Day Two

9:00 am Jennette's Pier, Nags Head

This new state-of-the-art, LEED certified, 1,000-foot concrete pier features green technologies like wind turbines. The one-of-a-kind educational ocean pier features educational programs such as alternative energy demonstrations, plankton investigations, creatures of the night, fishing instructions, and how ROVs are used in underwater exploration.

Current Programs offered at Pier:

- **Wonders of Wind:** *In this program students learn how to harness energy from the wind, advantages and disadvantages of wind energy, the importance of clean wind and ideal locations to install wind turbines to maximize energy output. Through construction of their own "turbine" and discussions about alternative energy, participants in this program gain an understanding of how this technology works and its importance for future energy generation.*
- **Solar Science:** *Discover and discuss solar power as an energy resource. Students design, build and evaluate a solar device and discover how solar panels maximize efficiency.*
- **Intertidal Explorations:** *Students discover all the various types of animals that call the intertidal zone home.*
- **Plankton Investigations:** *Students learn how to use scientific instruments and discover the microscopic organisms that are vital to the marine food chain.*
- **Ocean Currents and Upwellings:** *Students discover how convection currents work and why they are important in a marine ecosystem.*
- **Pier Fishing 101:** **Learn the basic skills necessary to catch a fish.**
