APPROVAL OF MINUTES (All Vote)

JPA – VGPS BOARD OF DIRECTORS JOINT MEETING MINUTES DATED FEBRUARY 2, 2024 (all vote)

The JPA Executive Committee and VGPS Board of Directors Joint Meeting Minutes dated February 2, 2024, were presented for approval. JPA Chair Gardner asked for a motion. Mayor Linda Evans with City of La Quinta made a motion to approve, Councilmember Waymond Fermon with the City of Indio seconded. No abstentions. The City of Cathedral City was not present to vote. There was no further discussion, and the minutes were approved based on the roll call at the beginning of the meeting.

CONSENT CALENDAR (only JPA Executive Committee votes)

- **WARRANTS AND DEMANDS DATED JANUARY 2024**
- **WARRANTS AND DEMANDS DATED FEBRUARY 2024**

The Warrants and Demands dated January and February 2024 for Pacific Premier Bank were presented for approval. JPA Chair Gardner asked for changes or abstentions. Hearing none, the Warrants and Demands were approved based on the roll call vote at the beginning of the meeting. The City of Cathedral City was not present to vote.

VGPS BOARD (BOD Vote Only)

- **No items for vote**

JPA EXECUTIVE COMMITTEE (JPA Vote Only)

- **Approve Resolution JPA 2024-003 - Amendment to Section 12 of the Amended and Restated Joint Powers Agreement**

The staff report was presented for background and explanation of the proposed changes. Scott said VGPS recommended Coachella join the JPA based on the addition of economic development recruitment and their growing vacation rental segment. Based on the history of member payments, the proposed amended agreement requires an entry fee equal to estimated gross rental revenues x .55%. Additionally, there is a required Operational Fee of 15.62% x the Entry Fee. This totals \$35,372 in Coachella's case. The annual contribution from each JPA Member is the greater of \$35,000, or applicable contribution amounts based on a funding mechanism equal to .0015 x gross room rental revenue for lodging establishments, and .0035 x gross room rental revenue for Convention hotels.

Gary asked for a motion to add this language into our Amended and Restated JPA Agreement. Mayor Linda Evans with City of La Quinta made a motion to approve, and Mayor Pro Tem Jan Harnik with City of Palm Desert seconded.

Linda Evans requests that we equalize Riverside County's annual contribution as well. The new language would include Riverside County as part of the stated funding mechanism.

The recommendation is we update the JPA Agreement with this new language and take it back to the two members that have recently approved (La Quinta & Palm Desert) to present it again for approval, and then present the updated agreement to the other 8 members for approval vote (Desert Hot Springs, Cathedral City, Palm Springs, Rancho Mirage, Indio Wells, Indio, Riverside County, and Coachella). The goal is to have the Amended and Updated JPA Agreement signed by each JPA Member by the end of June 2024 in order to have it in place for fiscal year, July 1, 2024.

JPA Chair, Gary Gardner, called for an approval of Resolution JPA 2024-003 by a roll call vote. All members approved, with no abstentions. The City of Cathedral City was not present to vote.

TBID - Hotels – Note #1

Hotel TBID collections are forecasted using multiple resources. A forecasting tool originally developed by Tourism Economics that has been tested for accuracy was utilized. Data was drawn from Smith Travel Research reports, the Tourism Economics California Desert Region lodging forecast, and the CBRE Hotel Horizons Coachella Valley lodging forecast. Additionally, forecasts from TBID hotels representing 35% of total TBID hotel rooms available were used to validate the predictions from other sources.

TBID – Vacation Rentals – Note #2

The vacation rental TBID collections are forecasted using data from Key Data, LLC. Revenues have been forecasted using the YTD Average Daily Rate (ADR) trend in 2024 compared to 2023.

JPA Funding – Note #3

The city funding amount is based on forecasts provided by the cities.

City Marketing Partnerships – Note #4

The city marketing partnership amount is forecasted based on the terms of the agreements in place.

Tribal Voluntary – Note #5

The tribal funding is forecasted using the overall Hotel TBID forecasted year-over-year change.

Partnership Fees – Note #6

New memberships totaling \$25,000 are projected. Membership renewals are projected to be less than previous years due to elimination of the two lowest membership levels. Partners may now elect to receive benefits previously available in these membership levels by paying a la carte. Revenues from the selected services will be reflected in Advertising & Website Revenues.

Advertising & Website Revenues – Note #7

These revenues are projected to increase based on partner selected services mentioned in Partnership Fees above.

Joint Share Partnership – Note #8

Partner participation in sales missions is projected to increase slightly based on the number of opportunity offerings for the upcoming year.

Grants – Note #9

A \$1,759,375 multi-year grant was received from Riverside County in June 2022 for the Tourism Recovery Program. The grant period ends December 31, 2024. Revenues are based on fully expending the remaining available funds.

Other Sources: Investment Income – Note #10

Investment income is projected assuming a slight decrease in short-term interest rates over the course of the year.

Prior Year Rollover Funds – Note #11

Approximately 70% of the forecasted \$1,669,062 of unspent funds from the current year will be utilized in the upcoming year. The remainder will increase reserves.

Reserve Usage – Note #12

Use of reserves will be separately submitted for approval as opportunities arise. Utilizing funds from the VGPS Air Service Reserve fund was approved by the Board and JPA on February 2, 2024, to support new direct air service to/from Washington DC. This expenditure will occur within the upcoming fiscal year.

Expenses

Labor - Wages – Note #13

Studies conducted by Payscale, The Conference Board, SHRM / Willis Towers Watson and World at Work project labor costs to increase 4.0% - 4.5% in 2024. A 4.0% merit increase is included in the Labor budget. VGPS has no new positions budgeted. Some of the current positions, such as Director of Economic Development, Website Manager, and Destinations Experience Manager were open during portions of the year. The full-year cost is reflected in the proposed budget.

Labor: Taxes & Benefits – Note #14

Medical rates are budgeted to increase by an average of 8%. Dental, vision, life insurance, and disability rates are budgeted to increase by 5%. Workers compensation insurance reflects the rate quoted for the year. The budget includes the projected cost of the pension plan COLA change that became effective July 1, 2023.

Marketing Production – Note #15

A new VGPS Brand TV spot is being created in the current year to replace the 2018 version that had been in use. This cost will not be repeated in the upcoming year. The co-op advertising spots are updated every other year. It is anticipated that fewer will need to be updated in the upcoming year compared to the current year.

