

# SPIRIT OF AVIATION

Discover  
**oshkosh**  
100  
NORTH MAIN

## CALL FOR ART

With another AirVenture underway, we can't imagine a better time to announce our next placemaking project! Discover Oshkosh, in appreciation of the EAA, is looking for a talented artist or team of artists to design and paint a mural celebrating the spirit of aviation in Oshkosh!

To be Installed on the south-facing wall of the 100 North Main building, this six-story mural will greet residents and visitors alike as they cross the Main St. bridge. Successful projects will become a destination that draws aviation enthusiasts into the downtown.

The application is open and will remain open until the right project is identified. Interested muralists should prepare designs and budgets for the project. Lifts will be made accessible, but stipends should include the cost of materials. We are hoping to paint the mural this year!

Email [info@sparktowns.com](mailto:info@sparktowns.com) with any questions.

# 100 NORTH MAIN OSHKOSH, WIS.

Projects should focus on the left set-back section of the south-facing wall of the building.

The building owner is most interested in projects with classic color palettes that aren't too bright for the building.

The entire south-facing wall of the building is open for design concepts. Have fun! But artists need not fill the whole space to be successful.
