Comments:	When the President is here and PBI diverts air traffic to the north, our area (CityPlace, Grandview Heights, Flamingo Park, etc.) becomes incredibly noisy with flights directly overhead. The noise penetrates the old historic homes (many of which do not have impact windows) so it's pretty miserable even inside with the windows shut --- and it's ridiculously noisy with the windows open or trying to sit outside on a nice weekend afternoon. Please try to figure out some accommodation that reduces the impact of flight noise on us. I just bought my house in

Grandview Heights last spring and would not have done so if it was going to be in the PBIA main flight path. Feel free to share my comments with whoever makes the decisions about flight path. Thanks.