Media Placement & Digital Marketing – Note #16

Marketing campaigns will continue to focus on VGPS brand pillars with a mixture of both seasonal and ongoing campaigns. ESPN+ and Disney+ will be added to the television campaigns, while also exploring live TV commercial integrations with live events. Expedia selected VGPS as 1 of 3 destinations to be included in their “No Days Left Behind” national campaign with an expected exposure of 1 in 5 Americans. Budget funds will be maximized by participating in co-op campaigns with Visit California and Brand USA that provide matching funds.

Collateral Material – Note #17

Less has been budgeted for collateral material compared to the past due to increasingly providing information using digital form.

Familiarization Trips – Note #18

International FAMs are budgeted to increase for most VGPS targeted regions for both media and travel trade. The cost of FAMs for the BNP tennis tournament are also budgeted to increase.

Tradeshows / Sales Missions – Note #19

The Sales team has budgeted to attend 69 tradeshows & conferences and 7 sales missions. New or expanded programs include: PCMA’s CEMA – Corporate Event Marketing Association, Canadian Meetings & Events Expo Annual Tradeshow, ASAE Annual Conference, Luxury Meetings, Visit California client roadshow and tradeshow alignment, and 3 sales missions targeting mid-Atlantic market, Northeast and Southeast.

Travel & Lodging – Note #20

Travel and lodging costs are budgeted to increase primarily due to the addition of economic development programs.

Special Promotions & Representation – Note #21

The redeployment of city grants funds to economic development resulted in a decrease to the Special Promotions budget. This was partially offset by new and expanded activations and moderate increases in certain international representation costs.

Event Hosting – Note #22

Sponsorship of additional events have been budgeted for: London Design Center, Go West Summit, GTM West, and Airport Roundtable. The cost to sponsor the expanded NCAA basketball tournament to be held at Acrisure Arena will increase by \$50,000.

Research & Development – Note #23

The cost of Uber Media/NEAR data is no longer paid for directly. This data is now acquired by Simpleview and is a component of their marketing services fees.

IT – Information Technology – Note #24

The budget for external support for contingencies has been reduced.

Professional Fees – Note #25

A policy advocacy firm was recently hired for the benefit of short-term vacation rentals and economic development.

Capital Outlay – Note #26

The planned capital projects for the year are repaving the parking lot and adding an electric vehicle charging station. The purchase of a new vehicle to be used for FAMs has also been budgeted.

Overhead-Supplies-Utilities-Fees – Note #27

Overhead expenses are budgeted to increase slightly based on inflation and VGPS now being fully staffed.

Boundaries

There are no proposed changes to the boundaries.

On October 21, 2021, the Rancho Mirage City Council adopted Short-Term Rental (“STR”) Ordinance 1189 which prohibits short-term rental activity in all zones of the City, effective July 1, 2022.

Based on the Strategic Plan, develop programs to support transportation (air service / rail), workforce development and hospitality educational schools. Position the destination as sustainable and relevant to the modern traveler.

The sales and marketing plan may include, without limitation, the following activities:

Cost

2024-2025 Projections

The cost of providing improvements and activities for fiscal year 2024-2025 is consistent with the Plan. The categorical breakdown for the assessment budget is below. All budget category allocations are within the authorized twenty percent (20%) adjustment of the total assessment budget from the prior year.

Category	%	Budget \$	Change	Carry Over	TOTAL
Sales & Marketing	92%	\$24,432,060	-1%	\$1,046,493	\$25,478,553
Administration	8%	\$2,236,649	+1%	\$91,000	\$2,327,649
Contingency/Reserve	0%	\$0.00	-	\$ 0	\$0.00
Total	100%	\$26,668,709		\$1,137,493	\$27,806,202

Assessment

There is no change in the method and basis of levying the assessment.

Assessment

The annual assessment rate is three percent (3%) of gross short-term room rental revenue of all lodging businesses within the boundaries of the TBID with fifty (50) rooms or more, and one percent (1%) of gross short-term room rental revenue of all vacation rentals. Based on the benefit received, assessments will not be collected on stays of more than twenty-seven (27) consecutive days. Every vacation rental, listing a property or room for rent, operating on a Hosting Platform shall be subject to the (1%) assessment.

The term “gross short-term room rental revenue” as used herein means: the consideration charged, whether or not received, for the occupancy of space in a lodging business or vacation rental valued in money, whether to be received in money, goods, labor or otherwise, including all receipts, cash, credits and property and services of any kind or nature, without any deduction therefrom whatsoever. Gross short-term room rental revenue shall not include any federal, state or local taxes collected, including but not limited to transient occupancy taxes.

Time and Manner for Collecting Assessments

The TBID assessment was implemented beginning July 1, 2021 and will continue for ten (10) years through June 30, 2031. VGPS, Cities and/or County will be responsible for collecting the assessment on a monthly basis (including any delinquencies, penalties and interest) from each assessed business. VGPS, the Cities and/or County shall take all reasonable efforts to continue to collect the assessments from each assessed business.

1. VGPS, Cities and/or County shall make all reasonable efforts to enter into an agreement with all Hosting Platforms to collect and remit the TBID assessment on behalf of assessed businesses using the hosting platform.
2. An assessed business, using a Hosting Platform, reserves the right to have the Hosting Platform collect the assessment based on information supplied by the assessed business, and remit such assessment to the assessed business for ultimate reporting and remittance by the assessed business to VGPS, Cities and/or County. In such case, the Hosting Platform, upon request from VGPS, and/or County, and not more than once per consecutive twelve-month period, shall provide VGPS, Cities and/or County with copies of documentation related to assessed business which have provided acknowledgement of its obligation to collect all assessments owed on a gross short-term room rental revenue and to remit and report any assessments collected directly to VGPS, Cities, and/or County.

Delinquencies

Assessed businesses which are delinquent in paying the assessment shall be responsible for paying:

1. **Original Delinquency:** Any assessed business which fails to remit any assessment within the time required shall pay a penalty of ten percent (10%) of the amount of the assessment in addition to the amount of the assessment; provided, however, that if such ten percent (10%) penalty should exceed the maximum penalty permitted by law, then the penalty shall be the highest amount permitted by law.
2. **Penalty Delinquency:** Any assessed business which fails to remit any penalty within ten (10) days after receipt of notice thereof shall pay interest on the penalty at the rate of one percent (1%) per month or fraction thereof on the amount of the penalty from the date on which the penalty first became due until full and complete payment of the outstanding penalty; provided, however, that if such one percent (1%) interest should exceed the maximum rate permitted by law, then the interest rate shall be the highest rate permitted by law.
3. **Interest:** In addition to the penalties imposed, any assessed business which fails to remit any assessment shall pay interest at the rate of one percent (1%) per month or fraction thereof on the amount of the assessment from the date on which the assessment first became delinquent until paid; provided, however, that if such one percent (1%) interest should exceed the maximum rate permitted by law, then the interest rate shall be the highest rate permitted by law.
4. **Costs of Collecting Delinquencies:** Any assessed business shall also be subject to the payment of the costs of collecting any delinquent assessment and/or penalty, including but not limited to sending notices and initiating collection actions, which shall become a part of the assessment required to be paid. All delinquent assessments and penalties shall constitute a civil debt to VGPS and shall be subject to collection by VGPS, Cities and/or County by any means permitted by law.
5. **Penalties Capped:** Notwithstanding anything to the contrary, in no event shall the total penalties, including any original delinquency penalties and interest thereon exceed the maximum amount permitted by law.

