

Health & Safety

The health and safety of all persons at the New Orleans Ernest N. Morial Convention Center is of the utmost importance and concern.

The Convention Center follows the annual Flu Season and 2019 Novel Coronavirus (2019-nCov) Guidance from the Centers for Disease Control, and consults with the Louisiana Department of Health, and the City of New Orleans Health Department.

Release TBD

The Convention Center is actively monitoring the annual Flu Season and 2019-nCov and is practicing Flu Season prevention at this time while continuing to monitor changes with 2019-nCov.

The Convention Center has taken preventative measures for the annual Flu Season including the use of non-toxic cleaning and disinfecting products; increased frequency of cleaning in all areas of the facility (restrooms, door handles, handrails, etc.); and placement of hand sanitizing stations throughout the lobbies.

Our Public Safety Department is available to assist you with the development of health and safety plans that are appropriate for your event.

The Convention Center continues to actively collaborate with "Whole Community" partners to include the City of New Orleans Health Department, the New Orleans Department of Homeland Security and Emergency Preparedness, New Orleans Emergency Medical Services, and New Orleans & Company to ensure seamless preparation for the annual Flu Season and 2019-nCov. The Convention Center will communicate any updates or changes to current on-site annual Flu Season preventative measures.
