

OKLAHOMA CITY
CONVENTION CENTER

WE'RE READY

The Oklahoma City Convention Center is here to make every experience as simple as possible. The \$288 million, state-of-the-art facility has been designed specifically to accommodate trade shows, consumer/public shows, conventions, annual meetings, corporate meetings, various types of receptions, and much more.

This center is a total of 500,000 square feet and includes a 200,730 square foot exhibit hall, which is divisible into four halls; a versatile 29,874 square foot ballroom with 5,000 square foot pre-function space and terrace overlooking Scissortail Park and nearly 45,000 square feet of meeting space; and a 9,726 square foot junior ballroom. There is over 65,000 square feet of pre-function space.

The new venue features glass walls, making use of natural light with breathtaking views of Scissortail Park. Narduli's "Virtual Sky" graces the glass atriums facing Scissortail Park across the street. The artwork evokes Oklahoma's beautiful skies and the state's links to aviation history.

Slender, sleek titanium forms are suspended by aircraft cables in each of the two multi-story atriums facing west across Robinson Avenue. The gleaming forms capture the natural light pouring in across the downtown skyline.
