MATCHING REQUIREMENTS

This grant requires a 25% match. The following sections may be used to determine the costs and calculate totals for In-Kind & Monetary Donations, which must be reported in the End-of-Year Report.

Donated Goods or Services:

Entities may receive non-monetary contributions of goods or services, often referred to as “in-kind donations” from businesses, groups, and individuals. Examples include private waste hauler services, “pro-bono” accounting services, food/drinks, donated advertising space, or office space in a non-government building. The dollar value of any donated goods or services is equal to the market price of the goods or services contributed. Whenever possible, submit the dollar-value in writing.

How to Calculate Government Costs:

Government employee time and services for which they receive government salary, overtime or compensatory time are considered a cost. If a government employee is working on a project on their own time, as a volunteer or board member, calculate their time as a volunteer hour. Government in-kind goods include hauling by sanitation vehicles, printing, and the use of consumable supplies. To calculate the value of in-kind government agency costs, estimate the market value of the goods or services provided to your affiliate and add to that the dollar-value for each hour of work given by government employees.

Volunteer Hours:

All volunteer hours should be documented on a Volunteer Sign-In Sheet. Each volunteer hour should be assigned the applicable state value provided by Independent Sector unless a professional provides a specific value for professional services. Current value for volunteer hours is available at https://www.independentsector.org/volunteer_time.