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Visit Greater Palm Springs (VGPS), as of and for the year June 30, 2023, and the related notes to the financial statements, which collectively comprise VGPS's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of VGPS, as of June 30, 2023, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of VGPS and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As described further in Note 1 to the financial statements, during the year ended June 30, 2023, VGPS implemented Governmental Accounting Standards Board (GASB) Statement No. 96 Subscription-Based Information Technology Agreements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

VGPS's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about VGPS's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of VGPS's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about VGPS's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *management's discussion and analysis, budgetary comparison information and pension and other post-employment benefit schedules* be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the

information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Report on Summarized Comparative Information

We have previously audited VGPS's 2022 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated March 20, 2023. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2022, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 31, 2024, on our consideration of VGPS's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering VGPS's internal control over financial reporting and compliance.

This discussion and analysis of Visit Greater Palm Springs (Visit GPS) financial performance for the year ended June 30, 2023, provides a comparison of the current year to prior year ending results in a narrative format. It includes an analysis of Visit GPS's financial position and results of operations to assist in evaluating the Visit GPS's financial performance, as well as a discussion of significant changes that have occurred in funding. In addition, it describes the major changes in assets and liabilities. The discussion and analysis concludes with a description of currently known facts, decisions, and conditions that are expected to have a significant effect on the financial position or results of operations. We encourage readers to read the information presented here in conjunction with our financial statements.

FINANCIAL HIGHLIGHTS

Over 90% of Visit GPS's revenues are based on the lodging revenues in Coachella Valley, so are intrinsically linked to overnight travel to the area. Visit GPS experienced record setting revenues in the prior year due to pent up demand for travel caused by the COVID-19 pandemic. The desire for travel continued to increase into the current year resulting in new record high revenues in 10 of the 12 months. This led to the highest year of revenues in the organization's history.

Governmental fund expenditures increased by 45% compared to the prior year. Expenses were still below revenues for the year despite this dramatic increase in spending. Fund net positions increased by \$8 million combined.

The highlights below reflect the results of this record year of visitor travel to the area:

- Total revenues increased by \$3,112,035 (10.9%) largely due to increased Tourism Business Improvement District (TBID) assessment collections.
- Rising interest rates resulted in net investment income of \$411,903 compared to a loss of \$297,905 in the prior year.
- The \$7,615,009 (20.9%) increase in total assets was primarily the result of a \$7,212,265 increase in cash and investments.
- \$756,822 in grant funds on deposit from the County of Riverside were utilized for tourism promotion. This increased revenues and accounted for most of the reduction in total liabilities.
- The net position increased from \$27,784,870 to \$35,952,729 during the year. This \$8,167,859 (29.4%) increase resulted from record setting revenue levels combined with expenses less than budgeted.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of Visit GPS as a whole and presents a long-term view of the Visit GPS's finances. The following Fund financial statements for government activities presents how Visit GPS services were financed in the current year as well as what balances carry over for future spending. Fund financial statements report Visit GPS's operation in more detail than the government-wide statements by providing information about Visit GPS's General Fund and TBID funds. This report also contains notes to the financial statements, which is additional information to the basic financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2023

REPORTING VISIT GPS AS A WHOLE

The Statement of Net Position and the Statement of Activities

The Statement of Net Position and the Statement of Activities report information as a comparison to the previous fiscal year for Visit GPS as a whole. These statements include all assets, deferred outflows of resources, liabilities, and deferred inflows of resources using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the year's revenues and expenses (changes in net position) are taken into account regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in this statement for some items that may result in cash flows in future fiscal periods. Our analysis of these statements is reflected in Table 1 and 2 following.

REPORTING VISIT GPS'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds. Some funds are required to be established by State law and by JPA Executive Committee direction. However, management established other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain resources. Visit GPS maintains two governmental funds: the General Fund and TBID. The primary sources of funding are from the Tourism Business Improvement District; the history of which can be found below.

The second most significant source of funding is from Coachella Valley cities and the County of Riverside. This funding is based on a formula applied to local lodging revenues. The Agua Caliente Band of Cahuilla Indians makes a voluntary contribution on a quarterly basis.

The final source of funding is private funds. This includes revenue received through partnership, event hosting, advertising cooperatives, joint share participation with stakeholders, and interest.

Governmental funds are reported using the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of Visit GPS's general operations and the basic services provided. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance Visit GPS's programs.

The General Fund is comprised of public funding and private funds. The General Fund combines these two funding sources as there are not restrictions on how these funds are disbursed. TBID funds are accounted for separately and used for programs benefiting lodging establishments that are assessed and pay TBID.

2008 TBID Funds – In June 2008, Visit GPS requested that the County of Riverside form the Palm Springs Desert Resort Communities Tourism Business Improvement District (TBID). This funding source was assessed on hotels with 50 or more rooms within the defined eight cities and specified areas in the unincorporated part of the County of Riverside. An assessment of two percent on gross room sales was approved and was collected by the County of Riverside and remitted to Visit GPS.

2013 TMD Funds – The Tourism Marketing District Assessment was created in June 2013 with collection beginning on August 1, 2013. This funding source was assessed on hotels with 50 or more rooms within the defined

eight cities and specified areas in the unincorporated part of the County of Riverside. An assessment of one percent on gross room sales was collected by Visit GPS. The purpose of this funding source was to promote the assessed businesses as tourism visitor destinations and to fund projects, programs, and activities through an enhanced sales and marketing/media plan that specifically benefits the assessed businesses by generating room night sales.

2016 TBID Funds – On June 17, 2016, the Joint Powers Authority Executive Committee of Visit GPS held a public hearing and voted to establish a three percent Tourism Business Improvement District (TBID) assessment on gross short-term rental revenue to replace the current two percent Business Improvement District and the one percent Tourism Marketing District Assessment.

2021 TBID Funds - Coachella Valley vacation rental lodging owners and representatives successfully petitioned to be included in the TBID effective July 1, 2021. All vacation rentals located within the TBID boundaries began contributing 1% of gross rental revenue for short-term stays as of this date.

