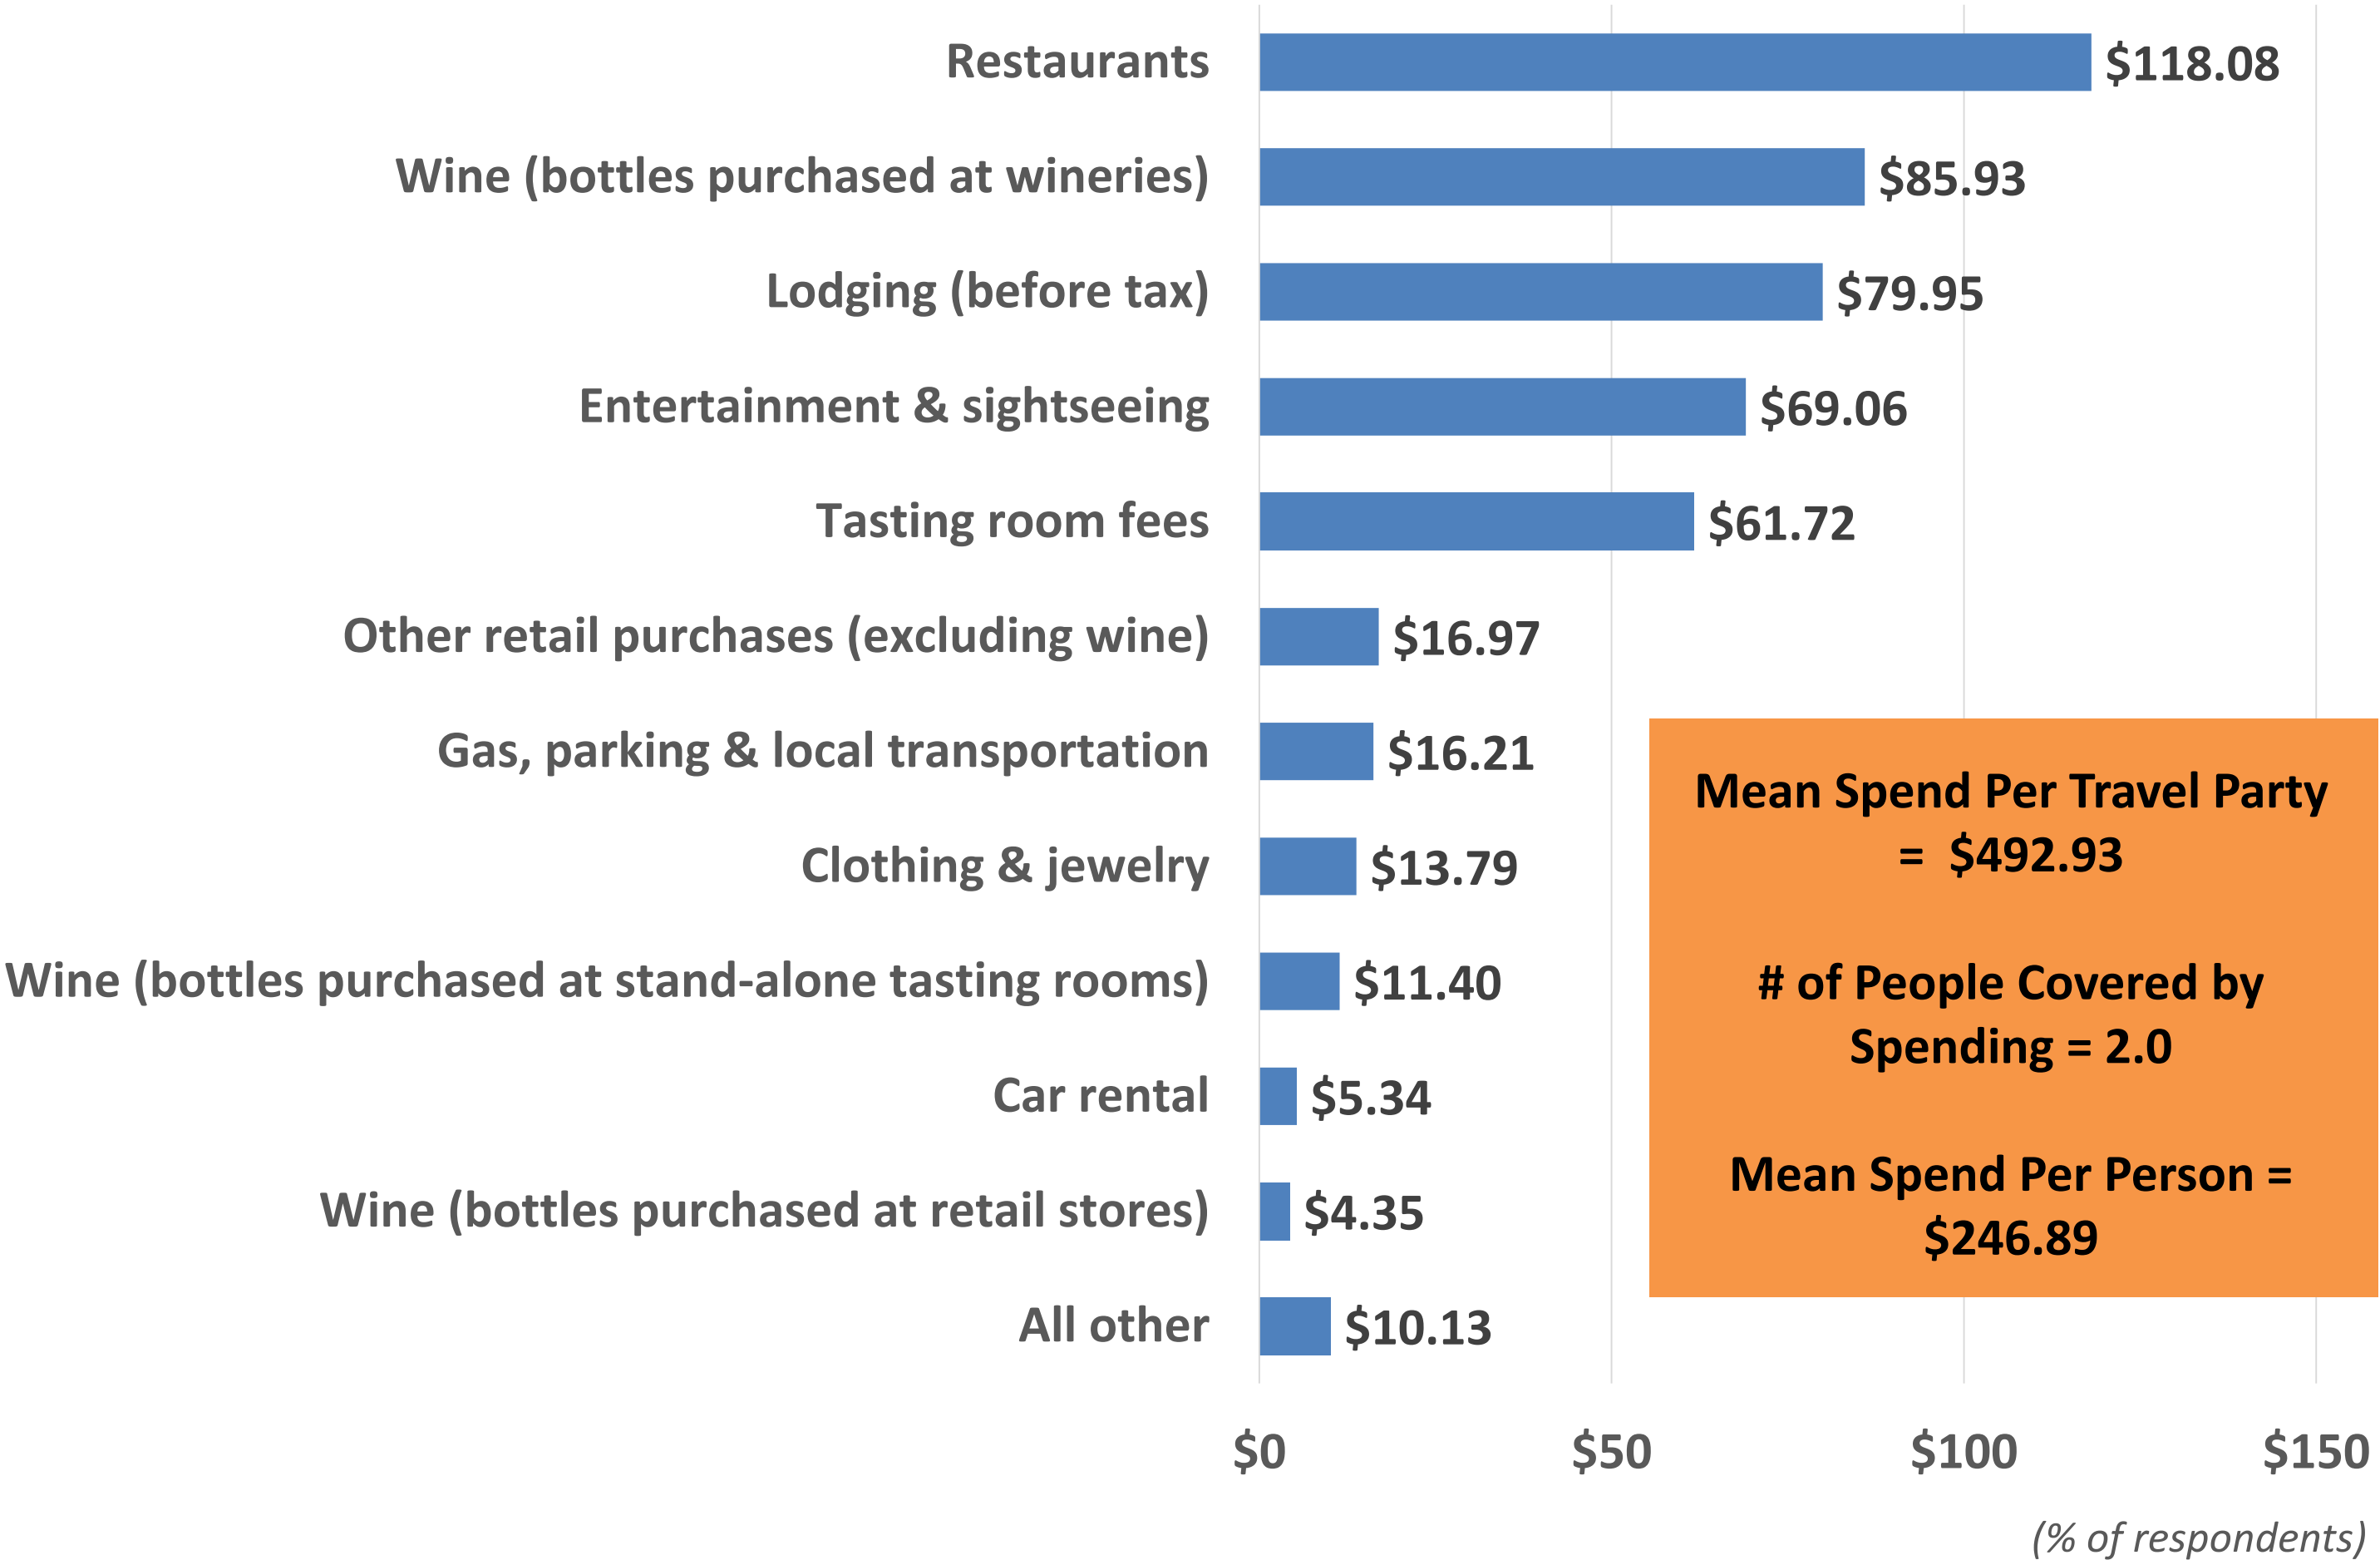

The typical 2018 visiting travel party to the Napa Valley spent **\$492.93 per trip day in the area**. The bulk of this spending is attributed to restaurants (\$118.08) and wine purchased at wineries (\$85.93). Since this reported travel party spend covered an average of 2.0 people, it is estimated that each of the Napa Valley visitor represents \$246.89 in daily in-market spending.

It is important to note that the \$79.95 average spend for lodging (shown at right) includes all visitors, even those not staying in paid commercial lodging. This data is not reflective of average room rates. The average lodging guest surveyed reported spending \$250.56 on lodging before tax (shown on the breakout table on the following page).

Travel party spending data segmented by visitor type is presented on the next slide.

Question: Approximately how much will you spend in the Napa Valley PER DAY on the following? Base: All respondents. 1816 responses.
