

# EMERGENCY LOANS

Right now, our economy is going through a tough time. Unfortunately, we did not foresee this, but it is here. With our busy season quickly approaching, due to the shutdown we may go weeks or months without income. Do you have enough money to keep you going during the shutdown? Can you maintain your rent, inventory, employees etc? I have access to programs that can get you funded in as little as 24 hours. If you wait you won't qualify because you need to have revenue coming in to get approved. We have a wide variety of programs available to make sure you get through this tough time. Contact me for details