Current and Restricted Assets

An increase in cash and investments during the year accounted for most of the increase in current and restricted assets. This resulted from revenues exceeding the amount of expenses by \$8,009,518 for the year as shown in Table 3 below.

Capital Assets

Accounting in compliance with Government Accounting Standards Board (GASB) pronouncement 96 was adopted during the year. This new accounting standard requires that certain subscription-based computer software be recorded as capital assets (previously these were recorded as expenses). This resulted in at \$131,555 increase in net capital assets.

As part of Visit GPS green initiatives, artificial grass was installed to replace real grass for the building's landscaping and LED lighting installed throughout the building's interior at a combined cost of \$74,903 (net of rebates). An additional \$59,757 was expended on building air conditioning unit replacements, cubicles, and office furniture. The depreciation expense for the year was \$164,864. Additional information regarding Visit GPS's capital assets can be found in Note 4 to the financial statements.

Current Liabilities

Visit GPS received a \$1,759,375 grant from Riverside County for the Tourism Recovery Program in June 2022. \$756,822 of these grant funds were expended during the current year. Liabilities were reduced as a result.

Long-Term Obligations

Visit GPS's largest liability, Other Post-Employment Employee Benefits (OPEB), decreased from \$4,077,878 to \$3,489,295 during the year. Increasing interest rates used to calculate this liability were the primary driver in this \$588,583 decrease. Additional information regarding the OPEB liability can be found in Note 6 to the financial statements.

Revenue by Type

Most of the organization's revenues are tied to Coachella Valley lodging revenues. Pent-up demand for travel experienced immediately after the COVID-19 "lockdown" resulted in record setting revenue levels in the prior year. Demand continued into the current year with travelers willing to pay historically high rates.

Private revenue was higher than the prior year primarily due to the significant rise in interest rates during the current year. The \$411,903 in investment income was a \$709,808 improvement over the prior year loss of \$297,905.

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2023

Expenditure by Type

Several new staff positions were added during the year to manage the expanded sales and marketing efforts created from the increased availability of funds. This resulted in an increase in labor costs.

People continued to enjoy the freedom to travel into this second post-pandemic year. Consumers generally still had accumulated savings acquired during the pandemic and many were willing to spend it on travel. Advertising and marketing efforts were escalated to channel demand to the Greater Palm Springs destination.

The organization had invested in creating additional evergreen marketing assets in the prior year. This allowed for lower marketing production costs in the current year, despite increased spending on advertising placements and digital marketing.

The group meetings market lagged the leisure travel market rebound in the first year post-pandemic. Group business regained momentum in the current year. This resulted in increased familiarization trip activity and expenses. Additional tradeshow and events were attended to capitalize on this growing demand for in-person meetings.

International representation was curtailed during the pandemic. International borders opened more slowly than domestic, so representation services were in less need in the prior year. The current year reflects representation expenses restored to normal levels.

The biggest challenge local hoteliers faced post-pandemic was having sufficient staff. To address this issue, Visit GPS launched a workforce development campaign. Other new special promotions included initiatives related to sustainability, DEI, and cultural tourism.

Visit GPS increased the number and type of events it hosted to create further enticements for leisure traveler visitation. The use of hotel rebates was expanded to further attract group meetings.

New research studies and data was invested in during the year. For example, research for the short-term vacation rental market was conducted and a feasibility study was performed for adding a sports complex in the area.

Information Technology expenses were unusually low in the prior year due to fewer website modifications being required. The cost returned to a more typical level in the current year.

Professional fees increased due to additional support needed for media relations and strategic plan development.

Increased staffing resulted in an increase to Overhead expenses. Most overhead expenses were impacted, such as, employee training, auto mileage, office supplies, building expenses, recruiting expenses, professional dues, postage & shipping, and employee relations. Several computers were also replaced.

Final Analysis

The heightened travel demand and lodging rates travelers are willing to pay has remained strong since the pandemic. This has resulted in record levels of Visit GPS revenues and significant increases in Fund balances.

Current forecasts suggest the number of leisure travelers visiting the area and lodging rates will level off or possibly decline slightly. The group meetings market is showing less signs of softening. It appears the post-pandemic travel surge has run its course and a normalizing trend is currently anticipated.

(1) Summary of Significant Accounting Policies

The basic financial statements of Visit Greater Palm Springs (VGPS) have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of VGPS's accounting policies are described below.

(a) Reporting Entity

The Visit Greater Palm Springs, a public entity formed under California Government Code, is comprised of various government member organizations pursuant to a Joint Powers Agreement (Agreement). The Agreement was entered into by the member organizations, February 8, 1989, to jointly encourage, promote, and enhance all aspects of the hospitality, convention and tourism industries in the Coachella Valley and to attract visitors from a world-wide market. The member organizations are currently comprised of: Cathedral City, Desert Hot Springs, Indian Wells, Indio, La Quinta, Palm Desert, Palm Springs, Rancho Mirage, and Riverside County. Each member organization makes contributions to VGPS based on the members' transient occupancy tax, which is based on gross sales as defined in the Agreement. The Agreement provides for a two-tiered contribution system based upon transient occupancy tax reported from convention and non-convention properties within the member cities.

In November 2008, the Board of Supervisors of the County of Riverside adopted Ordinance 883 which established the Palm Springs Desert Resort Communities Tourism Business Improvement District (TBID) and the levying of annual assessments. The TBID was established to promote tourism within the desert communities and to fund related programs that will benefit the hotel and motel businesses within the desert communities. The boundaries of the TBID match the operational boundaries of VGPS.

The Tourism Marketing District Assessment (TMD) was created in June 2013 with collection beginning on August 1, 2013. This funding source was assessed on hotels in excess of 50 rooms within the defined eight cities and specified areas in the unincorporated part of the County of Riverside. An assessment of one percent on gross room sales was collected by VGPS through June 2016.

On June 17, 2016, the Joint Powers Authority Executive Committee of VGPS held a public hearing and voted to establish a three percent (3%) Tourism Business Improvement District (TBID) assessment of gross short-term rental revenue to replace the current two percent (2%) Business Improvement District and the one percent (1%) Tourism Marketing District Assessment. Coachella Valley vacation rental lodging owners and representatives successfully petitioned to be included in the TBID effective July 1, 2021. All vacation rentals located within the TBID boundaries began contributing 1% of gross rental revenue of short-term stays as of July 2021.

The Greater Palm Springs Tourism Foundation (Foundation) was established in May 2017 to provide support for diverse programming related to the hospitality, convention, and tourism industries with funds raised from individuals, businesses,

organizations and other foundations. Initiatives encompass providing education and leadership training, college scholarships, and volunteer and mentor development.

