Dear Community Partners,

Comal ISD Community Education invites employers within our district's communities to participate in our first ever **Student Summer Job Fair**. This unique event provides an opportunity for high school students seeking summer jobs to browse local employers offering seasonal work and internships all in one convenient place! Participating in the virtual Student Summer Job Fair will provide your team access to a diverse talent pool with a wide range of qualifications and abilities.

Local employers and business partners looking to hire students for summer jobs and internships will be featured on our Student Summer Job Fair website. A categorized directory on the website will showcase your business, available positions, and preferred qualifications. Partnership benefits are listed below. Students are required to directly apply with each desired business. A resume building template will be offered to students as an optional presentation. This two-week event is open to all high school students in Comal ISD to attend free of charge.

Comal ISD's mission is to "Graduate every student ready for military, career, and/or college." Our educators strive to provide every student the academic, career and life skills needed to excel in an ever-changing world, and Comal ISD is determined to develop responsible and contributing citizens who discover their own gifts, talents and abilities. With the help of local partners like you, collectively we can prepare our students for life beyond the classroom walls. Your participation further supports student scholarships for Community Education courses and School Age Child Care enrichment.
