BOARDING & RIDING

1 Preparing:

Before you head out, know where you're going. All rides start and end on a *RAPID* platform. When you arrive on a platform, check the kiosk screen to learn the next departure time or if there are any service interruptions. Now's a good time to get your fare ready. Buy fares via Token Transit on your mobile phone or at a ticket vending machine on the platform - coins, small bills, and credit/debit cards are accepted. Use exact change - no change is issued.

2 Boarding:

With level boarding, it's easy getting on a *RAPID* vehicle. All *RAPID* vehicles and platforms are ADA accessible. When a *RAPID* vehicle comes to a complete stop, please allow for departing riders to exit first, then board. If no one is exiting, simply board, grab a seat or hold on to a handrail or strap. Don't forget, leave priority seating for those who need it. And, of course, never block the doors.

3 Riding:

Once you're on your way, check your phone, listen to your headphones, or chat with people you see every day, but stay aware of what stops you're approaching. We'll help with onboard stop announcements. If you need off, simply pull the stop request cable to request the next stop.

4 Arriving:

As you approach your destination, wait for the *RAPID* vehicle to come to a complete stop. Grab your things and head out. Push the yellow strip on the door to activate opening the doors, then exit. After you exit the platform, remember to always use crosswalks.