The Foundation is not a component of VGPS and is reported as a custodial fund in the accompanying financial statement.

(b) Basis of Accounting and Measurement Focus

Government-Wide Financial Statements – The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared.

The government-wide statement of activities presents a comparison between expenses, both direct and indirect of VGPS and for each governmental function and exclude fiduciary activity. Direct expenses are those that are specifically associated with a service, program, or department and are therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of VGPS. Eliminations have been made to minimize the double counting of internal activities.

Net position is reported as restricted when constraints placed on net position use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net position restricted for other activities result from special revenue funds and the restrictions on their net position use.

Fund Financial Statements – Fund financial statements report detailed information about VGPS, including fiduciary funds. Each fund is presented in a separate column and the total governmental activities represent a consolidation of all governmental funds.

Governmental Funds – All governmental funds are accounted for using the flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore,

include reconciliations with brief explanations to better identify the relationship between the government-wide financial statements, prepared using the economic resources measurement focus and the accrual basis of accounting, and the governmental fund financial statements, prepared using the flow of current financial resources measurement focus and the modified accrual basis of accounting.

Fiduciary Funds – Fiduciary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are excluded from the government-wide financial statements because they do not represent resources of VGPS.

Revenues – Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter, to be used to pay liabilities of the current fiscal year. Generally, available is defined as collectible within 120 days.

Expenses/Expenditures – On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable, and typically paid within 90 days. Principal and interest on long-term obligations, which has not matured, are recognized when paid in the governmental funds as expenditures. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds but are recognized in the entity-wide statements.

In the fund financial statements, governmental funds are presented using the *current financial resources measurement focus*. This means that only current assets and current liabilities are generally included on their balance sheets. The reported fund balance (net current assets) is considered to be a measure of “available spendable resources.” Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of “available spendable resources” during a period.

Non-current portions of long-term receivables due to governmental funds are reported on their balance sheets in spite of their spending measurement focus. Special reporting treatments are used to indicate; however, that they should not be considered “available spendable resources,” since they do not represent net current assets.

Due to the nature of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by noncurrent liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

(1) Summary of Significant Accounting Policies (Continued)

When both restricted and unrestricted resources are combined in a fund, expenditures are considered to be paid first from restricted resources, and then from unrestricted resources.

(c) Fund Classifications

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. VGPS's funds are grouped into two fund categories: governmental and fiduciary.

Governmental Funds – Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are VGPS's major governmental funds:

General Fund – The General Fund is the chief operating fund for all governmental entities. It is used to account for the ordinary operations of VGPS. The primary revenue sources are the city/county funding and member dues. All transactions except those accounted for in another fund are accounted for in this fund.

Tourism Business Improvement District (TBID) Fund – This Special Revenue Fund is used to account for all financial activities associated with the collection of the assessments and the use of such assessments as outlined in the TBID Agreement.

Fiduciary Funds – Fiduciary funds are used to account for assets held in trustee or agent capacity for others that cannot be used to support VGPS's own programs.

Defined Benefit Pension Plan Trust Fund – This fund is used to account for the activities of the Visit Greater Palm Springs Defined Benefit Trust, which accumulates resources for pension benefit payments to qualified VGPS employees.

Tourism Foundation Custodial Fund – This fund is used to account for the assets held by the Tourism Foundation fund which VGPS has fiduciary responsibility.

(d) Cash and Cash Equivalents

All cash and investments are held in VGPS's cash management pool. VGPS considers all highly liquid investments with a maturity of three months or less to be cash equivalents. Therefore, for purposes of the statement of cash flows, VGPS

(1) Summary of Significant Accounting Policies (Continued)

considers the entire pooled cash and investment balance to be cash and cash equivalents.

(e) Fair Value

VGPS categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles.

In determining fair value, VGPS's custodians use various methods including market and income approaches. Based on these approaches, VGPS's custodians utilize certain assumptions that market participants would use in pricing the asset or liability. VGPS's custodians utilize valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs.

Various inputs are used in determining the value of VGPS's investments and other financial instruments. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. These inputs are summarized in the three broad levels: Level 1 – quoted prices in active markets for identical investments, Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.) and Level 3 – significant unobservable inputs (including VGPS's own assumptions in determining the fair value of instruments).

(f) Investments

Investments are reported at fair value, which is the amount at which financial instruments could be exchanged in a current transaction between willing parties. Investments are measured at fair value on a recurring basis. Recurring fair value measurements are those that Governmental Accounting Standards Board (GASB) Statements require or permit in the statement of net position at the end of each reporting period.

(g) Prepaid Items

Prepaid items represent amounts paid in advance of receiving goods or services.

(h) Stores Inventories

Stores inventories consist of expendable supplies held for consumption and recorded as an expense when used rather than when purchased. Inventories are stated at cost and are tracked monthly by VGPS.

(i) Capital Assets

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. Capital assets are long-lived assets of VGPS. VGPS maintains a capitalization threshold of \$5,000 for tangible assets and \$50,000 for intangible assets. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized but are expensed as incurred.

When purchased, assets are recorded as expenditures in the governmental funds and capitalized in the government-wide statement of net position. The valuation basis for capital assets is historical cost, or where historical cost is not available, estimated historical cost based on replacement cost. Donated capital assets are recorded at acquisition value.

Depreciation is calculated on the straight-line method over the following estimated useful lives of the assets:

Buildings	20 - 40 years
Improvements	15 - 20 years
Equipment	3 - 10 years
Furniture	7 years
Vehicles	5 years
Intangible Subscription-based IT asset	5 years

(j) Interfund Activity

Interfund transfers and interfund receivables and payables are eliminated during the consolidation process in the entity-wide financial statements.

(k) Compensated Absences

Compensated absences are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide statement of net position. For governmental funds, the current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignations and retirements that occur prior to year-end that have not yet been paid with expendable available financial resources. These amounts are reported in the fund from which the employees who have accumulated leave are paid.

(l) Subscription-Based Information Technology (IT) Arrangements

VGPS is a participant in subscription-based IT arrangements as detailed in Footnote 5. VGPS recognizes a subscription-based IT payable and right-to-use IT asset in the financial statements.

(1) Summary of Significant Accounting Policies (Continued)

At the commencement of the arrangement, VGPS initially measures the payable at the present value of payments expected to be paid during the arrangement term. Subsequently, the payable is reduced by the principal portion of payments made. The right to use assets are initially measured at the initial amount of the subscription-based IT payable. Subsequently, the right to use assets are amortized over the life of the arrangement term.

