Fall Fishing Program

More Brown Trout More Steelhead More Atlantic & Pacific Salmon

Explore world-class fishing destinations supplied with water from the Erie Canal to Lake Ontario tributaries in Western New York.

The Canal Corporation is releasing more water from the Erie Canal into Lake Ontario tributaries, over a longer period—creating an extended fall fishing season with more consistent flows providing improved fish habitat and better angling opportunities.

As part of New York State's Reimagine the Canals initiative, NYPA and the Canal Corporation are expanding fishing opportunities to promote outdoor recreation and local business.