(m) Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Visit Greater Palm Springs Defined Benefit Pension Plan and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the actuary. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The following timeframes are used for pension reporting:

Valuation Date	June 30, 2023
Measurement Date	June 30, 2023
Measurement Period	July 1, 2022 to June 30, 2023

(n) Other Post-Employment Benefits

For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, and information about the plan (OPEB Plan), have been determined by an independent actuary. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms.

Generally accepted accounting principles require that the reported results must pertain to the liability information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date	June 30, 2021
Measurement Date	June 30, 2022
Measurement Period	July 1, 2021 to June 30, 2022

(o) Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period and so will not be recognized as an outflow of resources (expense) until then. VGPS has two items that qualify for reporting in this category, deferred outflows related to pensions and OPEB.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period and will not be recognized as an inflow (revenue) until that time. VGPS has two items that qualify for reporting in this category, deferred inflow related to pensions and OPEB. A third item, unavailable revenue, is reported only in the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

(p) Fund Balance

Fund balances are reported in the fund statements in the following classifications:

Nonspendable Fund Balance – this includes amounts that cannot be spent because they are either not spendable in form (such as inventory) or legally or contractually required to be maintained intact (such as endowments).

Restricted Fund Balance – this includes amounts that can be spent only for specific purposes stipulated by legal requirements imposed by other governments, external resource providers, or creditors. Board of Directors imposed restrictions do not create restricted fund balance unless the legal document that initially authorized the revenue (associated with that portion of fund balance) also included language that specified the limited use for which the authorized revenues were to be expended.

Committed Fund Balance – this includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Board of Directors. Those committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (for example, resolution, ordinance, minutes action, etc.) that it employed to previously commit those amounts. If the Board action that limits the use of the funds was separate from the action that initially created the revenues that form the basis for the fund balance, then the resulting fund balance is considered to be committed, not restricted.

VGPS considers a resolution to constitute a formal action of the Board of Directors for the purposes of establishing committed fund balance.

(1) Summary of Significant Accounting Policies (Continued)

Assigned Fund Balance – this includes amounts that are intended to be used for specific purposes as indicated either by the Board of Directors or by persons to whom the Board has delegated the authority to assign amounts for specific purposes.

Unassigned Fund Balance – this includes the remaining spendable amounts which are not included in one of the other classifications.

It is VGPS's policy that restricted resources will be applied first, followed by (in order of application) committed, assigned, and unassigned resources, in the absence of a formal policy adopted by the Board of Directors.

(q) Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(r) Comparative Information

Selected information regarding the prior year has been included in the accompanying financial statements. This information has been included for comparison purposes only and does not represent a complete presentation in accordance with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the government's prior year financial statements, from which selected financial data was derived. Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that VGPS manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of VGPS's investments to market interest rate fluctuations are provided by the following table that shows the distribution of VGPS's investments by maturity as of June 30, 2023.

Investment Type	Fair Value	12 Months Or Less

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization.

Presented below is the minimum rating required by (where applicable) the California Government Code or VGPS's Investment Policy, or debt agreements, and the S&P ratings as of June 30, 2023 for each investment type.

Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in possession of another party. The California Government Code and VGPS's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The fair value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies.

California law also allows financial institutions to secure deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured deposits.

Investment Pools

Local Agency Investment Fund (LAIF) – VGPS is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The fair value of VGPS's investment in the Pool is reported in the accompanying financial statement at amounts based upon VGPS's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which is recorded on the amortized cost basis. LAIF is not registered with the Securities and Exchange Commission and is not rated.

Investment Trust of California (CalTrust) – VGPS is a voluntary participant in the Investment Trust of California (CalTrust). Organized as a Joint Powers Authority (JPA), CalTrust is a program established by public agencies in California for the purpose of pooling and investing local agency funds. A Board of Trustees supervises and administers the investment program of the Trust. CalTrust invests in fixed income securities eligible for investment pursuant to California Government Code Sections 53601, et. Seq. and 53635, et. Seq. VGPS reports its investment in CalTrust at the fair value amount provided by CalTrust, which is the same as the value of the pool shares.

(6) Other Post-Employment Benefits (OPEB)

Plan Description

VGPS's defined benefit OPEB plan (Plan) provides healthcare benefits to eligible retirees. VGPS sponsors healthcare coverage under the California Public Employees Medical and Hospital Care Act (PEMHCA), commonly referred to as PERS Health. PEMHCA provides health insurance through a variety of Health Maintenance Organization (HMO) and Preferred Provider Organization (PPO) options.

The Visit Greater Palm Springs Retiree Healthcare Plan is a single-employer defined benefit healthcare plan administered by VGPS which provides healthcare benefits to eligible retirees and their spouses in accordance with benefit provisions, which are established and may be amended by VGPS. Assets are accumulated in a trust; however, the trust does not meet the criteria in paragraph 4 of Statement 75. As a result, the trust assets are reported in the General Fund as restricted cash and investments.

Benefits Provided

Employees who have obtained age 55, have at least 10 years of service, and participate in the Greater Palm Springs Defined Benefit Pension Plan are eligible for a VGPS-paid contribution. VGPS contributes towards individual medical, dental and vision policies for qualified retirees up to Medicare eligibility. Once a retiree is Medicare eligible, VGPS will pay a Medicare supplemental plan and Medicare Part D. The monthly contribution is 50% of the total premium (medical, dental, and vision) for those with 10 years of service, increasing by increments of 5% per each additional year of service, until 20 years, where the contribution is 100%. Spouse benefits are available. In addition, VGPS contributes the PEMHCA administrative fee. VGPS-paid benefits are provided for the lifetime of the retiree.

Plan Membership

At July 1, 2021 (valuation date), membership consisted of the following:

Active members	21
Inactive plan members or beneficiaries currently receiving benefit payments	_____ 6
Total plan members	_____ <u>27</u>

Contributions

The contribution requirements of the plan members and VGPS are established by and may be amended by VGPS. VGPS funds the plan benefits on a pay-as-you-go basis. Participants are required to contribute to the cost of benefits under the plan. VGPS pays 50% of the benefit premium as a base contribution plus an additional five percent of the benefit premium for each full year of continuous paid service with VGPS in excess of 10 years of service.

GASB requires governments to account for other post-employment benefits (OPEB) on an accrual basis, rather than a pay-as-you-go basis. The effect is the recognition of an actuarially determined expense when a future retiree earns their post-employment benefits, rather than when they use their post-employment benefits.

Total OPEB Liability

VGPS's total OPEB liability was measured as of June 30, 2022 and was determined by an actuarial valuation as of June 30, 2021.

The Total OPEB liability was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Actuarial Cost Method	Entry Age, Level Percent of Pay
Actuarial Assumptions:	
Salary increases	3.00 percent
Inflation rate	2.50 percent
Discount rate	3.69 percent
Healthcare cost trend rate	5.20 percent for 2022 through 2034; 5.00 percent for 2035 through 2049; 4.50 percent for 2050 through 2064; and 4.00 percent for 2065 and later years

Pre-retirement mortality rates were based on the CalPERS Public Agency Miscellaneous and Schools Pre-Retirement Mortality, with fully generational mortality improvement using 80% of MP-2020. Post-retirement mortality rates were based on the CalPERS Public Agency Post-Retirement Morality with fully generational mortality improvement using 80% of MP-2020 (2021 CalPERS Experience Study).

Actuarial assumptions used in the June 30, 2021 valuation were based on a review of Plan experience during the period of July 1, 2019 to June 30, 2021.

Discount Rate

GASB requires a discount rate that reflects the following:

- a) The long-term expected rate of return on OPEB plan investments – to the extent that the OPEB plan's fiduciary net position (if any) is projected to be enough to make projected benefit payments and assets are expected to be invested using a strategy to achieve that return;

(6) Other Post-Employment Benefits (OPEB) (Continued)

b) A yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher – to the extent that the conditions in (a) are not met.

To determine a resulting single (blended) rate, the amount of the plan's projected fiduciary net position (if any) and the amount of projected benefit payments is compared in each period of projected benefit payments. The discount rate used to measure the VGPS's Total OPEB liability is based on these requirements and the following information:

Reporting Date	Measurement Date	Long-Term Expected Return on Plan Investments (if any)	Fidelity GO AA 20 Years Municipal Index	Discount Rate

Amortization of Deferred Outflows and Deferred Inflows of Resources

Under GASB 75, actuarial gains and losses related to changes in total OPEB liability are recognized in OPEB expense systematically over time.

The first amortized amounts are recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense.

Plan Description

VGPS sponsors a defined benefit pension plan, the Visit Greater Palm Springs Defined Benefit Trust (the Trust), a single-employer plan, which provides retirement benefits to plan members and beneficiaries. The cost of living adjustments for the plan are applied as specified by the Public Employees' Retirement Law.

The Plan's provisions and benefits in effect at June 30, 2023 are summarized as follows:

(7) Defined Benefit Pension Plan (Continued)

The mortality table used was developed based on CalPERS specific data. The probabilities of mortality are based on the 2021 CalPERS Experience Study. For more details on this table, please refer to the CalPERS Experience Study and Review of Actuarial Assumptions report from 2021 that can be found on the CalPERS website.

Discount Rate

The discount rate used to measure the total pension liability was 6.00 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that VGPS's contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

In determining the long-term expected 6.00 percent rate of return on pension plan investments, VGPS considered both the short and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the pension funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund.

The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest on quarter of one percent.

The table below reflects the long-term expected rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

<u>Asset Class</u>	<u>Asset Allocation</u>	<u>Real Rate of Return</u>

Liabilities are recorded when it is probable that a loss has been incurred, and the amount of the loss can be reasonably estimated net of the respective insurance coverage.

(9) Related Party Transactions

Due to the nature of the organization, it is not uncommon for VGPS to have business transactions with companies that are owned by members of the Board of Directors of VGPS. The total related party transactions for the fiscal year ending June 30, 2023, were \$92,500.

(10) Subsequent Events

Effective July 1, 2023, VGPS began providing additional retirement benefits to employees who are both participants in the Defined Benefit Pension Plan ("Pension Plan") on or after July 1, 2023, including both Classic and PEPRA members and receive compensation, including salary and bonus, in excess of the IRS pension plan compensation limits or California Governmental Pension regulations. This is a defined contribution plan with 100% of the contributions funded by VGPS. Eligible employees can direct contributions into either a Retiree Health Savings Plan or the 401(a) Directors Plan. The benefit contribution rate is determined by the Pension Plan actuary for a given year. The plan's initial contributions were calculated beginning July 1, 2019, to June 30, 2020. In fiscal year 2024, VGPS made contributions for eligible employees totaling \$343,454 for the prior four fiscal years, 2021 through 2023. Considering the effective date of the plan, no contributions were accrued to fiscal year 2023.

(1) Budgets and Budgetary Data

VGPS is only required to adopt an annual budget for the General Fund and the TBID special revenue fund. These budgets are presented on the modified accrual basis of accounting which is consistent with generally accepted accounting principles (GAAP).

Once the budgets are approved, they can be amended by approval of VGPS Governing Board.

The appropriated budget is prepared by fund and department. VGPS's President may make transfers of appropriations between accounts and departments. Transfers of appropriations between funds requires the approval of a majority of the Board of Directors. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is at the fund level.

A comparison of budget and actual has been presented for the General Fund and the TBID special revenue fund used by VGPS. With respect to revenues, a favorable variance indicates actual revenues received exceeded the legally adopted budget and an unfavorable variance indicates that actual revenues received were less than the amount budgeted. With respect to expenditures, a favorable variance indicates actual costs were less than the amount budgeted and an unfavorable variance indicates actual expenditures exceeded the legally adopted budget.

REQUIRED AUDIT COMMUNICATIONS

JPA Executive Committee
Visit Greater Palm Springs
Rancho Mirage, California

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information Visit Greater Palm Springs (VGPS) for the year ended June 30, 2023. Professional standards require that we advise you of the following matters relating to our audit.

Our Responsibility in Relation to the Financial Statement Audit

As communicated in our engagement letter dated October 3, 2023, our responsibility, as described by professional standards, is to form and express an opinion about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of your respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of VGPS solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

Planned Scope and Timing of the Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, as appropriate, and our firm have complied with all relevant ethical requirements regarding independence.

We identified self-review threats to independence as a result of non-attest services provided. The non-attest service included preparing the financial statements. To mitigate the risk, management has compared the draft financial statements and footnotes to the underlying accounting records to verify accuracy and has reviewed a disclosure checklist to ensure footnotes are complete and accurate. Additionally, we utilize a quality control reviewer to

perform a second review of journal entries and the financial statements. We believe these safeguards are sufficient to reduce the independence threats to an acceptable level.

Significant Risks Identified

We are required by the auditing standards to evaluate significant risks. We have identified the following areas for additional audit emphasis:

- The new Subscription-based IT arrangement accounting standard, Governmental Accounting Standards Board (GASB) Statement No. 96. As a result, we received the VGPS's inventory of subscriptions, reviewed a sample of subscription agreements, tested the calculations of the subscription transactions, and ensured VGPS's subscription disclosure footnotes are accurate and complete in accordance with the new standard.
- VGPS's implementation of new accounting software was identified as a significant risk due to potential disruptions in accounting processes, data migration issues, and challenges in integrating the system with existing processes, all of which can impact the accuracy of financial reporting.

Qualitative Aspects of the Entity's Significant Accounting Practices

Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by VGPS is included in Note 1 to the financial statements. There have been no initial selection of accounting policies and As described in Note 1 to the financial statements, during the year, the entity changed its method of accounting for SBITAs by adopting Governmental Accounting Standards Board (GASB) Statement No. 96, *Subscription-Based Information Technology Agreements* (SBITA) No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Significant Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments.

The most sensitive accounting estimates affecting the financial statements include:

- Management's estimate of transactions related to net pension and OPEB liabilities based on actuarial information.

We evaluated the key factors and assumptions used to develop the estimate and determined that it is reasonable in relation to the basic financial statements taken as a whole and in relation to the applicable opinion units.

Financial Statement Disclosures

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting VGPS's financial statements were:

- The disclosure of pensions in note 7 to the financial statements
- The disclosure of OPEB in note 6 to the financial statements.
- The disclosure of Subscription-Based Information Technology arrangements in notes 4 and 5 of the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Significant Unusual Transactions

For purposes of this communication, professional standards require us to communicate to you significant unusual transactions identified during our audit. There were no unusual transactions noted as a result of our audit procedures.

Significant Difficulties Encountered during the Audit

We encountered difficulties during the audit due to the implementation of the new accounting software and significant modifications needed to organize the funds in a manner that is consistent with financial reporting.

Uncorrected and Corrected Misstatements

For purposes of this communication, professional standards also require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole and each applicable opinion unit. There were no uncorrected misstatements.

In addition, professional standards require us to communicate to you all material, corrected misstatements that were brought to the attention of management as a result of our audit procedures. The following material misstatements that we identified as a result of our audit procedures were brought to the attention of, and corrected by, management: entries to remove government-wide accounts and transactions from the general fund, entries to correct fund balance, entries to remove prepaid expense and accounts payable amounts recorded for fiscal year 2024, along with entries to correct balances for SBITA assets and the related accumulated amortization, and adjustments to reclassify salaries and wages expenditures along with payroll liabilities.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the VGPS's financial statements or the auditor's report. No such disagreements arose during the course of the audit.

Representations Requested from Management

We have requested certain written representations from management in a letter dated May 31, 2024.

Management's Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings, or Issues

In the normal course of our professional association with VGPS, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, significant events or transactions that occurred during the year, operating and regulatory conditions affecting VGPS, and operational plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as VGPS's auditors.

This report is intended solely for the information and use of the Executive Committee and management of VGPS and is not intended to be and should not be used by anyone other than these specified parties.

**Report on Internal Control Over Financial Reporting and on Compliance and Other
Matters Based on an Audit of Financial Statements Performed in Accordance With
*Government Auditing Standards***

JPA Executive Committee
Visit Greater Palm Springs
Rancho Mirage, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Visit Greater Palm Springs (VGPS), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively VGPS's basic financial statements, and have issued our report thereon dated May 31, 2024.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered VGPS's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of VGPS's internal control. Accordingly, we do not express an opinion on the effectiveness of VGPS's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect, and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of VGPS's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of weaknesses, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified the following deficiencies in internal control to be a significant deficiencies:

(1) Chart of Accounts Should Support Financial Statement Presentation

VGPS transitioned to new accounting software during the year ending June 30, 2023. The new chart of accounts required significant modification to align with financial statement presentation. In addition, governmental funds did not follow the modified accrual basis of accounting and included long-term debt,

pension/OPEB liabilities, and fixed asset balances. We understand that VGPS is in the process of continuing to modify the accounting system to conform to governmental fund accounting reporting.

Recommendation

We recommend that VGPS implements enhanced internal controls to ensure accurate and compliant financial reporting within their accounting software in alignment with the financial statements. We also recommend VGPS create a separate fund to account for full accrual activities and present governmental funds on the correct basis of accounting.

Management's Response

Management agrees with this recommendation. Use of a separate fund to account for full accrual activities was implemented within 24 hours of receiving this request. Additional customized reports will be developed within the accounting system to support financial reporting.

(2) Financial Close and Reporting Controls

For best practices, management should consider adding a financial close and reporting controls to ensure that all material year-end adjustments are needed to ensure that the financial statements are materially correct. During our audit we detected material adjustments including: adjustments to correct SBITA balances for assets and the related accumulated depreciation, and liabilities, as well as adjustments to reclassify payroll and payroll-related expenses and liabilities.

Management's Response

Management agrees with this recommendation. Additional review protocols will be added to the annual close process to reduce the possibility of undetected errors.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether VGPS's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

VGPS's Response to Findings

VGPS's response to the finding identified in our audit is described in the previous section. VGPS's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of VGPS's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

GASB Statement No. 100: *Accounting Changes and Error Corrections*—an amendment of GASB Statement No. 62

The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. This Statement defines *accounting changes* as changes in accounting principles, changes in accounting estimates, and changes to or within the financial reporting entity and describes the transactions or other events that constitute those changes. As part of those descriptions, for (1) certain changes in accounting principles and (2) certain changes in accounting estimates that result from a change in measurement methodology, a new principle or methodology should be justified on the basis that it is preferable to the principle or methodology used before the change. That preferability should be based on the qualitative characteristics of financial reporting—understandability, reliability, relevance, timeliness, consistency, and comparability. This Statement also addresses corrections of errors in previously issued financial statements.

The standard will be effective for the fiscal year ending June 30, 2024.

GASB Statement No. 101: *Compensated Absences*

The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. Leave is attributable to services already rendered when an employee has performed the services required to earn the leave. Leave that accumulates is carried forward from the reporting period in which it is earned to a future reporting period during which it may be used for time off or otherwise paid or settled. In estimating the leave that is more likely than not to be used or otherwise paid or settled, a government should consider relevant factors such as employment policies related to compensated absences and historical information about the use or payment of compensated absences. However, leave that is more likely than not to be settled through conversion to defined benefit postemployment benefits should not be included in a liability for compensated absences.

The standard will be effective for the fiscal year ending June 30, 2025.

GASB Statement No. 102: *Certain Risk Disclosures*

State and local governments face a variety of risks that could negatively affect the level of service they provide or their ability to meet obligations as they come due. Although governments are required to disclose information about their exposure to some of those risks, essential information about other risks that are prevalent among state and local governments is not routinely disclosed because it is not explicitly required. This Statement requires a government to assess whether a

concentration or constraint makes the primary government reporting unit or other reporting units that report a liability for revenue debt vulnerable to the risk of a substantial impact.

The standard will be effective for the fiscal year ending June 30, 2025.
